

# *Hemline*

SUPPLEMENT 2021

# Hemline

A website to support our brand.  
Designed with consumers in  
mind. Retailers will also find  
this site useful.

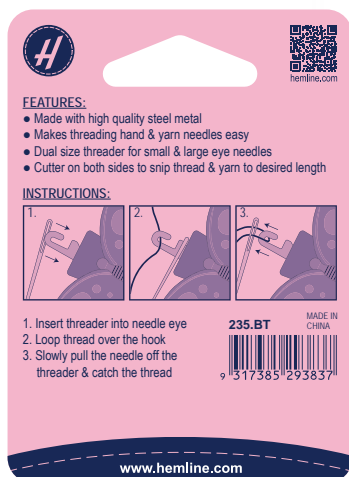

**www.hemline.com**

- View the complete Hemline product range online.
- Extremely user-friendly, with easy access to product information.
- The first place to see new products.
- Instructional videos and other downloadable resources.
- Educational material on specialised products.
- Comprehensive product information for store staff to answer customer queries instantly!
- Feedback section for direct communication from consumers.

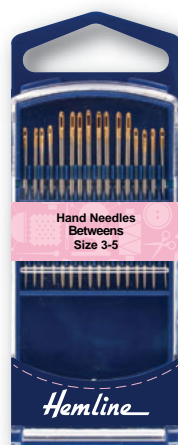

- Hemline welcomes feedback. Via **www.hemline.com** consumers get in touch with us daily, helping us to add value to our range, allowing us to improve our products and to enhance usage experience. Consumers will often share tips and tricks with us which contribute to useful product development.
- All consumers who contact us through the site, will be replied to within 48 hours and many of them will receive a token gift from us as a reflection of our appreciation.

## Instructional diagram

### CONTINUOUS INNOVATION

The Hemline product development process continues to add great new products to the range. Through feedback from consumers via our websites, ideas from our internal staff and our distribution partners throughout the world, new products are constantly evolving. We are passionate about sewing, always striving to improve our product offering.

Continued enhancement of on-pack product instructions is an ongoing and never ending passion for us. Our team at Hemline is constantly adding **NEW USAGE FEATURES** and **INSTRUCTIONAL VIDEO QR CODES** to our products. We engage with world renowned experts in the sewing field to refine and improve usage and care instructions, adding more value to our products and providing a better consumer experience.

Minimising packaging waste is also a hugely important matter for Hemline. We have an ongoing program aimed at reducing card sizes and moving more products away from single-use throwaway packs to **RECYCLABLE MATERIALS** and **KEEPSAKE/REUSEABLE PACKAGING**.

### New Consumer Pack

Hemline is also introducing a new consumer friendly pack. Super lightweight one-piece design with a unique flip-top and sit function. Needles will simply slide in and out as required. This new pack is a world-first and cuts down on single-use plastic packaging, whilst keeping needles safe and secure and ready to use. So easy to store and use! Retail space is expensive! From the retailer's perspective, the new compact pack enables retailers to stock a wider range of needles in the same space, generating more sales per metre/ft.

### Superb new Colour Shank system

We are delighted to introduce coloured shanks as a new standard feature across the Hemline needle range. This outstanding and distinguishing new feature, is the only range wide colour system available. All Hemline needle point styles are now easily identifiable by consumers and retailers alike. The Hemline brand is now even more consumer friendly.

Universal - Standard Silver Tops

Ball Point - Black Tops

Stretch - Red Tops

Jeans - Blue Tops

Leather - Brown Tops

Sharps/Microtex - Green Tops

Quilting - Lime Green Tops

Embroidery - Purple Tops

Metalfil/Metallic - Yellow Tops

Top Stitching - Orange Tops

Anti-Glue - Gun Metal Tops

With this new colour shank system, consumers will always know what style of needle they are sewing with. This colour system is completely unique to Hemline needles.

### Needle Shank Size Marking

Hemline: the first machine needle brand to provide range-wide shank colour referencing. Hemline shanks are stamped with the needle size in both metric & imperial measurements.

## *Hemline* display stands

Looking for a successful range of Hemline and want everything to be as simple as possible?

Then why not choose one of our special “ready to sell” Hemline selections?

We have used all our experience to choose the best-selling products from across the range to create these two selections, both ideal for the UK market.

