COMPETITIVE TELECOMMUNICATIONS SERVICE

SERVICE GUIDE FORMAT

- A. Leaf Numbering - Leaf numbers appear in the upper right corner of the Leaf. Leafs are numbered sequentially. However, new leafs are occasionally added to the service guide. When a new leaf is added between leafs already in effect, a letter is added. For example, a new leaf added between leafs 14 and 15 would be 14.1.
- B. Leaf Revision Numbers - Revision numbers also appear in the upper right corner of each Leaf. These numbers are used to determine the most current leaf version on file with the Commission. For example, the 4th Revised Leaf 14 cancels the 3rd Revised Leaf 14. Because of various suspension periods, deferrals, etc., the most current leaf number on file with the Commission is not always the service guide Leaf in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
 - 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I..
 - 2.1.1.A.1.(a).I..(1).

COMPETITIVE TELECOMMUNICATIONS SERVICE

APPLICATION OF SERVICE GUIDE

This service guide contains the regulations and rates applicable to the provision of intrastate resale common carrier communications service to business Customers only, by Conversent Communications of New York, LLC within the New York Metropolitan Area of the State of New York. Conversent Communications of New York, LLC does not provide service to residential Customers.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS

Access Line - An arrangement which connects the Customer's location to a Conversent switching center or point of presence.

Account Codes - Optional, Customer-defined digits that allow the Customer to identify the individual user, department or client associated with a call. Account Codes appear on the Customer bill.

Authorized User - A person, firm, corporation, or any other entity authorized by the Customer to communicate utilizing the Company's service.

Business - A class of service provided to individuals engaged in business, firms, partnerships, corporations, agencies, shops, works, tenants of office buildings, and individuals practicing a profession or operating a business who have no offices other than their residences and where the use of the service is primarily or substantially of a business, professional or occupational nature.

Commission - New York Department of Public Service.

Company or Carrier - Conversent Communications of New York, LLC, unless otherwise clearly indicated by the context.

Constructive Order - Delivery of calls to or acceptance of calls from the Company's End User locations over Company-switched local exchange services constitutes a Constructive Order by the Company to purchase switched access services as described herein. Similarly the selection by a Company's End User of the Customer as the presubscribed IXC constitutes a Constructive Order of switched access by the Customer.

Conversent - Used throughout this service guide to mean Conversent Communications of New York, LLC unless clearly indicated otherwise by the text.

Customer - The person, firm, corporation or other entity which orders, cancels, amends or uses service and is responsible for payment of charges and compliance with the Company's service guide.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS (CONT'D.)

End User - Any person, firm, corporation, partnership or other entity which uses the services of the Company under the provisions and regulations of this service guide. The End User is responsible for payment unless the charges for the services utilized are accepted and paid by another Customer.

Equal Access - The ability of a long distance carrier to serve Customers on a presubscribed basis rather than through the use of dial access codes.

Holidays - Holidays observed by the Company as specified in this service guide.

Inter-MTA Traffic - Wireless traffic originating on the network of a CMRS provider within one MTA and terminating to the Company's end-user subscribers in another MTA.

Intra-MTA Traffic - Wireless traffic originating on the network of a CMRS provider within an MTA and terminating to the Company's end-user subscribers in the same MTA

LATA - Local access and transport area. A geographic area established by the US District Court for the District of Columbia in Civil Action No. 17-49, within which a local exchange company provides communications services.

LEC - Local Exchange Company

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS (CONT'D.)

Off-Net - The term "Off-Net" denotes that the service is available on a resale basis.

On-Net - The term "On-Net" denotes that the service is available only within specified calling areas and provided directly through the Company's facilities.

Person-to-Person - A class of call in which the calling party specifies an individual, station number, department, or an agreed alternate with whom to speak at the called number.

Premises - A building or buildings on contiguous property.

Residence or Residential - A class of service furnished to a Customer at a place of dwelling where the actual or obvious use is for domestic purposes.

Special Construction - Service configurations specifically designed and constructed at a Customer's request.

Station-to-Station - A class of call in which the calling party places the call to any individual or station at the called party location. All toll calls which are not placed on a Person-to-Person basis are station-to-station.

Toll VoIP-PSTN Traffic - The term Toll VoIP-PSTN Traffic denotes a customer's interexchange voice traffic exchanged with the Telephone Company in Time Division Multiplexing format over PSTN facilities, which originates and/or terminates in Internet Protocol (IP) format. Toll VoIP-PSTN Traffic originates and /or terminates in IP format when it originates from and/or terminates to an end user customer of a service that requires IP-compatible customer premises equipment.

VoIP PROVIDER - For the purposes of this Service Guide, any service provider, including but not limited to carriers, that originates and/or terminates traffic in Internet protocol ("IP") format.

VoIP Provider Partner - any VoIP Provider that uses the Company's services to exchange traffic with the PSTN.

VoIP-PSTN Traffic - traffic exchanged between the Company and a Customer in Time-Division-Multiplexing format that originates and/or terminates in IP format.

SECTION 2 - RULES AND REGULATIONS

2.1 Undertaking of the Company

- 2.1.1 The Company's services are furnished for intrastate telecommunications originating and terminating within the state of New York under terms of this service guide.
- 2.1.2 The Company installs, operates, and maintains the communications services provided herein in accordance with the terms and conditions set forth under this service guide. The Company may act as the Customer's agent for ordering access connection facilities provided by other carriers or entities, when authorized by the Customer, to allow connection of a Customer's location to the Company network. The Customer shall be responsible for all charges due for such service arrangement.
- 2.1.3 When services and facilities provided by the Company are used to obtain access to the regulated or unregulated services provided by another company, or are used by another company as a part of the regulated or unregulated services offered by that company, the regulations of the Company apply only to the use of the Company's services and facilities.
- 2.1.4 The Company may offer various unregulated services in conjunction with or ancillary to its regulated services.
- 2.1.5 The Company may serve Customers in the state of New York through the use of its own facilities or through the resale of services of other telecommunications service providers.
- 2.1.6 The provision of services defined herein is subject to regulations specified in this service guide and may be revised, added to, or supplemented by superseding issues.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.2 Limitations

- 2.2.1 Service is offered subject to the availability of the necessary facilities and equipment and subject to the provisions of this service guide. The furnishing of service under this service guide or an applicable contract is subject to the availability on a continuing basis of all the necessary facilities and is limited to the capacity of the Company's facilities as well as facilities the Company may obtain from other carriers to furnish service from time to time as required at the sole discretion of the Company.
- 2.2.2 Customers and users may use services and facilities provided under this service guide or an applicable contract to obtain access to services offered by other companies. The Company is responsible for the services and facilities provided under this service guide or an applicable contract, and it assumes no responsibility for any service (whether regulated or not) provided by any other entity that purchases access to the Company network in order to originate or terminate its own services, or to communicate with its own Customers.
- 2.2.3 Prior written permission from the Company is required before any assignment or transfer. All regulations and conditions contained in this service guide shall apply to all such permitted assignees or transferees, as well as all conditions for service.
- 2.2.4 In view of the fact that the Customer has exclusive control of his communications over the facilities furnished him by the Company, and of the other uses for which facilities may be furnished him by the Company, and because unavoidable errors incidental to services and use of such facilities of the Company may occur, the services and facilities furnished by the Company are subject to the terms, conditions and limitations herein specified.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.2 Limitations, (Cont'd.)

- 2.2.5 Accessories which aid a Customer's convenience in his use of the services provided by the Company which are not furnished under this service guide, are permissible provided any such accessory so used would not endanger the safety of Company employees or the public; damage, require change in or alteration of, or involve direct electrical connection to the equipment or other facilities of the Company, or interfere with the proper functioning of such equipment or facilities; or impair the operation of the telecommunications system or otherwise injure the public in its use of the Company's services.
- 2.2.6 The Company reserves the right to limit the length of communication when necessary because of a shortage of facilities caused by emergency conditions.
- 2.2.7 The service is furnished subject to the condition that it will not be used for any unlawful purpose. Service will be discontinued if any law enforcement agency, acting within its apparent jurisdiction, advises in writing that such service is being used in violation of the law. The Company will refuse to furnish service when it has reasonable grounds to believe that such service will be used in violation of the law.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.2 Limitations, (Cont'd.)

2.2.8 Indemnification by Customer

The customer and any authorized or joint users, jointly and severally shall indemnify, defend and hold the Company harmless against claims, loss, damage, expense (including attorneys' fees and court costs) for libel, slander, or infringement of copyright arising from the material transmitted over its facilities; against claims for infringement of patents arising from combining with, or using in connection with, facilities of the Company, equipment and systems of the customer; and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Company or the customer. In the event any such infringing use is enjoined, the customer, authorized user or joint user at its option and expense, shall obtain immediately a dismissal or stay of such injunction, obtain a license or other agreement so as to extinguish any claim of infringement, or terminate the claimed infringing use or modify such infringement.

The customer and any authorized or joint users, jointly and severally shall also indemnify, defend and hold the Company harmless against: (1) all other claims arising out of any act or omission of the Customer or any person utilizing the customer's codes, services, or facilities, with or without the consent or knowledge of the customer; (2) all claims, demands, losses or liabilities, including, but not limited to, fees and expenses of counsel, arising out of any damage to business or property, or injury to, or death of, any person, occasioned by, or in connection with, any act or omission of the customer or of any person utilizing the customer's codes, services, equipment, or facilities, with or without the consent or knowledge of the customer.

