SAP AT LUMIFY WORK

Develop your SAP empowered employees with Lumify Work. Getting the right skills in place maximises the chance of project success and removes risk. Lumify Work provides a select range of SAP training courses for SAP S/4HANA, SAP HANA, SAP BusinessObjects and more. Lumify Work can work with you to navigate the curriculum and help you create a learning plan that will ultimately boost technology proficiency across your organisation.

WHY STUDY THIS COURSE

This course focuses on the authorisation, security and integrated scenarios for SAP HANA.

The aim of this course is to prepare the student to work on authorisations and security on the SAP HANA Platform. The course initially covers system level security including Network and Communication security and Data Storage encryption, then it focuses on user management, authentication, authorisations, and auditing. Specific exercises are proposed, about LDAP Group authorisation, user groups, data masking, authorisation trace.

Some basic concepts of application development on the XS Advanced are introduced since they are required to properly work on authorisation roles in SAP HANA.

This course is based on software release:

- SAP HANA 2.0 SPS04

WHAT YOU'LL LEARN

This course will prepare you to:

> Work on authorisations and security on the SAP HANA Platform

SAP HANA - Authorizations, Scenarios and Security Requirements (HA240)

My instructor was great being able to put scenarios into real world instances that related to my specific situation.

I was made to feel welcome from the moment I arrived and the ability to sit as a group outside the classroom to discuss our situations and our goals was extremely valuable.

I learnt a lot and felt it was important that my goals by attending this course were met.

Great job Lumify Work team.

AMANDA NICOL
IT SUPPORT SERVICES MANAGER - HEALTH WORLD LIMITED
