SAP AT LUMIFY WORK

Develop your SAP empowered employees with Lumify Work. Getting the right skills in place maximises the chance of project success and removes risk. Lumify Work provides a select range of SAP training courses for SAP S/4HANA, SAP HANA, SAP BusinessObjects and more. Lumify Work can work with you to navigate the curriculum and help you create a learning plan that will ultimately boost technology proficiency across your organisation.

WHY STUDY THIS COURSE

This course will give you a comprehensive overview and in depth knowledge of the inventory management process in SAP.

After attending this class you will understand the major business processes, functions, and configuration in inventory management. This course should be taken after the **SCM500** curriculum prerequisite.

This course is based on software release:

- SAP ERP 6.0 with Enhancement Package 7

This course is also available in a self-paced e-learning format, complete with system demonstrations and simulations, under course code SC510E.

WHAT YOU'LL LEARN

This course will prepare you to:

- › Learn the basic functions of inventory management and physical inventory, and how to create different goods movements in the SAP system
- › Become familiar with the special functions of inventory management and physical inventory, and the Customising settings relevant to inventory management and physical inventory

SAP Inventory Management and Physical Inventory (SCM510)

My instructor was great being able to put scenarios into real world instances that related to my specific situation.

I was made to feel welcome from the moment I arrived and the ability to sit as a group outside the classroom to discuss our situations and our goals was extremely valuable.

I learnt a lot and felt it was important that my goals by attending this course were met.

Great job Lumify Work team.