Service is furnished subject to the conditions that it will not be used: (1) to make foul or profane expressions, (2) to impersonate another person with fraudulent or malicious intent, (3) to call another person so frequently, or at such times, or in any other manner so as to annoy, abuse, threaten, or harass the other person, (4) for any other unlawful purpose, or (5) in such a manner as to interfere with the use of the service by any other user.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.3 Liabilities of Company

- 2.3.1 The Company's liability for damages arising from any failure of service shall not exceed an amount equivalent to the proportionate charge to the Customer for the period during which the failure occurs.
- 2.3.2 The Company shall not be liable for any claim or loss not directly caused by negligence of the Company.
- 2.3.3 The Company is not liable for any act or omission of any other company or companies furnishing a portion of the facilities, equipment or services used in connection with the services provided by the Company.
- 2.3.4 The Company shall not be liable for the use or abuse of a Customer's service by any party including, but not limited to, the Customer's employees or members of the public. "Use or abuse" includes, but is not limited to, any calls placed by means of a PBX re-origination or other legal or illegal equipment, service or device. The Company shall not be liable for any action, such as blocking or refusal to accept certain calls, that it deems necessary to take in order to prevent unlawful use of its services. Compensation for any injury the Customer may suffer due to the fault of parties other than the Company must be sought from such other parties.
- 2.3.5 Acceptance by the Commission of the liability provisions contained in this service guide does not constitute its determination that the limitation of liability imposed by the Company should be upheld in a court of law, but the recognition that, as it is the duty of the courts to adjudicate negligence claims and rights to recover damages therefore, so it is the duty of the courts to determine the validity of the exculpatory provisions of this service guide.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.3 Liabilities of Company, (Cont'd.)

2.3.6 The liability of the Company for service irregularities shall in no event exceed an amount equivalent to the proportionate charge to the Customer for the service for the period during which the service irregularity exists. Service irregularities are defined as mistakes, omissions, interruptions, delays, errors, or defects in transmission, or failure of or defects in the service and/or facilities furnished by the Company which occur in the course of furnishing service or facilities and are not caused by the negligence of the Customer or the negligence of the Company in failing to maintain proper standards of maintenance or operation, or to exercise reasonable supervision.

2.3.7 The Company shall be indemnified and held harmless by the Customer against the following:

- A. Claims for slander, libel or infringement of copyright arising out of the materials, data, information or other content transmitted over the Company's facilities.
- B. All other claims arising out of any act or omission of the Customer in connection with any service or facility provided by the Company.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.4 Taxes and Surcharges

2.4.1 All state and local taxes (i.e., gross receipts tax, sales tax, municipal utilities tax) are listed as separate line items and are not included in the quoted rates.

2.4.2 Surcharges (i.e., 911, subscriber line charge, etc.) approved or mandated by any governmental jurisdiction are listed separately on the bill and are not included in quoted rates.

2.5 Terminal Equipment

The Company's service may be used with or terminated in Customer-provided terminal equipment or Customer-provided communications systems, such as a telephone set, key system or private branch exchange (PBX). Such terminal equipment shall be furnished and maintained at the expense of the Customer, except as otherwise provided. The Customer is responsible for all costs at his or her premises, including personnel, wiring, electrical power, and the like, incurred in the use of the Company's service. When such terminal equipment is used, the equipment shall comply with the generally accepted minimum protective criteria standards of the telecommunications industry as endorsed by the Federal Communications Commission.

2.6 Installation

Service is installed upon mutual agreement between the Customer and the Company. The service agreement does not alter rates specified in this service guide.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.7 Payment for Service

- 2.7.1 Charges for facilities and service, other than usage charges, are due monthly in advance. All other charges are payable upon request of the Company. Bills are due when rendered and are payable at any business office of the Company, or at any other address designated by the Company. If objection in writing is not received by the Company within thirty days after the bill is rendered, such bill shall be deemed to be correct and binding upon the customer. If objection results in a refund to the customer, such refund will be with interest at the greater of the unadjusted customer deposit rate or the applicable late payment rate, if any, for the service classification under which the customer was billed. Interest will be paid from the date when the customer overpayment was made, adjusted for any changes in the deposit rate or late payment rate, compounded monthly, until the overpayment is refunded. Notwithstanding the foregoing, no interest will be paid by the Company on customer overpayments that refunded within 30 days after the overpayment is received by the Company.
- 2.7.2 Monthly invoices sent to the Customer are due upon receipt and are considered delinquent thirty (30) days after the bill is rendered and the account may be subject to disconnection, subject to advance twenty (20) day written notice. All amounts owed after the due date are subject to late payment penalty charges of 1.5 % per month. The late payment fee will not be assessed on unpaid penalty charges and any payment received shall first be applied to any bill for services rendered.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.7 Payment for Service, (Cont'd.)

2.7.3 In no case shall service be actually disconnected until five days after written notice has been given to the Customer.

2.7.4 Returned Check Fee - A processing fee will be charged if a check for payment of an invoice is dishonored for any reason. This charge applies each time a check is returned to Conversent by a bank for insufficient funds.

	<u>Minimum</u>	<u>Maximum</u>
Business	\$0.00	\$20.00

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.8 Suspension or Termination of Service

2.8.1 Suspension or Termination for Nonpayment

In the event that any bill rendered or any deposit required is not paid, the Company may suspend service or terminate service until the bill or the required deposit has been paid. If service is suspended or terminated for nonpayment, the customer will be billed a Connection Charge as well as any payment due and any applicable deposits upon reconnection.

- A. Termination shall not be made until at least 20 days after written notification has been mailed to the billing address of the customer.
- B. Suspension will not be made until at least 8 days after written notification has been mailed to the customer and 20 days before the termination notice.

Telephone service shall only be suspended during the hours between 8:00 AM and 4:00 PM, Monday through Thursday. It shall not be suspended or terminated for nonpayment on weekends, public holidays, other federal and state holidays proclaimed by the President or the Governor, or on days when the main business office of the Company is not open for business, or during the periods from December 23rd through December 26th or December 30th through January 1st.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.8 Suspension or Termination of Service, (Cont'd.)

2.8.2 Exceptions to Suspension and Termination

Telephone service shall not be suspended or terminated for:

- A. Nonpayment of bills rendered for charges other than telephone service or deposits requested in connection with telephone service;
- B. Nonpayment for service for which a bill has not been rendered;
- C. Nonpayment for service which have not been rendered;
- D. Nonpayment of any billed charge which is in dispute or for the nonpayment of a deposit which is in dispute during the period before a determination of the dispute is made by the Company in accordance with Company's complaint handling procedures. These procedures are in accordance with the Department of Public Service Rules and Regulations contained in Part 633 of 16 NYCRR.

Telephone service may be suspended or terminated for nonpayment of the undisputed portion of a disputed bill or deposit if the customer does not pay the undisputed portion after being asked to do so.

- E. Nonpayment of backbilled amounts.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.8 Suspension or Termination of Service, (Cont'd.)

2.8.3 Verification of Nonpayment

Telephone service shall not be suspended or terminated for nonpayment of a bill rendered or a required deposit unless:

- A. The Company has verified, in a manner approved by the Department of Public Service, that payment has not been received at any office of the Company or at any office of an authorized collection agent through the end of the period indicated in the notice, and
- B. The Company has checked the customer's account on the day that suspension or termination is to occur to determine whether payment has been posted to the customer's account as of the opening of business on that day.

2.9 Administrative Services Fee ("ASF")

The Administrative Services Fee is a graduated percentage monthly fee assessed to all monthly recurring charges (MRCs) to recover costs associated with tariff and price guide filings, collections, record maintenance, various state business licenses, various regulatory fees where applicable, general account servicing, and the administrative costs the Company incurs for local, state and federal governmental data gathering, record maintenance, and required reporting. This is not a tax or charge imposed by a governmental entity.

The applicable percentage rate may vary. For the most current rate in effect, please refer to Conversent Communications Long Distance, LLC FCC Tariff No.7, publicly posted at the Company's website <https://www.windstream.com/tariffs>.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.9 Deposits and Advance Payments

- 2.9.1 Deposits or advance payments may be collected from Business Customers or potential Business Customers whose credit or payment history is unsatisfactory or unknown to the Company.
- 2.9.2 In determining whether a Customer's or potential Customer's credit history is unsatisfactory, the Company will consider the Customer's payment history with the Company, (ii) the Customer's ability to demonstrate adequate ability to pay for the service, (iii) credit and related information provided by the Customer, lawfully obtained from third parties or publicly available, and (iv) information relating to Customer's management, owners and affiliates. Customers whose payment or credit history is determined by the Company to present an undue risk may be required at any time to provide the Company a security deposit, in cash or the equivalent of cash, up to an amount equal to the applicable installation charges, if any, and/or two months actual or estimated usage charges for the service to be provided. In the case of a cash deposit, simple interest per annum pursuant to the rules and regulations of the Commission shall be credited or paid to the Customer while the deposit is held by the Company. Such deposit may be refunded to the Customer's account at the end of six (6) months of satisfactory credit history.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.9 Deposits and Advance Payments, (Cont'd.)

