

ForGround

by Bayer

Continuum Ag offers farmers a connection to a suite of specialized agronomy experts to assist farmers in taking a holistic approach to their farm management strategy. Continuum Ag is a soil health data intelligence company and the catalyst for sustainable agriculture. They are on a mission to help 1 million farmers profit from improving their soil health. Start your journey with a “Regen Roadmap” and all that the TopSoil Tool has to offer!

Regen Roadmap *DISCOUNT*

Open to all ForGround Members

As a ForGround Member, you can redeem a 10% discount through May 31, 2023, on Continuum Ag’s Regen Roadmap.

The Regen Roadmap provides expert regen agronomic advice on practice changes to protect yields and increase profitability, to help ensure best practices implementation field by field. The Regen Roadmap analyzes current practices, understands farmer goals, and delivers advice, including species of cover crops, timing/methods of cover crop planting and termination, and how to work toward a no-till system. By utilizing Continuum Ag expertise, you can help protect yields and increase profitability, all while improving your soil health.
