

THE B&O SOUND SYSTEM IN THE MUSTANG MACH-E

# ELECTRIFYING SOUND

# THE B&O SOUND SYSTEM IN THE MUSTANG MACH-E

## ELECTRIFYING SOUND

### THE SOUND OF A LEGEND

The signature B&O sound is brought to life in the first ever all-electric Mustang Mach-E. All components of the B&O Sound System have been carefully selected and tuned to achieve optimal performance levels in the Mustang Mach-E.

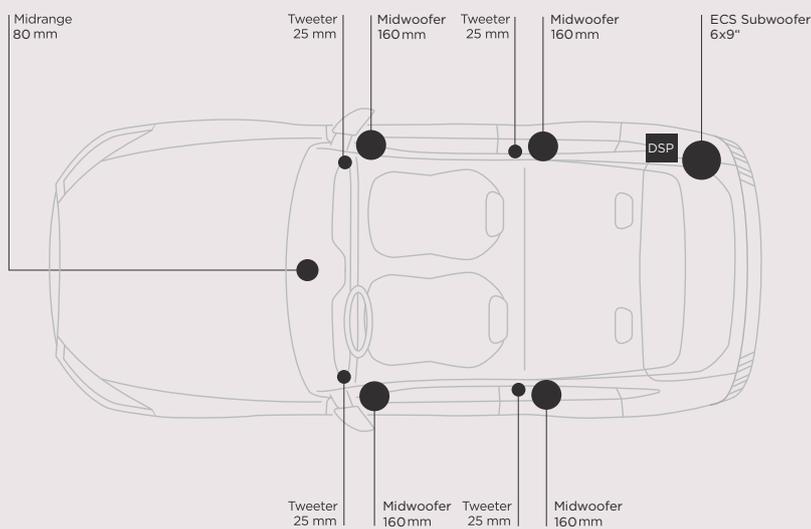

### HEART-POUNGING BASS

A space-saving and lightweight externally coupled subwoofer (ECS) uses the vehicle as a bass enclosure to enable powerful low frequency performance in a more efficient design, when compared to a traditional subwoofer.

### AWARD-WINNING DESIGN

The focal point of the 10-speaker B&O Sound System is the award-winning integration of a unique fabric design and signature speaker cover that elegantly spans the instrument panel of the Mustang Mach-E.

Vehicle line drawing for reference only.

### TECHNICAL SPECIFICATIONS

#### Speakers

10 Speakers, including an ECS (Externally Coupled Subwoofer)

#### Amplifier

560 Watts  
6 ch A2B Amplifier  
Digital Signal Processing (DSP)

#### DSP Features

Speed Adaptive Volume  
Surround Sound  
Power Manager

#### Tuning

Mustang Mach-E has undergone static and dynamic sound tuning to ensure that the listening experience in a stationary state is maintained while driving, regardless of the conditions.

### DESIGN SPECIFICATIONS

#### Design Theme

Fabric Design

#### Design Elements

Derived from the iconic product design of Bang & Olufsen textile-covered home speakers.

Unique "Heathered Grey" fabric evokes a sense of comfort.

Inspired by Scandinavian expressive minimalism, the signature speaker cover seamlessly spans the instrument panel to complement the vehicle's interior design.

Anodized aluminum badges engraved with the B&O logo elegantly identify the B&O Sound System.
