CISSP®

Certified Information
Systems Security Professional

An (ISC)² Certification

Is the CISSP Right for Me?

The CISSP is ideal for information security professionals seeking to prove their understanding of cybersecurity strategy and hands-on implementation. It shows you have the advanced knowledge and technical skills to design, develop and manage an organization's overall security posture.

Experience

To qualify for the CISSP, candidates must pass the exam and have at least five years of cumulative, paid work experience in two or more of the eight domains of the (ISC)² CISSP Common Body of Knowledge (CBK[®]).

A candidate who doesn't yet have the required experience to become a CISSP may become an [Associate of \(ISC\)²](#) after successfully passing the CISSP exam. The Associate of (ISC)² will then have six years to earn the experience needed for CISSP certification.

5
YEARS

Jobs that Typically Use or Require the CISSP

- » Chief Information Officer
- » Chief Information Security Officer
- » Director of Security
- » IT Director/Manager
- » Network Architect
- » Security Analyst
- » Security Architect
- » Security Auditor
- » Security Consultant
- » Security Manager
- » Security Systems Engineer

The CISSP has provided me with an increased level of credibility and trustworthiness. It has also given me a great opportunity to meet and collaborate with other security professionals through my local (ISC)² member chapter and industry events such as the annual (ISC)² Security Congress conference.

Walter Speelman
Senior Security Specialist, IAM
Walt Disney Company
Orlando, Florida, USA

Being an Associate of (ISC)² has opened many new doors and opportunities for me. As a CISSP, I am immediately connected to resources and a network of like-minded people as we work together to inspire a safe and secure cyber world.

Lucy Chaplin
Manager
Wavestone
London, UK

CISSPs from Around the Globe

When I achieved the CISSP, clients and other professionals in the field began to approach me with full confidence. Because the CISSP extends beyond the technicalities and focuses on hands-on application of knowledge, stakeholders know you can effectively identify risks – and efficiently evaluate how to mitigate them.

Shashana Campbell
Manager, Cyber Risk Advisory
Grant Thornton LLP
Philadelphia, Pennsylvania, USA

Preparing for the CISSP gave me invaluable insight to better manage and communicate with different stakeholders, including engineering and DevOps. Since passing the CISSP exam, I have also attracted the attention and respect of employers and recruiters, which brings great self-satisfaction.

Samana Haider
Manager, Security Labs
Forcepoint
Dublin, Ireland

Benefits of Being CISSP-Certified

Career advancement

Raise visibility and credibility, improve job security and create new opportunities.

Versatile skills

Vendor-neutral so skills can be applied to different technologies and methodologies.

Respect

Differentiate yourself to employers, clients and peers.

Solid foundation

Be better prepared to stem cyber attacks and inspire a safe and secure cyber world.

Community of professionals

Gain access to (and respect from) a global community of like-minded cybersecurity leaders.

Higher salaries

On average, (ISC)² members report earning 35% more than non-members.

Expanded knowledge

Reach a deeper, better and broader understanding of the common body of knowledge for cybersecurity.

Stronger skill set

Expand the skills and knowledge needed to fulfill organizational duties.

Benefits of (ISC)² Membership

Once you earn your CISSP, you become an (ISC)² member and part of a professional community that never stops learning and growing. You also gain access to a full suite of benefits and resources for continuing education and development:

- » Free subscription to InfoSecurity Professional Magazine
- » Member pricing for (ISC)² events
- » 50% off official (ISC)² textbooks
- » Deep discounts on industry conferences
- » Expert-led webinars on the latest security issues
- » The ability to join or start a local (ISC)² Chapter
- » Immersive online professional development courses
- » Volunteer opportunities
- » Safe and Secure Online program
- » Professional recognition through (ISC)² Awards Programs
- » Digital badges to promote expertise
- » (ISC)² Member Perks

