EXHIBIT B

Amendment of 4.4 and 5.10

(The following Rule amendments are underlined and deletions are stricken out)

RULE 1.1 – 4.3 [UNCHANGED]

RULE 4.4 OBLIGATIONS OF MARKET MAKERS

(a) General – Transactions of Market Makers should constitute a course of dealings reasonably calculated to contribute to the maintenance of a fair and orderly market, and Market Makers shall not make bids or offers or enter into transactions that are inconsistent with such a course of dealings. Ordinarily, Market Makers shall be obligated to do the following:

- (i) trade for the proprietary account of the Market Maker only;
- (ii) maintain at least the minimum capital on deposit with Nadex in accordance with the terms of the applicable Market Maker Agreement;
- (iii) comply with all other terms of the applicable Market Maker Agreement; and
- (iv) maintain two-sided displayed quotes of a minimum designated quantity (“Size”) within a predefined spread (“Bid/Ask Spread”) for a Series of Contracts for a certain period of time throughout the trading day in accordance with the terms of the applicable Market Maker Agreement.

(1) In ordinary market conditions, quotes must be made within a maximum Bid/Ask Spread.

(2) In fast market conditions, Market Makers will be permitted to reduce their size or widen their Bid/Ask Spreads.

(3) Market Makers also will be permitted to reduce their size or widen their Bid/Ask Spreads:

(A) in any Binary Contract within a Designated Class that is so deep in-the-money as to be valued at \$100 offer or so deep out-of-the-money as to be valued at zero bid and

(B) in any Variable Payout Contract within a Designated Class when the underlying for that Variable Payout Contract is outside the range of the Variable Payout Contract.

(b) A Market Maker has a continuous obligation to engage, to a reasonable degree under the existing circumstances, in dealings for the account of the Market Maker when there exists, or it is reasonably anticipated that there will exist, a lack of price continuity or a temporary disparity between the supply of and demand for quotations in a Series of a Designated Class to which the Market Maker is appointed. Without limiting the foregoing, a Market Maker is expected to perform the following activities in the course of maintaining a fair and orderly market;

(i) To post bid and ask quotations in all Designated Classes to which the Market Maker is appointed that, absent changed market conditions, will be honored by the Market Maker.

(ii) To update quotations in response to changed market conditions in all Designated Classes to which the Market Maker is appointed.

(iii) All such Market Maker quotations shall be submitted as "Post-Only orders". In the event a Market Maker has built a position size equal to or greater than 90% of any applicable position limit in a particular Class or Contract, then that Market Maker may submit non-Post-Only orders (that is, traditional limit orders) in lieu of its quoting obligation for such Class or Contract until the Market Maker's position in such Class or Contract has been reduced to 75% of the applicable position limit, at which point the Market Maker's obligation to submit Post-Only orders will resume.

(iv) A Market Maker may submit non-Post-Only orders in markets to which the Market Maker has not been appointed and, provided the Market Maker continues to meet its obligations to continuously quote a two-sided market under the Market Maker Agreement and these Rules, in Designated Classes to which the Market Maker is appointed.

(c) Like other Members of Nadex, a Market Maker may not place an order to buy or sell a Contract in a ~~Designated Class for which it has not been appointed a Market Maker~~ unless it has the excess funds in its Nadex account necessary to fulfill its obligations under that order.

(d) Alternative Position Limits for Certain Binary Contracts

(i) Approved market makers who are engaged in bona fide market-making activity shall be exempt from the position limits for those Binary Contracts defined in

(1) Rules 12.55 (Japan 225), 12.65 (Wall Street 30), 12.63 (US Tech 100), 12.59 (US 500) and 12.61 (US SmallCap 2000) of these Rules. Instead, such market makers shall be subject to Alternative Position Limits

of twice the limit identified for such Binary Contract in Chapter 12. In addition, such Alternative Position Limits shall apply not to the entire class of Binary Contracts, but to each Binary Contract in that Class (i.e., per strike).

(2) Rules 12.3 (Copper), 12.5 (Gold), 12.7 (Silver), 12.9 (Crude Oil), 12.11 (Natural Gas), 12.49 (FTSE 100) and 12.51 (Germany 30) of these Rules. Instead, such market makers shall be subject to Alternative Position Limits of the limit identified for such Binary Contract in Chapter 12, which limit shall apply not to the entire class of Binary Contracts, but to each Binary Contract in that Class (i.e., per strike).

(ii) A market maker taking advantage of this exemption and an Alternative Position Limit must, within 1 business day following a request by Nadex's Compliance Department, provide the Nadex Compliance Department with a trade register detailing all futures trading activity in any account owned or controlled by the market maker in the futures contract underlying a Binary Contract during the 15 minutes immediately before and after any expiration time identified by Nadex's Compliance Department in the request.

RULE 5.1 – 5.9 [UNCHANGED]

RULE 5.10 ACCEPTABLE ORDERS

(a) A Member who is not a Market Maker may enter only limit orders to trade Contracts on the Market. For the purpose of this Rule, a "limit order" is an order to buy or sell the number of Contracts specified at the price specified, or a better price if a better price is available.

(b) Duly appointed Market Makers who are making markets pursuant to such appointment shall submit market maker quotations as Post-Only orders. "Post-Only orders" are orders that provide liquidity to a market in that they can be matched opposite any limit order submitted by a Member, but cannot be matched opposite another Post-Only Order submitted by another Market Maker. A Post-Only order, like a limit order, is an order to buy or sell the number of Contracts specified at the price specified, or a better price if a better price is available. However, unlike a limit order, Post-Only Orders will not be matched opposite another Post-Only order. Post-Only orders can be submitted in one of two forms: Post-Only (reject) and Post-Only (price adjustment).

(i) A "Post-Only (reject) order" is an order that will be cancelled by the Exchange in whole or in part to the extent that, at the time it is submitted to the Exchange, it would be immediately executable opposite another Post-Only order. If, however, some portion of such submitted Post-Only (reject) order would be immediately executable opposite any resting limit order(s), that part of such submitted Post-Only (reject) order will be matched opposite such resting limit order(s) by the Exchange. The remaining portion of

the submitted Post-Only (reject) order will be cancelled by the Exchange, leaving the opposite Post-Only order in the order book.

(ii) A Post-Only (price adjustment) order is an order that will be cancelled by the Exchange in whole or in part to the extent that, at the time it is submitted to the Exchange, it would be immediately executable opposite another Post-Only order. If, however, some portion of such submitted Post-Only (price adjustment) order would be immediately executable opposite any resting limit order(s), that part of such submitted Post-Only (price adjustment) order will be matched opposite such resting limit order(s) by the Exchange. The remaining portion of the submitted Post-Only (price adjustment) order will be cancelled by the Exchange, leaving the opposite Post-Only order in the order book. Unlike a Post-Only (reject) order, however, upon cancellation of the submitted Post-Only (price adjustment) order, the Exchange will automatically submit an amended quotation for the unfilled balance of the cancelled Post-Only (price adjustment) order at a price level that is adjusted (a) for Binary Contracts to four minimum tick increments, and (b) for Variable Payout Contracts to one minimum tick increment lower (for bids) or higher (for offers) than the price level of the existing opposite Post-Only order.

(c) In addition to the quotations described in subparagraph (b) above, duly appointed Market Makers may submit limit orders. Such orders will be charged trading and settlement fees at the applicable Direct Trading Member API rates as set forth in the fee schedule.
