

## **INSURANCE QUICK GUIDE**

### **ITV Production Insurances Scheme for commissioned productions**

ITV's Terms of Trade require that all ITV commissioned productions have in place suitable production insurance and errors and omissions ("E&O") insurance cover.

Quartz Insurance Brokers have been appointed by ITV to provide both a production insurance and E&O insurance scheme for independent producers commissioned by ITV to ensure they benefit from the widest insurance coverage, at the best value premiums.

ITV recommends that you use the ITV insurance scheme offered by Quartz.

Please note the insurance premiums will be payable by the producer directly to Quartz and the line in the budget should match the amount of the quotations.

If you choose to use another production insurance policy then the production insurance schedule of cover and amount quoted will need to match the premium amount and cover provided under the ITV scheme arrangement.

Please note Quartz Insurance also have pre-agreed rates under the ITV insurance scheme for the following insurances often needed by productions

*Film Union Travel Insurance (FUTI)*

*Marine/Aviation/UAV Insurance*

*Production Motor Vehicle Insurance*

Please contact the Quartz team below to arrange for a quotation
