

ContinuumAg

Get an exclusive discount on the Regen Roadmap package from Continuum Ag.

The Regen Roadmap provides expert regen agronomic advice on practice changes to protect yields and increase profitability, ensuring best practices implementation field by field.

The Regen Roadmap analyzes current practices, understands farmer goals, and delivers advice, including species of cover crops, timing/methods of cover crop planting and termination, and how to work toward a no-till system. By utilizing Continuum Ag expertise, you can protect yields and increase profitability, all while improving your soil health.

ForGround members receive a 10% discount on Continuum Ag's Regen Roadmap,

About Continuum Ag -

Continuum Ag is an Iowa-based company founded and operated by farmers, for farmers. Our team of expert agronomists is dedicated to assisting farmers in implementing regenerative and sustainable practices to protect yields and improve profitability.