2.9.3 Interest on Deposits

Simple interest at the rate specified by the Department of Public Service shall be credited or paid to the customer while the Company holds the money. New deposits from Customers are reviewed after the first three monthly bills have been rendered; if too much has been taken, the excess is returned. The entire deposit is returned to Customers after one (1) year, unless the Customer is delinquent in payment, in which case the Company continues to hold it. When the service is discontinued, the amount of any deposit is applied against the final bill, and any balance is returned to the Customer.

2.9.4 Inadequate Deposit

If the amount of a deposit is inadequate, the Customer shall be required to pay an additional deposit on request.

2.9.5 Return of Deposit

When a deposit on existing service is to be returned in whole or in part, the amount to be returned may first be applied to the current amount then payable for telephone service. Return of an amount over and above the current amount, then payable for telephone service shall be made by check unless the Customer requests that the full amount be credited to his or her bill, or the Customer may request a full refund.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.9 Deposits and Advance Payments, (Cont'd.)

2.9.6 Customers Exempt from Deposits

- A. A new customer or existing customer who is 62 years of age or older shall be exempt from any deposit requirement unless such person's telephone service was terminated for nonpayment during the preceding six months. Proof of age will be required from any person claiming exemption from deposit requirements because of age. If the proof requested by the Company is not received within 30 days from the date service is connected, or 30 days from the date that verification of age is requested from an existing customer, the Company may suspend or terminate service unless the customer pays the required deposit. Any new customer or existing customer 62 years of age or older shall be permitted to pay a deposit in installments over a period not to exceed 12 months.
- B. The Company shall not require any person it knows to be a recipient of public assistance, supplemental security income or additional state payments to post a deposit.
- C. Recent Payment History

A customer who has a recent payment history (within the preceding twelve months) with the Company are entitled to service without payment of a deposit unless their records indicate that they are delinquent in payment or have had service terminated for nonpayment.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.10 Flexible Pricing

2.10.1 General

Flexible Pricing sets minimum and maximum rates that can be charged for telephone service. The Company may change a specific rate within the range of the established minimum and maximum rates.

2.10.2 Conditions

- A. The Company reserves the right to change prices at any time subject to regulatory requirements by filing a revised Rate Attachment with the Commission.
- B. Individual written notice to Customers of rate changes shall be made in accordance with Commission regulations. Where there are no regulations, notification will be made in a manner appropriate to the circumstances involved.
- C. A rate shall not be changed unless it has been in effect for at least thirty (30) days.
- D. A customer can request that the Company disconnect service that is provided under the Flexible Pricing due to a price increase. The customer will be credited for the difference between the new price and the old price retroactive to the effective date of the price increase if the customer notifies the Company of its desire to disconnect service within 20 days of receiving notification of the price increase.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.11 Cancellation by Customer

No charge applies when the applicant cancels an application for service prior to the start of installation or special construction.

When an applicant cancels an application for service after the start of installation or special construction, the applicant shall pay a cancellation fee which is the lesser of 1) the costs incurred by the Carrier, or 2) the charge for the minimum period of the service ordered, plus applicable installation charges.

Customers of Conversent may cancel service by providing thirty (30) days written notice to Conversent. Customers are responsible for all charges, including fixed fees, which accrue up to the cancellation date.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.12 Interconnection

Service furnished by Conversent may be connected with the services or facilities of other carriers. Such service or facilities furnished by other carrier(s), if used, are provided under the terms, rates and conditions of the other carrier(s). The Customer is responsible for all charges billed by other carriers for use in connection with Conversent's service.

2.13 Refusal or Discontinuance by Company

2.13.1 The Company may refuse or discontinue service in the following circumstances. Unless otherwise stated, the Customer will be given ten (20) days' written notice and allowed a reasonable time to comply with any rule or to remedy any deficiency. All notices given shall comply with the Commission rules.

- A. For non-compliance with and/or violation of any State or municipal law, ordinance or regulation pertaining to telephone service.
- B. For the use of telephone service for any other property or purpose other than that described in the application.
- C. For failure or refusal to provide the Company with a deposit to insure payment of bills in accordance with the Company's regulations or failure to meet the Company's credit requirements.
- D. For neglect or refusal to provide reasonable access to the Company for the purpose of inspection and maintenance of equipment owned by the Company. Such action shall be taken only when corrective action negotiated between the Company and the Customer has failed to resolve the situation.
- E. For non-compliance with and/or violation of the Commission regulations or the Company's rules and regulations on file with the Commission.
- F. In the event of tampering with the equipment furnished and owned by the Company.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.13 Refusal or Discontinuance by Company, (Cont'd.)

2.13.1 Refusal or Discontinuance by Company (Cont'd.)

- G. In the event of Customer use of equipment in such a manner as to adversely affect the Company's service to others. Such discontinuance of service may be made without notice if a dangerous condition relating to Company service exists which could subject any person to imminent harm or result in substantial damage to the property of the Company or others. In such case, the Company shall notify the Customer immediately in writing and, if possible, orally of the reasons for the termination or refusal.
- H. In the event of unauthorized or fraudulent use of service. The Company may terminate service without notice to the Customer if it has evidence that such Customer has obtained unauthorized service by illegal use or theft. The Company shall within twenty four (24) hours after such termination send written notification to the Customer of the reasons for such termination. Whenever service is discontinued for fraudulent use of service, the Company may, before restoring service, require the Customer to make, at his own expense, all changes in facilities or equipment necessary to eliminate illegal use and to pay an amount reasonably estimated as the loss in revenues resulting from such fraudulent use.
- I. For failure of the Customer to make proper application for service. A Customer who has complied with Commission regulations shall not be denied service for failure to comply with the Company's rules which have not been made effective in the manner prescribed by the Commission.
- J. For Customer's breach of the contract for service between the Company and the Customer.
- K. When necessary for the Company to comply with any order or request of any governmental authority having jurisdiction.

2.12 Refusal or Discontinuance by Company, (Cont'd.)

2.13.1 Refusal or Discontinuance by Company (Cont'd.)

- L. The Company reserves the right to discontinue furnishing service or to limit the use of service when necessary due to conditions beyond its control or when the Customer is using service in violation of the law or provisions of this service guide.

- M. The Company, with written notification giving reason, may either suspend service or terminate the Customer's service without suspension or following a suspension of service, disconnect the service and remove any of its equipment from the Customer's premises upon:
 - 1. Abandonment of service.
 - 2. Impersonation of another with fraudulent intent.
 - 3. Nonpayment of any sum due the Company.
 - 4. Abuse or fraudulent use of service.

2.13.2 Disputed Bills

Service shall not be terminated for nonpayment of any billed charge which is in dispute or for the nonpayment of a deposit which is in dispute during the period before a determination of the dispute is made by the Company in accordance with Company complaint handling procedures.

Service may be terminated for nonpayment of the undisputed portion of a disputed bill or deposit if the Customer, having been asked to pay such undisputed portion, does not do so. Terminated service shall be reconnected within 24 hours following payment absent circumstances beyond the Company's control. When circumstances beyond the Company's control exist, the service will be connected within 24 hours after cessation of such circumstances.

2.14 Inspection, Testing and Adjustment

Upon reasonable notice, the facilities provided by the Company shall be made available to the Company for tests and adjustments as may be deemed necessary by the Company for maintenance. No interruption allowance will be granted for the time during which such tests and adjustments are made when the interruption is less than twenty-four consecutive hours.

2.15 Tests, Pilots, Promotional Campaigns and Contests

The Company may conduct special tests, pilot programs, waivers and promotions to demonstrate the ease of use, quality of service and to promote the sale of its services.

2.16 Interruption of Service

Interruptions of service and trouble reports are subject to the general liability provisions set forth in Section 2.3 herein and the provisions of the Commission.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.17 Terms and Conditions

- 2.17.1 Service is provided on the basis of a minimum period of at least one month unless specified otherwise in this service guide. For the purpose of computing charges in this service guide or an applicable contract, a month is considered to have 30 days.
- 2.17.2 Customers may be required to enter into written service agreements which shall contain or reference a specific description of the service ordered, the rates to be charged, the duration of the services, and the terms and conditions in this service guide or an applicable contract. The Customer will also be required to execute any other documents as may be reasonably requested by the Company.
- 2.17.3 At the expiration of the initial term specified in each service agreement, or in any extension thereof, service shall continue on a month to month basis at the then current rates unless terminated by either party. Any termination shall not relieve the Customer of its obligation to pay any charges incurred under the service order and this service guide or an applicable contract prior to termination. The rights and obligations which by their nature extend beyond the termination of the term of the service agreement shall survive such termination.
- 2.17.4 In any action between the parties to enforce any provision of this service guide or an applicable contract, the prevailing party shall be entitled to recover its legal fees and court costs from the non-prevailing party in addition to other relief a court may award.

2.18 Non-Routine Installation

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.19 Telephone Surcharges

2.19.1 General

In addition to the rates and charges applicable according to the rules and regulations of this service guide, various surcharges apply to the customer's monthly bill statement as outlined in 2.19.2 and 2.19.3 below. If there are surcharge rates applicable to a particular city, village, town or county tax district or other jurisdictional taxing entity, the rate will be listed in the rate schedule which is at the end of this service guide.