Digital Badges Show Off Your Skills

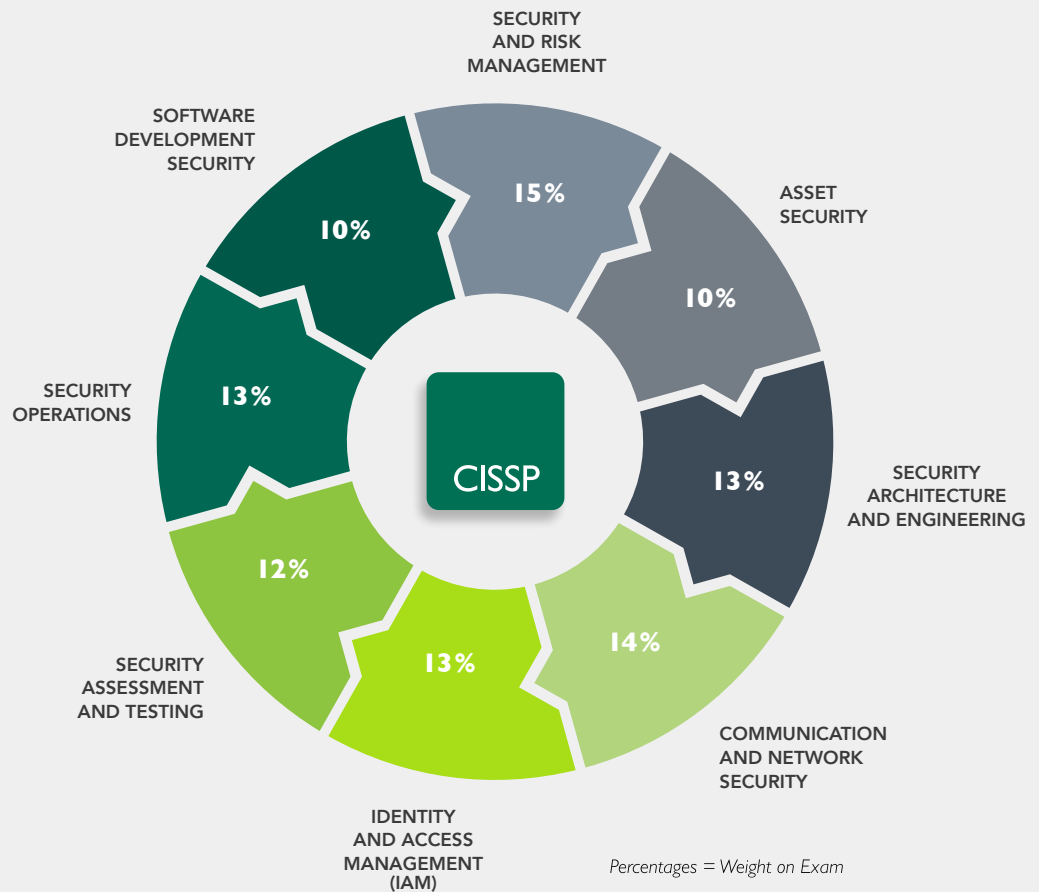

A digital badge is the cool (and secure) way to share your credential online. You can attach it to a website, digital resume, email signature or social network. And with one simple click, employers and colleagues can verify your credential – and all that's required to earn it.

Easy to claim and use, digital badges let you...

- » Share abilities online
- » Prove verification of abilities in real time
- » Show the experience and knowledge required to earn your CISSP

CISSP Exam Overview

The CISSP exam evaluates expertise across eight security domains. (Think of domains as topics you need to master based on your professional experience and education.) Passing the exam proves you have the advanced knowledge and technical skills to effectively design, implement and manage a best-in-class cybersecurity program.

100 - 150

Number of items on the English CISSP CAT (Computer Adaptive Testing) exam

The non-English linear, fixed-form CISSP exam has 250 items

3

hrs.

Maximum amount of time for the CISSP CAT exam

The non-English linear, fixed-form CISSP exam allows 6 hours to complete

700

Pathway to CISSP Certification

Obtain the Required Experience

To qualify for the CISSP, candidates must have at least five years of cumulative, paid full-time work experience in two or more of the eight domains:

Domain 1. Security and Risk Management

Domain 2. Asset Security

Domain 3. Security Architecture and Engineering

Domain 4. Communication and Network Security

Domain 5. Identity and Access Management (IAM)

Domain 6. Security Assessment and Testing

Domain 7. Security Operations

Domain 8. Software Development Security

If you don't have enough experience yet, you can still pass the CISSP exam and become an Associate of (ISC)² while you earn the work experience needed.

Study for the Exam

Many [self-study resources](#) are available from (ISC)² – the creator and keeper of the CISSP CBK – to help you prepare with confidence. Some CISSP candidates pass the exam with self-study, and many choose to attend an [\(ISC\)² Direct Training](#) seminar to review and refresh knowledge before sitting for the exam.

Pass the Exam

Candidates are given a maximum of three hours to complete the 100 – 150-item English CISSP CAT exam, or six hours to complete the 250-item non-English CISSP linear exam. If you're ready now, schedule your exam by creating an account with [Pearson VUE](#), the leading provider of global, computer-based testing for certification and licensure exams.

Get Endorsed

After you pass the exam, you will have nine months from the date of the exam to complete the [\(ISC\)² endorsement process](#).

Earn CPEs

Once you are certified, you become a member of (ISC)² and recertify every three years. Recertification is accomplished by earning continuing professional education (CPE) credits and paying an annual membership fee (AMF) to support ongoing development.

120 CPEs

US \$85 AMF

3 years

New AMF rates effective **July 1, 2019**.

Learn more at www.isc2.org/AMFs-Overview.

Free CPE Opportunities

The CPE requirement helps you maintain your competencies following initial certification. By developing and enhancing skills through CPE activities, you make an important investment in yourself while increasing value to customers and employers.

(ISC)² makes it possible for you to earn all your CPE credits without spending a dime.
