## WHY STUDY THIS COURSE

Following the **123% growth** in the Australian cloud market between 2018 and 2023 and the continued adoption by industry and government, demands for skilled cloud computing professionals continue to rise.

The AWS Cloud Computing Certified Professional bootcamp will help you develop in-demand skills, positioning you for a rewarding career in Cloud Computing, with a focus on leading cloud service provider – AWS.

This course is designed to build your knowledge, skills, and abilities in cloud computing from fundamentals through to managing and designing cloud solutions. The two AWS certifications are the starting point for AWS's top six career paths in cloud computing. You will be applying your learning through hands-on labs and sandboxes to simulate a real-world experience allowing you to test one of the most widely used platforms, all in a risk-free and controlled setting.