2.19.2 Surcharge For State Gross Income and Gross Earnings Taxes

A monthly surcharge to recover the additional expense related to the State Gross Income and Gross Earnings Taxes applies to the recurring and nonrecurring rates and charges for all intrastate service except returned check charges, late payment charges and rates for local coin calls. The applicable Gross Revenue Surcharge rates are shown on the rate schedule which is at the end of this service guide. Any changes to these rates will be filed on 15 days' notice to customers and the Commission, and as directed by the Commission. Whenever the state levies a new tax on the Company's gross revenues, repeals such a tax, or changes the rate of such a tax, the Commission may approve new surcharge factors, and the Company will file revised a surcharge as directed or approved by the Commission.

2.19 Telephone Surcharges, (Cont'd.)

2.19.3 Village or Municipal Surcharge On Local Utility Gross Revenue Taxes

In certain cities and villages a municipal surcharge related to the Local Utility Gross Revenue Taxes applies to the recurring and nonrecurring rates and charges for all intrastate service except returned check charges, late payment charges and rates for local coin calls. The percentage rate of the surcharge in each locality where such a surcharge applies is listed on the rate schedule which is at the end of this service guide.

The surcharge statement shall be filed at least fifteen business days before the effective date. The effective date of the statement shall not be prior to the effective date of the surcharge and no sooner than the date when the tax enactment is filed with the Secretary of State. The surcharge shall be applicable to bills subject to the tax enactment that are rendered on or after the effective date of the statement. If the tax enactment either ceases to be effective or is modified so as to reduce the tax rate, the surcharge will be changed accordingly within 5 business days.

Introduction, cancellation, or modification of a surcharge will be effective on the date of the customer's first bill rendered after the effective date of the change.

2.19 Telephone Surcharges, (Cont'd.)

2.19.4 Public Pay Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

2.20 Automatic Number Identification Terms and Conditions

Conversent may provide Automatic Number Identification (ANI) associated with an intrastate service, by service guide, to any entity (ANI recipient), only under the following terms and conditions:

- A. The ANI recipient or its designated billing agent may use or transmit ANI information to third parties for billing and collection, routing, screening, ensuring network performance, and completion of a telephone subscriber's original call or transaction.
- B. The ANI recipient may offer to any telephone subscriber with whom the ANI recipient has an established customer relationship, a product or service that is directly related to products or services previously purchased by the telephone subscriber from the ANI recipient.
- C. The ANI recipient or its designated billing agent is prohibited from utilizing ANI information to establish marketing lists or conduct outgoing marketing calls, except as permitted by the preceding paragraph, unless the ANI recipient obtains the prior written consent of the telephone subscriber permitting the use of ANI information for such purposes. The foregoing provisions notwithstanding, no ANI recipient or its designated billing agent may utilize ANI information if prohibited elsewhere by law.
- D. The ANI recipient or its designated billing agent is prohibited from reselling, or otherwise disclosing ANI information to any other third party for any use other than those listed in Provision 1, unless the ANI recipient obtains the prior written consent of the subscriber permitting such resale or disclosure.

- E. Conversent will make reasonable efforts to adopt and apply procedures designed to provide reasonable safeguards against the aforementioned abuses of ANI.

- F. Violations of any of the foregoing terms and conditions by any ANI recipient other than a Telephone Corporation shall result, after a determination through the Commission's complaint process, in suspension of the transmission of ANI by the Telephone Corporation until such time as the Commission receives written confirmation from the ANI recipient that the violations have ceased or have been corrected. If the Commission determines that there have been three or more separate violations in a 24 month period, delivery of ANI to the offending party shall be terminated under terms and conditions determined by the Commission.

Violations of any of the foregoing terms and conditions by a Telephone Corporation may result in Commission prosecution of penalty and enforcement proceedings pursuant to Sections 24, 25 and 26 of the Public Service Law.

2.21 Special Construction and Special Arrangements

2.21.1 Special Construction - Subject to the agreement of the Company and to all of the regulations contained in this service guide or any applicable contract, special construction and special arrangements may be undertaken on a reasonable effort basis at the request of the Customer. Special arrangements include any service or facility relating to a regulated telecommunications service not otherwise specified under this service guide or any applicable contract, or for the provision of service on an expedited basis or in some other manner different from the normal service guide or contract conditions. Special construction is that construction undertaken:

- A. Where facilities are not presently available, and there is no other requirement for the facilities so constructed,
- B. Of a type other than that which the Company would normally utilize in the furnishing of its services,
- C. Over a route other than that which the Company would normally utilize in the furnishing of its services,
- D. In a quantity greater than that which the Company would normally construct,
- E. On an expedited basis,
- F. On a temporary basis until permanent facilities are available,
- G. Involving abnormal costs, or
- H. In advance of its normal construction.

2.21 Special Construction and Special Arrangements, (Cont'd.)

2.21.2 Basis for Charges - Where the Company furnishes a facility on special construction basis, or any service for which a rate or charge is not specified in this service guide, charges will be based on the costs incurred by the Company and may include the following: non-recurring type charges, (ii) recurring type charges, (iii) termination liabilities or (iv) combinations thereof. The agreement for special construction will ordinarily include a minimum service commitment based upon the estimated service of the facilities provided.

2.21.3 Basis for Cost Computation - The costs referred to in Section 2.17.2 preceding may include one or more of the following items to the extent they are applicable:

- A. Cost installed of the facilities to be provided including estimated costs for the rearrangements of existing facilities. Cost installed includes the cost of: equipment and materials provided or used, (ii) engineering, labor and supervision, (iii) transportation, (iv) rights-of-way and (v) any other item chargeable to the capital account.
- B. Annual charges including the following: cost of maintenance, (ii) depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage, (iii) administration, taxes and uncollectible revenue on the basis of reasonable average costs for these items, (iv) any other identifiable costs related to the facilities provided and (v) an amount for return and contingencies.

2.21 Special Construction and Special Arrangements, (Cont'd.)

2.21.4 Termination Liability - To the extent that there is no other requirement for use by the Company, a termination liability may apply for facilities specially constructed at the request of the Customer.

A. The maximum termination liability is equal to the total cost of the special facility as determined under Section 2.17.3, preceding, adjusted to reflect the predetermined estimated net salvage, including any reuse of the facilities provided.

B. The maximum termination liability as determined in paragraph a) shall be divided by the original term of service contracted for by the Customer (rounded up to the next whole number of months) to determine the monthly liability. The Customer's termination liability shall be equal to this monthly amount multiplied by the remaining unexpired term of service (rounded up to the next whole number of months), discounted to present value at six (6) percent, plus applicable taxes.

2.21.5 Maintenance Charge - A maintenance charge shall apply when a user requests the dispatch of the Company's personnel for the purpose of performing maintenance activity on the Company's facilities and the trouble condition is found to result from equipment, facilities, or systems not provided by the Company.

2.22 Schools and Libraries Discount Program

2.22.1 General

The Schools and Libraries Discount Program permits eligible schools (public and private, grades Kindergarten through 12) and libraries to purchase the Company services offered in this service guide at a discounted rate, in accordance with the Rules adopted by the Federal Communications Commission (FCC) in its Universal Service Order 97-157, issued May 8, 1997 and the New York State Department of Public Service in its Opinion and Order 97-11 Adopting Discounts for Services for Schools and Libraries, issued June 25, 1997. The Rules are codified at 47 Code of Federal Regulation (C.F.R.) 54.500 et. seq.

As indicated in the Rules, the discounts will be between 20 and 90 percent of the pre-discount price, which is the price of services to schools and libraries prior to application of a discount. The level of discount will be based on an eligible school or library's level of economic disadvantage and by its location in either an urban or rural area. A school's level of economic disadvantage will be determined by the percentage of its students eligible for participation in the national school lunch program, and a library's level of economic disadvantage will be calculated on the basis of school lunch eligibility in the public school district in which the library is located. A non-public school may use either eligibility for the national school lunch program or other federally approved alternative measures to determine its level of economic disadvantage. To be eligible for the discount, schools and libraries will be required to comply with the terms and conditions set forth in the Rules. Discounts are available only to the extent that they are funded by the federal universal service fund. Schools and libraries may aggregate demand with other eligible entities to create a consortium.

2.23 Health Care Providers Support Program

2.23.1 General

The purpose of the Health Care Providers Support Program is to enable public and non-profit rural health care providers to have access to telecommunications services necessary for the provision of health care services at rates comparable to those paid for similar services in urban areas. The Health Care Providers Support Program offers eligible public and non-profit health care providers located in rural areas reduced rates for Company intrastate services, available in this service guide. Such services must be purchased in accordance with the Rules adopted by the Federal Communications Commission (FCC) in its Universal Service Order 97-157, issued May 8, 1997 and the New York State Department of Public Service Commission in its Order in Cases 94-C-0095 and 28425, issued November 4, 1997. The FCC Rules are codified at 47 Code of Federal Regulation (C.F.R.) 54.601 et. seq., and any amendments made thereto.

2.23.2 Regulations

- A. To be eligible for the reduced rates, rural health care providers are required to comply with the terms and conditions set forth in the FCC Rules.
- B. Reduced rates are available only to the extent that they are funded by the federal universal service fund.
- C. Eligible rural health care providers may aggregate demand with other entities to create a consortium. Universal service support shall apply only to the portion of eligible services used by an eligible health care provider.
- D. Responsibility of eligible health care providers
 - 1. Rural health care providers and consortia shall participate in a competitive bidding process for all services eligible for reduced rates in accordance with any state and local procurement rules.

