

THE B&O SOUND SYSTEM IN THE 2021 FORD BRONCO SPORT

THE B&O SOUND SYSTEM IN THE 2021 FORD BRONCO SPORT

Vehicle line drawing for reference only.

SOUND OF THE WILD

All components of the capable B&O Sound System have been carefully selected and adjusted to achieve optimal sound performance levels and to guarantee a thrilling listening experience on every drive in the Ford Bronco Sport.

HEART-POUNGING BASS

A space saving and lightweight Externally Coupled Subwoofer (ECS) mounts to the sheet metal in the trunk area and vents to the outside air, delivering impressive bass performance in an efficient design.

FORM AND FUNCTION

As if a rock was dropped into water, the speaker grille pattern mimics a ripple effect that expands outward, across the surface. It incorporates design elements of anodized aluminum and blends seamlessly into the timeless and functional design of the Ford Bronco Sport.

TECHNICAL SPECIFICATIONS

Speakers

10 Speakers, including an Externally Coupled Subwoofer (ECS)

Amplifier

560 Watts
6 ch A2B Amplifier
Digital Signal Processing (DSP)

DSP Features

Speed Adaptive Volume
Surround Sound
Power Manager

Tuning

The Ford Bronco Sport has undergone static and dynamic sound tuning to ensure that the listening experience in a stationary state is maintained while driving, regardless of the conditions.

DESIGN SPECIFICATIONS

Design Theme

Rippling Design

Design Elements

Derived from the iconic product design of the Bang & Olufsen products for the home.

The speaker grille pattern mimics a ripple effect that expands outward, across the surface and supports the acoustic transparency.

Anodized aluminum badges engraved with the B&O logo distinctively identify the B&O Sound System.