### **HLM1**

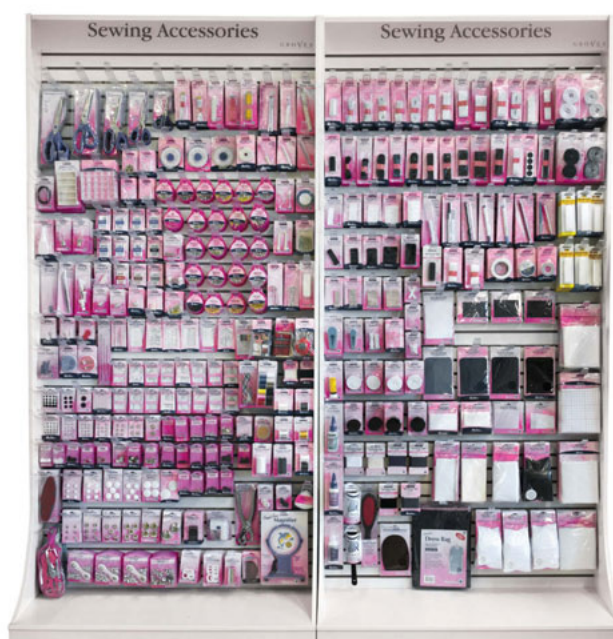

170 products

Perfect for all retailers wanting to provide a useful and profitable care & repair service to customers with limited space available.

Display space: (h) 214 x (w) 100 x (d) 50cm  
Total width: 105cm

5 029784 604896

### **HLM2**

290 products

The ideal range for retailers with enough space to offer an extensive range of general haberdashery, including a care & repair service.

Display space: (h) 214 x (w) 200 x (d) 50cm  
Total width: 210cm

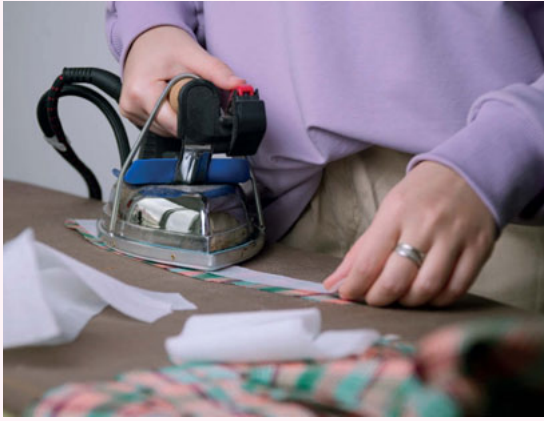

5 029784 604897

Both selections are delivered carriage-free in our attractive display fixtures as shown.  
They are fully loaded with products and ready to sell immediately.

## The G R O V E S Free Advisory Service

We are always eager to work together with all our customers to develop individual selections from all our brands. Selections that are tailored to suit their stores and local market conditions. Your representative will be happy to discuss special requirements and our extensive showroom is open by appointment for customers to view ranges as they might look in a store. Our experience, help and suggestions have helped many retailers to achieve sustained improvement in both sales and profitability.

## A brand new premium range of interfacings, waddings, embroidery backings and paper backed adhesive.

The interfacing is specifically designed to stabilise and stiffen materials when dressmaking, adding structure to cuffs, hems or collars during garment construction. Iron on and sew in options are available with all the detailed care and fixing instructions included on the end cap of each roll. The waddings comprise of fusible and non-fusible products all offering high quality finishes to enhance quilting projects. Premium paper backed webbing along with tear away and soluble embroidery backing complete the range.

# sewAID

International Aid Program for SewGroup International

SewAid is a program which offers many disadvantaged women in very poor countries the opportunity to learn how to sew, as well as providing them with the machines and equipment they need to start small home businesses in dressmaking, alterations and repairs. Additionally in some countries such as Uganda, Cambodia, Philippines and Fiji, SewAid has established permanent sewing workshops where women can be taught to sew and then given employment making various garments and homewares which are then sold around the world. SewAid also works closely with Days for Girls International by assisting in teaching sewing skills in a number of third world countries.

SewAid is primarily funded by the Sewgroup International Group of companies via a percentage of their profits, or donations of goods in kind. SewAid is also assisted by a number of other generous sponsors.

Programs to date have been held in Fiji, Samoa, The Solomon Islands, Philippines, Madagascar, Timor and Karabati.

For more information about our contribution to sew aid please visit [www.sewaid.com](http://www.sewaid.com).