2.23.3 Rates and Charges

The following price adjustments will be available to eligible rural health care providers, except subparagraph C, which shall be available to all eligible health care providers, regardless of location:

- A. A reduced rate for telecommunications services, using a bandwidth capacity of up to 1.544 Mbps, not to exceed the highest tariffed or publicly available rate charged to a commercial customer for a similar service provided over the same distance in the nearest city in New York State with a population of at least 50,000.
- B. An exemption from some mileage charges for any telecommunications services, using a bandwidth capacity of up to 1.544 Mbps, that is necessary for the provision of health care services. The exempted mileage includes the distance between the rural health care provider and the most distant perimeter of the nearest city in New York State with a population of 50,000 or more, less the standard urban distance, which is the maximum average diameter of all cities with population of 50,000 or more in the state.
- C. Each eligible health care provider that cannot obtain toll-free access to an Internet service provider is entitled to receive toll charge credits for toll charges imposed for connecting to an Internet service provider as per the FCC Rules. Such toll charge credits are available pursuant to applicable toll service guides.

2.24 Allowances for Interruptions in Service

Interruptions in service, which are not due to the negligence of, or non-compliance with the provisions of this service guide by the Customer, or the operation or malfunction of the facilities, power or equipment provided by the Customer, will be credited to the Customer as set forth below for the part of the service that the interruption affects. A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this Service Guide .

2.24.1 Credit for Interruptions

- A. An interruption period begins when the Customer reports a service, facility, or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility, or circuit is operative. If the Customer reports a service, facility, or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.
- B. For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.

2.24.1 Credit for Interruptions, (Cont'd.)

- C. A credit allowance will be given, upon request of the Customer to the business office, for interruptions of 30 minutes or more. Credit allowances will be calculated as follows:
1. if interruption continues for less than 24 hours:
 - a. 1/30th of the monthly rate if it is the first interruption in the same billing period.
 - b. 2/30th of the monthly rate if there was a previous interruption of at least 24 hours in the same billing period.
 2. if interruption continues for more than 24 hours:
 - a. if caused by storm, fire, flood or other condition out of Company's control, 1/30th of the monthly rate for each 24 hours of the interruption.
 - b. for other interruption, 1/30th of the monthly rate for the first 24 hours and 2/30ths of such rate for each additional 24 hours (or fraction thereof); however, if service is interrupted for over 24 hours, more than once in the same billing period, the 2/30ths allowance applies to the first 24 hours of the second and subsequent interruptions.

Two or more interruptions of 15 minutes or more during any one 24-hour period shall be considered as one interruption.

2.24.1 Credit for Interruptions, (Cont'd.)

D. Credit to Customer

Credits attributable to any billing period for interruptions of service shall not exceed the total charges for that period for the service and facilities furnished by the Company rendered useless or substantially impaired.

E. "Interruption" Defined

For the purpose of applying this provision, the word "interruption" shall mean the inability to complete calls either incoming or outgoing or both due to equipment malfunction or human errors. "Interruption" does not include and no allowance shall be given for service difficulties such as slow dial tone, circuits busy or other network and/or switching capacity shortages. Nor shall the interruption allowance apply where service is interrupted by the negligence or willful act of the Customer where the Company, pursuant to the terms of the Service Guide, suspends or terminates service because of nonpayment of bills due to the Company, unlawful or improper use of the facilities or service, or any other reason covered by the Service Guide. No allowance shall be made for interruptions due to electric power failure where, by the provisions of this Service Guide, the Customer is responsible for providing electric power. Allowance for interruptions of message rate service will not affect the Customer's local call allowance during a given billing period.

2.25.2 Directory Errors

In the absence of gross negligence or willful misconduct and except for the allowances stated below, no liability for damages arising from errors or mistakes in or omissions of directory listings, or errors or mistakes in or omissions of listings obtainable from the directory assistance operator, including errors in the reporting thereof, shall attach to the Company.

An allowance for errors or mistakes in or omissions of published directory listings or for errors or mistakes in or omissions of listings obtainable from the directory assistance operator shall be given as follows:

- A. Free Listings: For free or no-charge published directory listings, credit shall be given at the rate of two times the monthly service guide rate for an additional or charge listing for each individual, auxiliary or party line, PBX trunk or Centrex attendant loop affected, for the life of the directory or the charge period during which the error, mistake or omission occurs.
- B. Charge Listings: For additional or charge published directory listings, credit shall be given at the monthly service guide rate for each such listing for the life of the directory or the charge period during which the error, mistake or omission occurs.
- C. Operator records: For free or charge listings obtainable from records used by the directory assistance operator, upon notification to the Company of the error, mistake or omission in such records by the subscriber, the Company shall be allowed a period of three business days to make a correction. If the correction is not made in that time, credit shall be given at the rate of 2/30ths of the basic monthly rate for the line or lines in question for each day thereafter that the records remain uncorrected. (Where Centrex Attendant Loops are involved, credit shall be given at the rate of 2/30th of the basic monthly rate for PBX Trunks.)

2.25 Additional Provisions Applicable to Business Customers, (Cont'd.)

2.25.2 Directory Errors (Cont'd.)

- D. Credit limitation: The total amount of the credit provided for the preceding paragraphs A, B, and C shall not exceed, on a monthly basis, the total of the charges for each charge listing plus the basic monthly rate, as specified in paragraph C, for the line or lines in question.
- E. Definitions: As used in Paragraphs A, B, C, and D above, the terms "error," "mistake" or "omission shall refer to a discrepancy in the directory listing or directory assistance records which the Company has failed to correct and where the error affects the ability to locate a particular subscriber's correct telephone number. The terms shall refer to addresses only to the extent that an error, mistake or omission of an address places the subscriber on an incorrect street or in an incorrect community.
- F. Notice: Such allowances or credits as specified in Paragraphs A, B, and C above, shall be given upon notice to the Company by the subscriber that such error, mistake or omission has occurred; provided, however, that when it is administratively feasible for the Company to have knowledge of such error, mistake or omission, the Company shall give credit without the requirement of notification by the subscribers.

2.26.1 General

- A. The Telecommunications Service Priority (TSP) Program is a federal program used to identify and prioritize telecommunications services that support national security or emergency preparedness (NS/EP) missions.

NS/EP services are defined as those telecommunications services which are used to maintain a state of readiness or respond to and manage any event or crisis which causes or could cause injury or harm to the population, damage or loss to property, or degrades or threatens the NS/EP posture of the United States.

TSP restoration and/or provisioning shall be provided in accordance with Part 64, Appendix A of the Federal Communications Commission's Rules and Regulations (47 C.F.R.), and the "Service Vendor Handbook For The Telecommunications Service Priority (TSP) Program" and the "Service User Manual for the Telecommunications Service Priority (TSP) System" (NCS Manual 3-1-1) (Service User Manual) issued and updated as necessary by the Office of Priority Telecommunications (OPT) of the National Communications System. Any changes to or reissuance of these regulations or manuals supersede service guide language contained herein.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.26 Emergency / Crisis / Disaster Restoration and Provisioning - Telecommunications Service Priority, (Cont'd.)

2.26.1 General, (Cont'd.)

B. The TSP program has two components, restoration and provisioning.

1. A restoration priority is applied to new or existing telecommunications services to ensure restoration before any other services during a service outage. TSP restoration priorities must be requested and assigned before a service outage occurs.
2. A provisioning priority is obtained to facilitate priority installation of new telecommunications services during a service outage. Provisioning on a priority basis becomes necessary when an end-user has an urgent requirement for a new NS/EP service that must be installed immediately or by a specific due date that can be met only by a shorter than standard or expedited Company provisioning time frame. As a matter of general practice, existing TSP services will be restored before provisioning new TSP services.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.26 Emergency / Crisis / Disaster Restoration and Provisioning - Telecommunications Service Priority, (Cont'd.)

2.26.2 TSP Request Process

A. Restoration

To request a TSP restoration priority assignment, a prospective TSP user must:

1. Determine that the user's telecommunications service supports an NS/EP function under one of the following four TSP categories.

National Security Leadership
National Security Posture and U.S. Population Attack Warning
Public Health, Safety, and Maintenance of Law and Order
Public Welfare and Maintenance of National Economic Posture

2. Identify the priority level to be requested for the telecommunications service. The priority level is determined by the end-user's TSP category and service profile. The service profile defines the user's level of support to the portion of the telecommunications service that the user owns and operates, such as customer premises equipment or wiring. The five levels of priority and seven element groups that define the service profile are contained in the Service User Manual.
3. Complete the TSP Request for Service Users form (SF 315) available on the National Communications System (NCS) website (<http://tsp.ncs.gov/>).
4. For non-federal users, have their TSP requests approved by a federal agency sponsor. Non-federal users should contact the OPT, at the NCS website (<http://tsp.ncs.gov/>), for information on identifying a sponsor for TSP requests.
5. Submit the SF 315 to the OPT.
6. Upon receipt of the TSP Authorization Code from the OPT, notify the Company, and include the TSP Authorization Code in any service order to the Company requesting restoration of NS/EP services.

