KEY SELLING POINTS

The Sound Of Sport

Music moves us emotionally and physically – Beoplay E8 Sport delivers high-performance audio that taps into that dynamic energy and helps you go further. Create personalised sound experiences with Beosonic and save the settings for later. Activate Transparency Mode to hear the world around you when exercising in busy places, like urban environments. The four built-in microphones ensure stellar call clarity wherever you are.

Built for All Weather

No matter the weather conditions, E8 Sport earphones will get you through. Designed and constructed using superior materials, E8 Sport achieve an IP57 waterproof certification, so they will withstand even the most demanding conditions without compromising on audio performance. And it's easy to wash the earphones after your workout.

Battery To Match Your Goals

E8 Sport's battery life will last when you need it to. A single charge gives you up to 7 hours of non-stop music. And with an additional 3.5 charges from the compact charging case, this takes the total playtime over the 30-hour mark.

Designed For Sport

E8 Sport earphones fit securely in your ear so you can focus exclusively on your workout without any nuisance. Lightweight, durable and with a customisable fit, the E8 Sport's ergonomically shaped earbuds come with a variety of silicone ear tips and soft fins, guaranteeing a snug and comfortable fit.

Designed For Performance

E8 Sport earphones bring iconic design aesthetics to sports. Inside the sleek and elegant earbuds are advanced wireless technology that ensure the peak of power and performance. Bluetooth 5.1 and Qualcomm aptX™ Adaptive deliver superior sound, flawless connections, and crystal-clear call clarity while keeping battery consumption very low. Their innovative touch interface means you can keep your phone in your pocket and your eyes on your goal.
