SAP AT LUMIFY WORK

Develop your SAP empowered employees with Lumify Work. Getting the right skills in place maximises the chance of project success and removes risk. Lumify Work provides a select range of SAP training courses for SAP S/4HANA, SAP HANA, SAP BusinessObjects and more. Lumify Work can work with you to navigate the curriculum and help you create a learning plan that will ultimately boost technology proficiency across your organisation.

WHY STUDY THIS COURSE

This course will give you the fundamental knowledge and a comprehensive overview of the processes in procurement in SAP.

After attending this class you will understand the major business processes and functions in materials management. This course is a prerequisite for any further curriculum in Supply Chain Management (SCM).

This course is based on software release:

- SAP ERP 6.0 with Enhancement Package 7

This course is also available in a self-paced e-learning format, complete with system demonstrations and simulations, under course code SC500E.

WHAT YOU'LL LEARN

This course will prepare you to:

- › Learn about the fundamental elements of materials management
- › Understand usage of the procurement processes for stock material, consumable materials, and services, the basic functions from purchasing, inventory management, invoice verification, service entry, and materials planning
- › Gain first-hand practical experience of the above processes using topic-specific exercises in the SAP system

SAP Processes in Procurement (SCM500)

My instructor was great being able to put scenarios into real world instances that related to my specific situation.

I was made to feel welcome from the moment I arrived and the ability to sit as a group outside the classroom to discuss our situations and our goals was extremely valuable.

I learnt a lot and felt it was important that my goals by attending this course were met.

Great job Lumify Work team.