2.26 Emergency / Crisis / Disaster Restoration and Provisioning - Telecommunications Service Priority, (Cont'd.)

2.26.2 TSP Request Process, (Cont'd.)

B. Provisioning

To request a TSP provisioning priority assignment, a prospective TSP user must follow the same steps listed in 2.26.2.A above for restoration priority assignment except for the following differences. The user should:

Certify that its telecommunications service is an Emergency service. Emergency services are those that support one of the NS/EP functions listed in 2.26.2.A.1 above and are so critical that they must be provisioned at the earliest possible time, without regard to cost to the user.

Verify that the Company cannot meet the service due date without a TSP assignment.

Obtain approval from the end-user's invocation official to request a provisioning priority. Invocation officials are designated individuals with the authority to request TSP provisioning for a telecommunications service, and include the head or director of a federal agency, commander of a unified/specified military command, chief of a military service, commander of a major military command, or state governor.

2.26 Emergency / Crisis / Disaster Restoration and Provisioning - Telecommunications Service Priority, (Cont'd.)

2.26.3 Responsibilities of the End-User

End-users or entities acting on their behalf must perform the following:

- A. Identify telecommunications services requiring priority.
- B. Request, justify, and revalidate all priority level assignments. Revalidation must be completed every 2 years, and must be done before expiration of the end-user's TSP Authorization Code(s).
- C. Accept TSP services by the service due dates.
- D. Have Customer Premises Equipment (CPE) and Customer Premises Wiring (CPW) available by the requested service due date and ensure (through contractual means or otherwise) priority treatment for CPE and CPW necessary for end-to-end service continuity.
- E. Pay the Company any authorized costs associated with priority services.
- F. Report to the Company any failed or unusable services with priority levels.
- G. Designate a 24-hour point of contact for each TSP request and apprise the OPT.
- H. Cooperate with the OPT during reconciliation (comparison of NS/EP service information and resolution of any identified discrepancies) and revalidation.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.26 Emergency / Crisis / Disaster Restoration and Provisioning - Telecommunications Service Priority, (Cont'd.)

2.26.4 Responsibilities of the Company

The Company will perform the following:

- A. Provide TSP service only after receipt of a TSP authorization code.
- B. Revoke TSP services at the direction of the end-user or OPT.
- C. Ensure that TSP Program priorities supersede any other telecommunications priority that may be provided (other than control services and order wires).
- D. Designate a 24-hour point of contact to receive reports of TSP service outages from TSP service users.
- E. Designate a 24-hour point of contact to coordinate TSP processes with the OPT.
- F. Confirm completion of TSP service order activity to the OPT.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.26 Emergency / Crisis / Disaster Restoration and Provisioning - Telecommunications Service Priority, (Cont'd.)

2.26.4 Responsibilities of the Company, (Cont'd.)

- G. Participate in reconciliation of TSP information at the request of the OPT.
- H. Ensure that all subcontractors complete reconciliation of TSP information with the service vendor.
- I. Ensure that other carriers supplying underlying facilities are provided information necessary to implement priority treatment of facilities that support NS/EP services.
- J. Assist in ensuring that priority level assignments of NS/EP services are accurately identified "end-to-end" by providing to subcontractors and interconnecting carriers the restoration priority level assigned to a service.
- K. Disclose content of the NS/EP TSP database only as may be required by law.
- L. Comply with regulations and procedures supplemental to and consistent with guidelines issued by the OPT.

2.26.5 Preemption

When spare facilities are not available, it may be necessary for the Company to preempt the facilities required to provision or restore a TSP service. When preemption is necessary, non-TSP services may be preempted based on the Company's best judgment. If no suitable spare or non-TSP services are available, the Company may preempt an existing TSP service to restore a TSP service with a higher restoration priority assignment. When preemption is necessary, prior consent of the service user whose service will be preempted is not required; however, the Company will make every reasonable effort to notify the preempted customer of the action to be taken.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.27 311 / 911 Caller ID Blocking *

The City of New York 311 Call Center provides consolidated access to non-emergency municipal services and information 24 hours per day, 365 days per year. Callers have the ability to access City departments and services by using the 311 abbreviated dialing code instead of dialing a particular seven-digit number. In certain circumstances, calls to the 311 Call Center involve emergencies of various levels. In these instances, the Call Center will transfer the call to the 911 Emergency Call Center. If the caller has activated Caller ID Blocking, either on a per-call or per-line basis, the 911 Emergency Call Center will be unable to determine the caller's location. Thus, by Order dated April 18, 2003 (Case 03-C00171), the New York Public Service Commission directed that, for reasons of public safety, Caller ID Blocking shall be unblocked on all calls to the 311 Call Center. This ruling applies only to calls made to the 311 Call Center and not to any other municipal office.

2.28 Calculation of Rates

Call Rounding - When the application of rates results in a fractional charge, calls will be rounded up to the highest cent.

* - Caller ID Blocking is deactivated for calls to 311 or 911 in the New York exchange only.

SECTION 3 - CONNECTION CHARGES

3.1 Connection Charge

3.1.1 General

The Connection Charge is a nonrecurring charge which applies to the following: (a) the installation of a new service; (b) the transfer of an existing service to a different location; (c) a change from one class of service to another at the same or a different location; or (d) restoral of service after suspension or termination for nonpayment. Connection Charges are listed with each service to which they apply.

3.1.2 Exceptions to the Charge

- A. No charge applies for a change to a service for which a lower monthly rate applies, made within 90 days after any general rate increase, if a lower grade of service is offered in the customer's exchange.
- B. A move or a change of telephone services or equipment that is initiated by the Company and / or required for the proper maintenance of service.
- C. Disconnection and / or removal of equipment listings, network access lines, and Custom Calling service features, provided that no other work subject to premises work charges is performed.
- D. Changes of telephone numbers for company initiated reasons or service reasons (e.g.: change to Touch-tone service).

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 3 - CONNECTION CHARGES (CONT'D.)

3.2 Restoral Charge

A restoral charge applies each time a service is reconnected after suspension or termination for nonpayment but before cancellation of the service, as deemed in Section 1 of this Service Guide .

	<u>Minimum</u>	<u>Maximum</u>
Business:	\$5.00	\$100.00

3.3 Service Order and Change Charges

3.3.1 The Company alone may make changes in the location of its lines and equipment. When it is found that a move or change of such lines or equipment has been made by others, the Connection Charge for the underlying service will apply as if the work had been done by the Company.

3.3.2 The Customer will be assessed a charge for any move, add or change of a Company service. Move, Add and Change are defined as follows:

Move: The disconnection of existing equipment at one location and reconnection of the same equipment at a new location in the same building or in a different building on the same premises.

Add: The addition of a vertical service to existing equipment and/or service at one location.

Change: Change - including rearrangement or reclassification - of existing service at the same location.

SECTION 4 - REGIONAL CALLING

4.1 General

4.1.1 Description

Regional Calling Service is furnished for telephone communications in New York City to seven regions (specified below) within the New York Metropolitan LATA (New York Metro) in accordance with the regulations and schedules of charges specified in this service guide. The usage charges specified in Section 4.5 below are in payment for all service furnished between the calling and called telephone, except as otherwise provided in this Service Guide.

Regional Calling includes the following types of calls: direct dialed, collect, 3rd number billed, special toll billing, requests to notify of time and charges, and person to person calling.

The New York Metro LATA is divided into seven Regions whose boundaries are defined by political, commercial and social mutuality of interest. The Regions are:

New York City (Home Region)	Lower Westchester
Nassau	Upper Westchester
West Suffolk	Rockland
East Suffolk	

The exchanges of Byram and Greenwich in Connecticut are part of the New York Metro LATA, but are not part of the Regional Calling specified above.

SECTION 4 - REGIONAL CALLING (CONT'D.)

4.1 General, (Cont'd.)

4.1.2 Classes of Calls

Service is offered as two classes: station to station calling and person to person calling.

- A. Station to Station Service is that service where the person originating the call dials the telephone number desired or gives the Company operator the telephone number of the desired telephone station or system.
- B. Person to Person Service is that service where the person originating the call specifies to the Company operator a particular person to be reached, a particular mobile unit to be reached, or a particular station, department or office to be reached. The call remains a person to person call when, after the telephone, mobile telephone, or PBX system has been reached and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other agreed upon alternate.

SECTION 4 - REGIONAL CALLING (CONT'D.)

4.2 Timing of Calls

- 4.2.1 Unless otherwise indicated, all calls are timed in one minute increments and all calls which are fractions of a minute are rounded up to the next whole minute.
- 4.2.2 For station to station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.
- 4.2.3 For person to person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agreed alternate.
- 4.2.4 Call timing ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.
- 4.2.5 Calls originating in one time period as defined in Section 4.3 and terminating in another will be billed the rates in effect at the beginning of each minute.

4.4 Regulations and Computation of Mileage

Calls for which rates are mileage sensitive are rated on the airline distance between the originating rate center and the terminating rate center.

4.4.1 Originating Rate Center

A customer's primary local exchange number includes an NXX code that is associated with a specific rate center. The originating point of all calls charged to that customer's account shall be the location of the customer's rate center.

4.4.2 Terminating Rate Center

The terminating point for all calls shall be the location of the local rate center associated with the called number.

SECTION 4 - REGIONAL CALLING (CONT'D.)

