Microsoft Azure

Upskill with Azure certifications

Advance your career, earn recognition, and validate your technical knowledge and ability in current and future industry job-roles with Microsoft Azure certifications.

Growing your skills with Azure can help you turn ideas into solutions with more than 200 services to build, deploy, and manage applications—in the cloud, on-premises, and at the edge—using the tools and frameworks of your choice. Visit the certifications page to get started.

Azure Administrator Associate
Azure Administrators implement, manage, and monitor an organization's Microsoft Azure environment.

Azure Security Engineer Associate
Azure Security Engineers implement security controls and threat protection; manage identity and access; and protect data, applications, and networks in cloud and hybrid environments as part of end-to-end infrastructure.

Azure Virtual Desktop Specialty
Administrators for Azure Virtual Desktop plan, deliver, and manage virtual desktop experiences and remote apps, for any device, on Azure.

Azure Stack Hub Operator Associate
Azure Stack Hub operators provide cloud services to their end users or customers from within their own datacenter using Azure Stack Hub.

Azure for SAP Workloads Specialty
Architects or engineers for Azure for SAP Workloads have extensive experience and knowledge of the SAP system landscape and industry standards that are specific to the initial migration or integration and the long-term operation of an SAP solution on Microsoft Azure.

Azure Data Scientist Associate
Azure Data Scientists apply data science and machine learning to implement and run machine learning workloads on Azure.
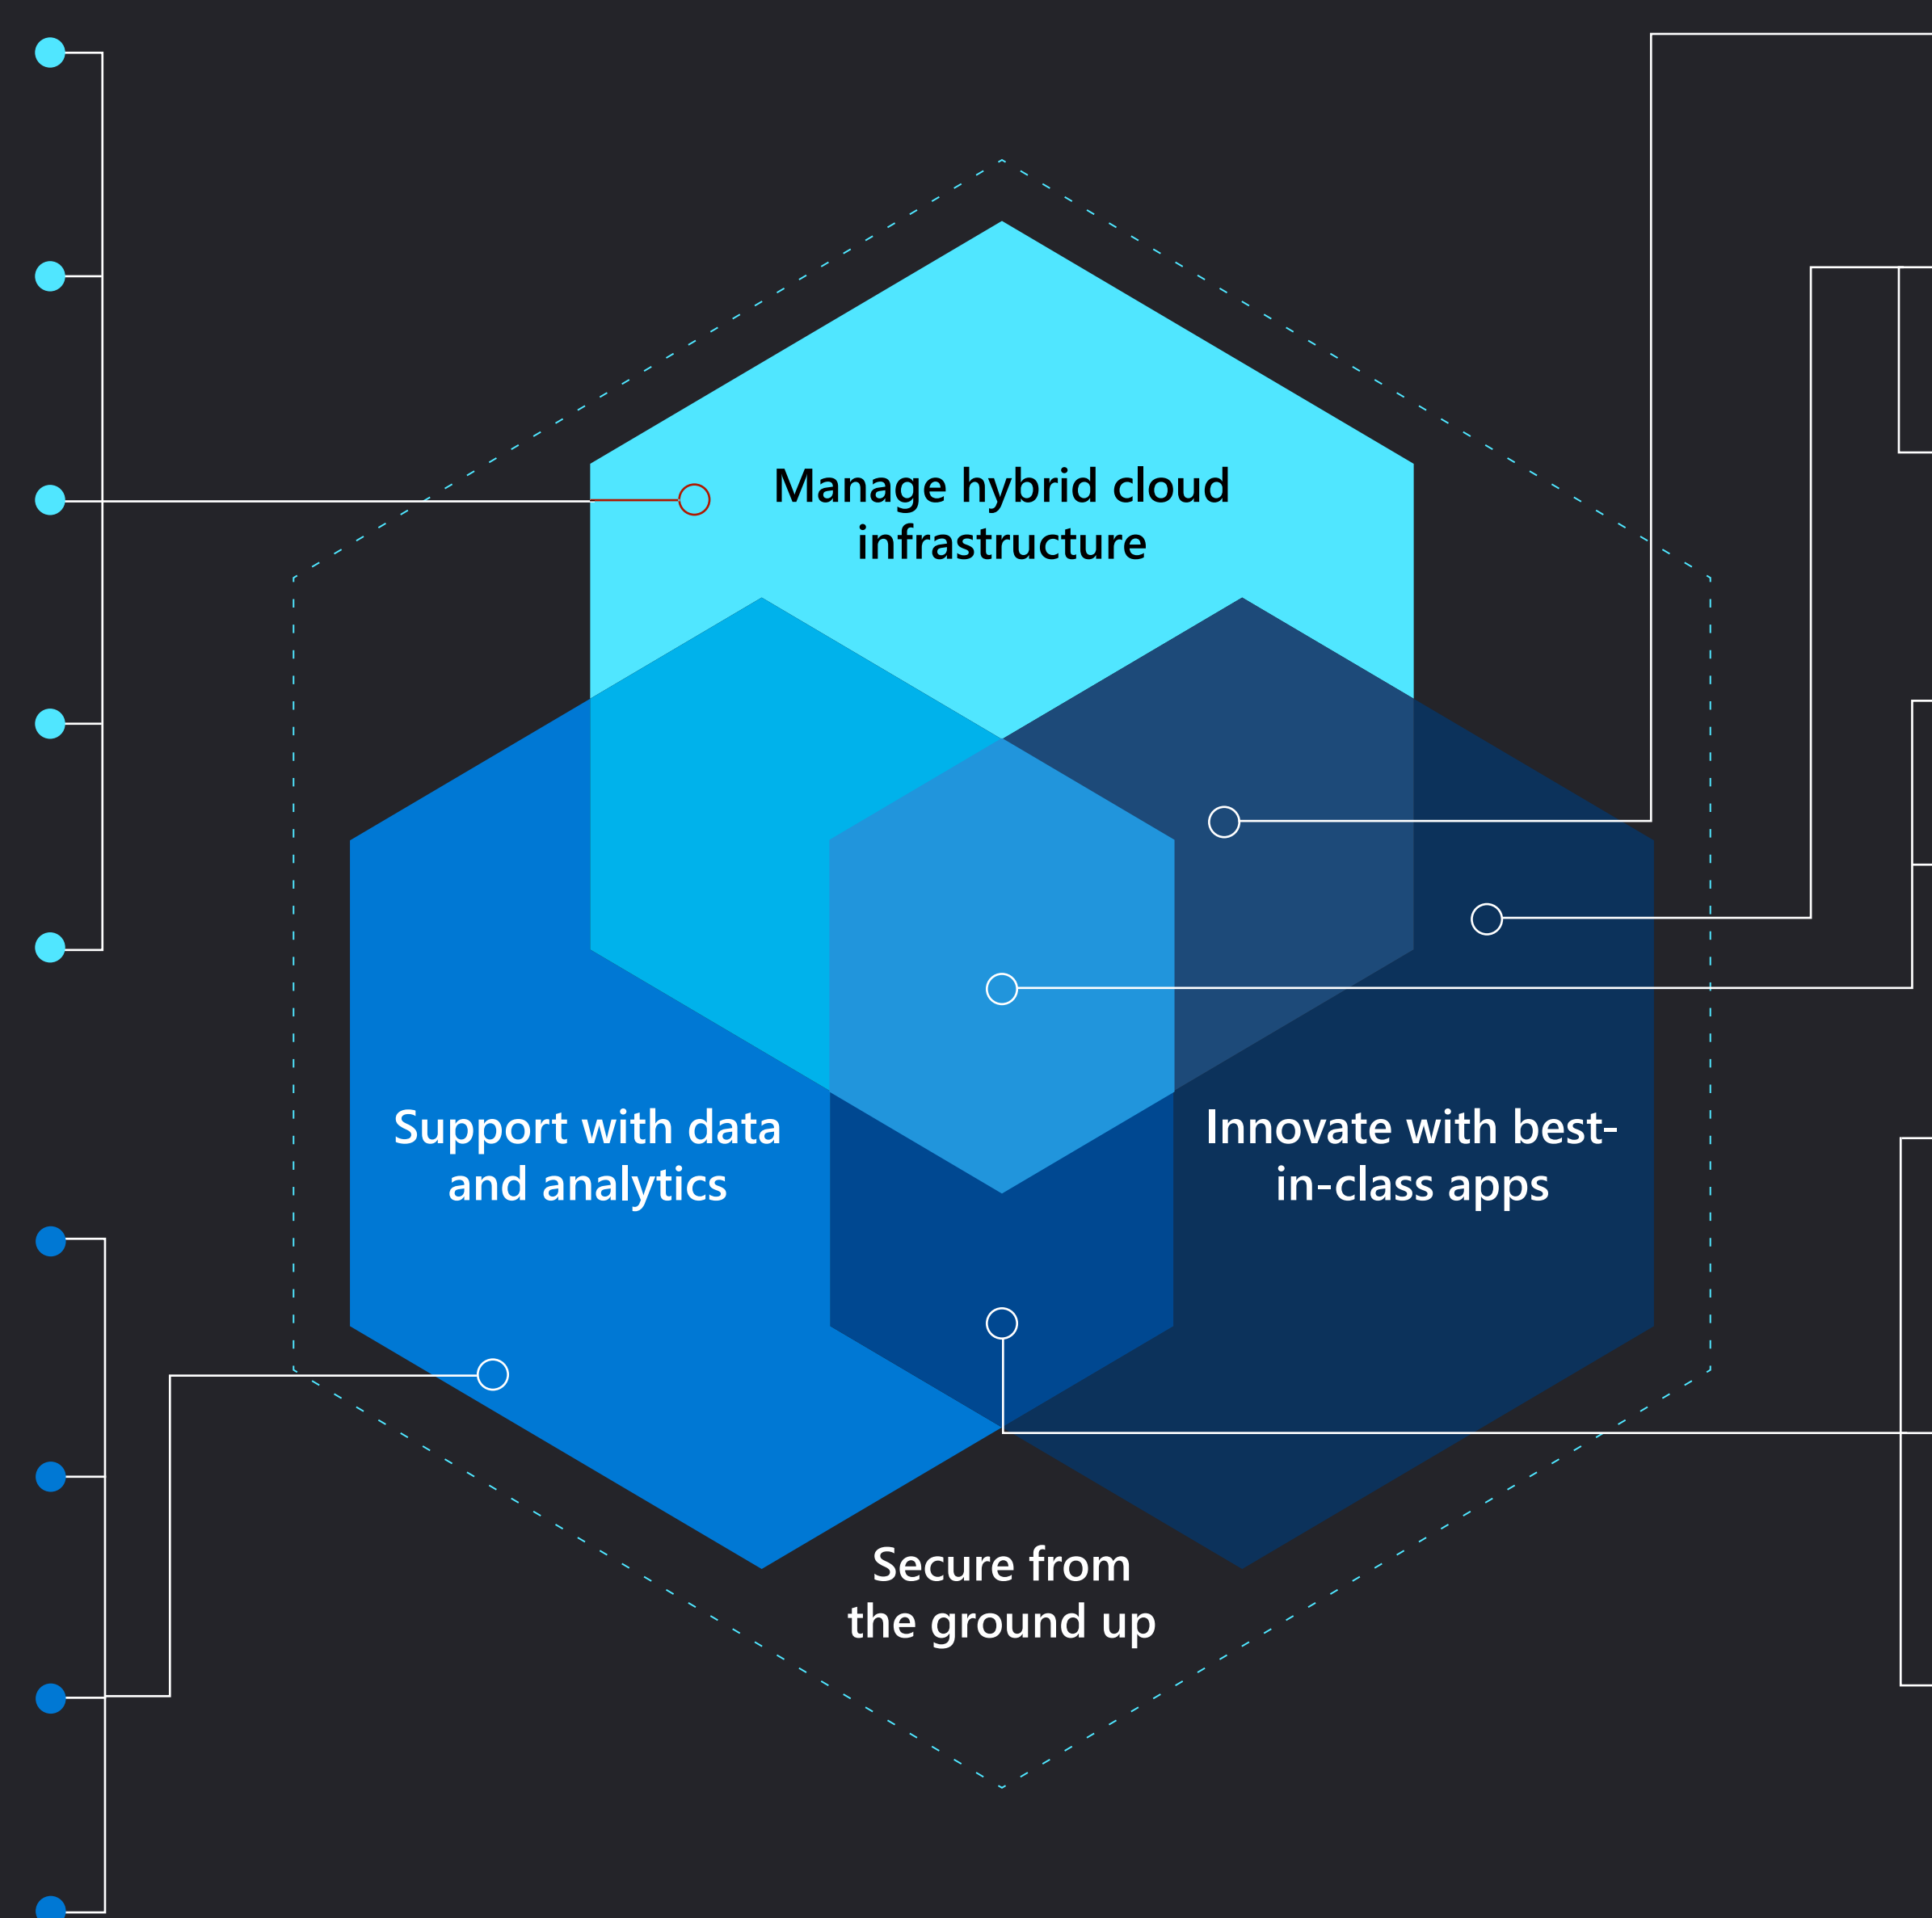

