### Amendments to Rules 12.7

*(The following new Rule additions are underlined and deletions are stricken out)*

RULE 1.1 – RULE 12.6 [Unchanged]

#### RULE 12.7 SILVER BINARY CONTRACTS

(a) SCOPE – These Rules shall apply to the Class of Contracts referred to as the Silver Binary Contract issued by Nadex.

(b) UNDERLYING – The Underlying for this Class of Contracts is the price, cents per troy ounce (in US Currency), of Silver obtained from the Silver Futures Contracts (“SFC”) traded on the COMEX Division of the New York Mercantile Exchange (“NYMEX®”<sup>1</sup>). The SFC trade prices that will be used to for the Underlying will be taken from the March, May, July, September, or December SFC delivery months (each an “SFC Delivery Month”). The specific SFC Delivery Month that will be used for the Underlying will be based on the SFC represented in the following schedule of dates for 2011:

<b>Start Date</b>	<b>End Date</b>	<b>SFC Delivery Month Used for the Underlying and to Calculate the Expiration Value</b>	<b>Futures Expiration Date</b>
8/28/2010	11/26/2010	Comex Silver December 2010 Futures	12/29/2010
11/27/2010	2/25/2011	Comex Silver March 2011 Futures	3/29/2011
2/26/2011	4/29/2011	Comex Silver May 2011 Futures	5/26/2011
4/30/2011	6/24/2011	Comex Silver July 2011 Futures	7/27/2011
6/25/2011	8/26/2011	Comex Silver September 2011 Futures	9/28/2011
8/27/2011	11/25/2011	Comex Silver December 2011 Futures	12/28/2011
11/26/2011	2/24/2012	Comex Silver March 2012 Futures	3/28/2012

On the date listed in the ‘Start Date’ column above, the SFC trade prices to be used for the Underlying and to calculate the Expiration Value will be done with the corresponding SFC Delivery Month listed. For instance, beginning on February 26, 2011, Nadex will use the Silver May 2011 futures prices as the