4.4 Regulations and Computation of Mileage, (Cont'd.)

4.4.3 Calculation of Mileage

Airline mileage, where mileage is the basis for rating calls, is obtained by using the "V" and "H" coordinates assigned to each rate center and contained in NECA FCC Tariff No. 4 or successor tariffs. To determine the airline distance between any two locations, proceed as follows:

- A. Obtain the "V" and "H" coordinates for each location. The "V" coordinate is the first four digits in the "VH" column. The "H" coordinate is the next four digits.
- B. Obtain the difference between the "V" coordinates of each of the locations. Obtain the difference between the "H" coordinates.
- C. Square each difference obtained in step b., above.
- D. Add the square of the "V" difference and the "H" difference obtained in step c., above.
- E. Divide the sum of the square by 10. Round to the next higher whole number if any fraction is obtained.
- F. Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

Formula:

$$\sqrt{\frac{|V_1 - V_2|^2 + |H_1 - H_2|^2}{10}}$$

SECTION 4 - REGIONAL CALLING (CONT'D.)

4.5 Call Charges

Rates are based on the duration of the call as measured according to Section 4.2 above, time of day rate period of the call as described in Section 4.3 and the region to which the call is terminated as listed in Section 4.4. In addition, where live or automated operator assistance is required for call completion or billing, a per call service applies.

Charges for all classes of calls may be to the calling station, to the called station when the called party agrees to accept the charges, to an authorized telephone number which is not the called station or the calling station (3rd number billing), or to an authorized calling card.

All Customers being provided Month to Month services through an expired service term with the Company will find the rates for their specific out of contract services in Section 18 - Non-Term Rates.

5.1 Service and Promotional Trials

5.1.1 General

The Company may establish temporary promotional programs wherein it may waive or reduce nonrecurring or recurring charges, to introduce a present or potential customer to a service not previously subscribed to by the customer.

5.1.2 Regulations

- A. Appropriate notification of the Trial will be made to all eligible customers and to the Commission. Appropriate notification may include direct mail, bill inserts, broadcast or print media, direct contact or other comparable means of notification.
- B. During a Service Trial, the service(s) is provided automatically to all eligible customers, except those customers who choose not to participate. Customers will be offered the opportunity to decline the trial service both in advance and during the trial. A customer can request that the designated service be removed at any time during the trial and not be billed a recurring charge for the period that the feature was in place. At the end of the trial, customers that do not contact the Company to indicate they wish to retain the service will be disconnected from the service at no charge.

5.2 Directory Listing Services

5.2.1 General Terms and Conditions

- A. The Company shall provide for a single directory listing, termed the primary listing, in the telephone directory published by the dominant exchange service provider in the customer's exchange areas of the Station number which is designated as the Customer's main billing number. Directory listings of additional Company Station numbers, other than the Customer's main billing number, associated with a Customer's service will be provided for a monthly recurring charge per listing
- B. The Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clearness of the listing, or the identification of the Customer is not impaired thereby. Where more than one line is required to properly list the Customer, no additional charge is made.
- C. The Company may refuse a listing which is known not to constitute a legally authorized or adopted name, obscenities in the name, or any listing which, in the opinion of the Company, is likely to mislead or deceive calling persons as to the identity of the listed party, or is a contrived name used for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.

5.2.1 General Terms and Conditions, (Cont'd.)

- D. Each listing must be designated Government or Business to be placed in the appropriate section of the directory. In order to aid the user of the directory, and to avoid misleading or deceiving the calling party as to the identity of the listed party, only business listings may be placed in the Business Section. The Company, upon notification to the customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.
- E. In order for listings to appear in an upcoming directory, the Customer must furnish the listing to the Company in time to meet the directory publishing schedule.
- F. Rates and regulations for listing service are applicable only to listings in the alphabetical directories.
- G. Directory listings are limited to such information as is essential to the identification of the listed party. The listing of a service, commodity, or trade name is not permitted unless it is the name, or an integral part of the name, under which the Customer does business.
- H. A listing is limited to one line in the directory, except where in the judgment of the Company, more than one line is required to identify the Customer properly. In such cases, the additional lines required are provided at no extra charge.
- I. Listing services are available with all classes of main telephone exchange service.

5.2 Directory Listing Services, (Cont'd.)

5.2.2 Listings

One listing, termed the initial listing is included with each Customer's service, and with the initial line of a line hunting group.

At a charge, additional listings may be included in the alphabetical directory and on directory assistance records, or appear on directory assistance records only. The monthly rate for additional listings apply when the listings appear in Directory Assistance records in accordance with the date requested by the customer.

If an additional listing is ordered discontinued by the Customer after the closing of the directory, the monthly rate continues through that issue of the directory and up to the date for rates to be effective for the next directory. If the additional listing is ordered discontinued before the closing date of the directory in which it would first appear the monthly rate continues only to the date of cancellation by the customer, with a minimum service period of one month

SECTION 5 - SUPPLEMENTAL SERVICES (CONT'D.)

5.2 Directory Listing Services, (Cont'd.)

5.2.3 Nonpublished Service

Nonpublished service means that the customer's telephone number is not listed in the directory, nor does it appear in the Company's Directory Assistance Records. However, such information may be displayed on a call-by-call basis at Public Safety Answering Point locations where Enhanced Universal Emergency Number service is provided (E911).

The Company will complete calls to a non-published number only when the caller dials direct or gives the operator number. No exceptions will be made, even if the caller says it is an emergency.

When the Company agrees to keep a number unlisted, it does so without any obligation. Except for cases of gross negligence or willful misconduct, the Company is not liable for any damages that might arise from publishing a non-published number in the directory or disclosing it to some. If, in error, the telephone number is published in the directory, the Company's only obligation is to credit or refund any monthly charges the customer paid for non-published service.

The subscriber indemnifies (i.e., promises to reimburse the Company for any amount the Company must pay as a result of) and save the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a non-published service or the disclosing of said number to any person.

5.2.4 Nondirectory Listed Service

Nondirectory listed service means that the customer's telephone number is not listed in the directory, but does it appear in the Company's Directory Assistance Records.

This service is subject to the rules and regulations for E911 service, where applicable.

The Company will complete calls to a non-listed number.

When the Company agrees to keep a number unlisted, it does so without any obligation. Except for cases of gross negligence or willful misconduct, the Company is not liable for any damages that might arise from publishing a non-listed number in the directory or disclosing it to some. If, in error, the telephone number is listed in the directory, the Company's only obligation is to credit or refund any monthly charges the customer paid for non-listed service.

5.4 Critical Facilities Administration Service ¹

5.4.1 General Description

Customers that subscribe to Critical Facilities Administration ("CFA") Service will receive real-time data on the physical path of Qualified Circuits that are identified by the Customer, including notification of any change in physical routing.

5.4.2 Definitions

- A. Qualified Circuit – Circuits enrolled in the federal Telecommunications Service Priority Program and meeting the eligibility criteria set forth below.
- B. Subscribing Circuit – Those Qualified Circuits that the Customer requests to be included in the CFA Service.
- C. Telecommunications Service Priority (TSP) Program – A federal program used to identify and prioritize telecommunications services that support national security or emergency preparedness (NS/EP) missions. See Section 2.26 of this Service Guide.

¹ Filed in compliance with the Order Directing Filings Concerning Critical Facilities Administration and Telecommunications Service Priority Services and Requesting Public Comment on this National Security Program issued by the New York Public Service Commission in Case 03-C-0922 dated June 15, 2005.

SECTION 5 - SUPPLEMENTAL SERVICES (CONT'D.)

5.4 Critical Facilities Administration Service, (Cont'd.)¹

5.4.3 Eligibility Criteria

- A. Customers are required to specifically subscribe to CFA Service by identifying, in writing, the Qualified Circuits that the Customer seeks to enroll in the CFA Service. Those Qualified Circuits shall be called "Subscribing Circuits".
- B. All Subscribing Circuits must be enrolled in the federal Telecommunications Service Priority Program and Customers must demonstrate the sponsorship of a federal agency supporting the designation of those circuits as qualifying under the federal Telecommunications Service Priority Program. A Subscribing Circuit no longer enrolled in the Telecommunications Service Priority Program will no longer be eligible for CFA Service.
- C. The Customer must agree to treat any data provided to the Customer under the CFA Service as confidential data pursuant to the Company's standard confidentiality procedures or as set forth in the service agreement between the Customer and the Company.

¹ Filed in compliance with the Order Directing Filings Concerning Critical Facilities Administration and Telecommunications Service Priority Services and Requesting Public Comment on this National Security Program issued by the New York Public Service Commission in Case 03-C-0922 dated June 15, 2005.

5.4 Critical Facilities Administration Service, (Cont'd.)¹

5.4.4 Availability

- A. The Company shall store CFA Service information on a secure online database, on CD-ROMs, or in hard copy. Customers subscribing to the CFA Service will be permitted to access information on the physical path of Subscribing Circuits on a twenty-four (24) hour, seven (7) day a week basis, where practicable, subject to appropriate authentication and authorization.
- B. Physical path information will be provided to Customers subscribing to the CFA Service by reference to the latitude and longitude (determined using Global Positioning System equipment) coordinates of suitable points along the path of the Subscribing Circuit (e.g., cable entrances to buildings, manholes, riser poles, crossboxes, carrier equipment cabinets, and other circuit access points in the outside plant of the carrier) so as to allow the Customer to ascertain with a reasonable degree of accuracy the actual physical path of each subscribing Circuit.
- C. The Company will provide physical path information regarding Subscribing Circuits to the Customer in accordance with the following guidelines:
 - 1. within five (5) business days after a newly provisioned Subscribing Circuit is installed;
 - 2. within fifteen (15) business days for an existing, in-place Subscribing Circuit.