Azure Data Engineer Associate
Azure Data Engineers integrate, transform, and consolidate data from various structured and unstructured data systems into structures that are suitable for building analytics solutions.

Azure Database Administrator Associate
Azure Database Administrators implement and manage cloud and on-premises relational databases built on top of Microsoft SQL Server and Azure data services.

Data Analyst Associate
Data Analysts help businesses to maximize the value of their data assets using Microsoft Power BI.

Manage hybrid cloud infrastructure

Support with data and analytics

Innovate with best-in-class apps

Secure from the ground up

DevOps Engineer Expert
DevOps Engineers work with people, processes, and technologies to continuously deliver business value.

Azure Developer Associate
Azure Developers design, build, test, and maintain cloud applications and services.

Azure IoT Developer Specialty
Azure IoT Developers create and maintain the cloud and edge portions of an IoT solution.

Azure Fundamentals
Azure Fundamentals validates foundational knowledge of cloud services and how those services are provided with Microsoft Azure.

Azure Solutions Architect Expert
Azure Solutions Architects design and implement solutions that run on Microsoft Azure, including aspects like compute, network, storage, and security.

Azure AI Engineer Associate
Azure AI Engineers build, manage, and deploy AI solutions that leverage Azure Cognitive Services, Azure Cognitive Search, and Microsoft Bot Framework.

Azure AI Fundamentals
Azure AI Fundamentals validates foundational knowledge of machine learning and artificial intelligence concepts and related Microsoft Azure services.

Azure Data Fundamentals
Azure Data Fundamentals validates foundational knowledge of core data concepts and how they are implemented using Microsoft Azure data services.

Azure. Invent with purpose.
