FORGROUND

FieldView Data Manager Early Access

Open to all ForGround Members

If you're a ForGround member or Bayer Carbon grower with an active FieldView PLUS account, you've now got access to the newest FieldView feature: Data Manager.

With Data Manager on Climate.com, you can manually add and edit planting, application, and harvest information, plus manage tillage and irrigation information, regardless of how it's uploaded into your FieldView account.

If you pair a FieldView Drive with your compatible machine, most of your Carbon program practice reporting can be automatically uploaded to your FieldView account with no manual data entry.

* ForGround members who agree to associate their FieldView™ Plus account with ForGround will receive a FieldView Plus subscription at no charge for one year. Current participants in the Bayer Carbon Program can participate in this offer by becoming ForGround members and complying with offer requirements. The FieldView Plus opportunity set forth in this paragraph is subject to Bayer continuing to offer promotion. Promotion may be discontinued by Bayer at any time in Bayer's sole discretion. Promotion participants must not be in breach of any agreements between Bayer and its affiliates, including Climate LLC, in order to qualify. FieldView Drive or FieldView Drive Starter Kits are not included in this offer. No commissions will be paid to dealers for subscribers participating in this offer. This offer may not be combined with any other offer for FieldView Plus.

This Bayer Carbon Program described in this material is subject to the current version of the Bayer Carbon-Smart Practices Master Agreement. The information is to aid in the understanding of the Bayer Carbon Program and does not change or modify the Bayer Carbon-Smart Practices Master Agreement in any way. Services and products offered by Climate LLC are subject to the customer agreeing to our Terms of Service. Our services provide estimates or recommendations based on models. These do not guarantee results. Consult with your agronomist, commodity broker, or other industry professional before making financial, farming, or risk management decisions.