¹ Filed in compliance with the Order Directing Filings Concerning Critical Facilities Administration and Telecommunications Service Priority Services and Requesting Public Comment on this National Security Program issued by the New York Public Service Commission in Case 03-C-0922 dated June 15, 2005.

SECTION 5 - SUPPLEMENTAL SERVICES (CONT'D.)

5.4 Critical Facilities Administration Service, (Cont'd.)¹

5.4.4 Availability, (Cont'd.)

- D. The Company will notify the Customer of any planned moves, changes, or rearrangements that may affect the physical path of a Subscribing Circuit at least twenty-four (24) hours in advance, if practicable. Any information related to a move, change, or rearrangement that is a result of unplanned activity will be provided to the Customer within twenty-four (24) hours of such move, change, or rearrangement.
- E. The Company will provide updated information regarding the revised physical path of Subscribing Circuits to the Customer within five (5) business days for planned actions, and within fifteen (15) business days for unplanned actions.
- F. In the event of a major telephone outage, provision of CFA Service will be suspended. The Company will provide, within ninety (90) days of restoration of service, current physical path information for a Subscribing Circuit to the Customer once service is restored and physical path information is developed

SECTION 6 - BUSINESS SERVICES

The rates provided in Section 6 apply to Customers that are currently in a Service Term agreement with the Company. All Customers being provided Month to Month services through an expired service term with the Company will find the rates for their specific out of contract services in Section 18 - Non-Term Rates.

6.1 General

6.1.1 Business Network Switched Service provide a business customer with a connection to the Company's switching network which enables the customer to:

- A. receive calls from other stations on the public switched telephone network;
- B. access the Company's local calling service;
- C. access the Company's operators and business office for service related assistance; access toll-free telecommunications service such as 800 NPA; and access 911 service for emergency calling; and
- D. access the service of providers of interexchange service. A customer may presubscribe to such provider's service to originate calls on a direct dialed basis or to receive 800 service from such provider, or may access a provider on an ad hoc basis by dialing the provider's Carrier Identification Code (10XXX).

Business Network Switched Service is provided via one or more channels terminated at the customer's premises. Each Business Network Switched Service channel corresponds to one or more analog, voice-grade telephonic communications channels that can be used to place or receive one call at a time.

Connection charges as described in Section 2 apply to all service on a one-time basis unless waived pursuant to this Service Guide.

6.2.2 NetServe Business Line

A. General

NetServe Business Line is provided via two or more channels terminated at the Customer's premises. Each NetServe Business Line channel corresponds to one or more analog, voice-grade telephonic communications channels that can be used to place or receive one call at a time.

NetServe Business Line enables the Customer to:

1. originate and receive calls from other stations on the public switched telephone network;
2. access the Company's local calling service;
3. access the Company's operators and business office for service related assistance; access toll-free telecommunications service such as 800 NPA; and access 911 service for emergency calling; and

6.2 Service Descriptions and Rates, (Cont'd.)

6.2.2 NetServe Business Line, (Cont'd.)

B. Rate Structure

NetServe Business Line service provides for calling within the local service area on a per minute basis. Flat rate local service is available via ICB only.

Accumulation of local usage time is done on a initial 3 minute call, with remaining usage billed in 1 minute increments.

The local service area* for NetServe Business Line service Customers is the area within which measured service Customers make calls on a per minute basis and may include one or more exchanges or zones.

C. Touch Tone Calling

Touch tone calling, which is furnished subject to the availability of the central office facilities, allows calls to be originated from instruments equipped for tone-type address signaling over special central office facilities.

Telephones equipped for tone-type calling service can only be associated with, or have access to, lines equipped for this service.

Touch tone calling is included with NetServe Business Line.

D. Line Hunting

Line hunting, which is provided subject to the availability of suitable central office facilities is an arrangement that groups together two or more main telephone exchange lines from the same central office so that incoming calls are automatically switched from the initial line, if in use, to the first non-busy line.

Line hunting is furnished with On-Net telephone exchange service only.

E. Pay-Per-Call Service Blocking

NetServe Business Line cannot be used to originate calls to Pay-Per-Call services (e.g.: 900 and 976). Calls to those numbers and other numbers used for caller paid information services will be blocked by the Company unless a written request to remove blocking is attached to the Service Agreement.

F. Exchange Classifications

Business service is provided to each exchange on a measured basis and provides for calling within the local calling area and within municipalities on per minute basis as specified in Verizon New York, Inc.'s PSC NY No. 2 - Communications.

G. Trunk Lines

Trunk lines provided on a measured service basis equate to the single party measured NetServe Business Line monthly rate.

H. Payment Plans

The NetServe Business Line payment plan offers the Customer two options for payment.

1. Fixed Monthly Rate Plan

Under this plan the Customer pays a fixed monthly rate for a specified contract term. The Customer may choose a 1, 2, 3 or 5 year contract. During the course of the contract, fixed rates (recurring and non-recurring) are not subject to Company initiated rate changes.

2. Month-to-Month Plan

Under this plan the Customer elects to pay month-to-month. Month-to-month rates (recurring and non-recurring) are subject to Company initiated rate changes.

I. Measured Business Exchange Service

Measured service provides for calling within the local calling area and within municipalities on a per message, per minute basis. Monthly rates consist of the appropriate dial tone live rate and local usage charges.

M. NetServe DPA Service

NetServe DPA Service provides a Business Customer with a telephone located in a different office or building from the main telephone system. The service is connected to the main system via a dedicated line. All capabilities of the main system are available with DPA service.

Each line must be in the same rate center.

Service is provided on a measured rate basis.

N. Remote Call Forwarding (RCF)

Remote Call Forwarding (RCF) provides for all incoming calls to be call forwarded to a terminating telephone number in the same or another exchange. This service is available only in exchanges served by suitably equipped electronic (ESS) central offices, to the extent facilities are available. Service is available on a measured service basis. Service is available on a flat rate basis via ICB only. Additional RCF paths can be purchased separately.

The terminating telephone service may be local exchange service, toll free service, foreign exchange service or an additional number associated with Distinctive Ringing service.

This service is furnished upon condition that the Customer subscribed to adequate RCF or terminating facilities to permit the use of the service without impairment, disruption or deterioration of the quality of other telephone services.

A. Description

Netflex T-1 Service With DID ("Netflex"), offered on a measured basis, provides a digital path from a suitably equipped central office to a Customer's digital PBX, allowing access to and from the exchange and toll network via exchange trunk lines, and other network access lines, including DID capability.

A 1.544 Mbps transmission channel providing two-way transmission for a capacity of up to 24 trunk connections connects a Customer's premises with the switched public telephone network.

Outbound Caller ID and Call Forward on Trunks are available and may be purchased for an additional charge, where facilities permit.

Netflex is furnished subject to the availability of facilities.

6.2.7 Integrated T-1

A. Description

An Integrated T-1 is a service provided over a T-1. It enhances the capabilities of a basic digital trunk facility by allowing Customers to control the individual channels of the T1 pipe. The channels of the pipe may be used as a voice grade product and up to 768 Kbps bandwidth for data transmission, depending on the Customers equipment and needs. Integrated service can be analog or digital depending upon the Customer's needs. Digital service can also accommodate Direct Inward Dialing service as well as Outbound Caller ID and Call Forward on Trunks for an additional fee.

The Integrated T-1 may be divided up between voice grade products and bandwidth, although bandwidth cannot exceed 768 Kbps. An example of the divide would be 12 voice grade lines and 768 Kbps of high-speed bandwidth.

Integrated T-1 is offered to On-Net Customers only subject to the availability of facilities.

An End User Common Line (EUCL) or Preferred Interexchange Carrier Charge (PICC) do not apply to this service.

6.2.7 Integrated T-1, (Cont'd.)

A. Description, (Cont'd.)

1. Standard Solution**

Bundled voice and data over a single connection where the Customer chooses the bandwidth requirement up to 768 Kbps. The Customer pays a Monthly Recurring Charge plus the bandwidth charge as specified in Section 6.2.7.B, regardless of the number of lines used. Customers may choose a 1, 2 or 3 year contract for analog and digital service.

2. Flexible Solution

Bundled voice and data over a single connection where the Customer may choose both the line and bandwidth requirements, with a minimum requirement of 256Kbps bandwidth and 8 voice lines. The Customer can add lines and bandwidth as needed up to a maximum of 20 voice lines depending on data requirements. Pricing consists of monthly charges per voice line plus the bandwidth charge. Customers may choose a 1, 2 or 3 year contract.

6.2.8 Integrated ISDN PRI

A. Description

Integrated ISDN PRI service is provided over a T-1. It enhances the capabilities of a basic digital trunk facility by allowing Customers to control the individual channels of the T-1 pipe. The channels of the pipe may be used as a voice grade product with up to 768 kbps bandwidth for data transmission, depending on the Customer's equipment and needs.

Integrated T-1 is offered in a 23 channel format only with a maximum of 768 kbps bandwidth. The Customer pays a monthly recurring charge plus the bandwidth charge as specified in Section 6.2.8.B of this service guide, regardless of the number of channels used. Customers may choose 1, 2, or 3 year contracts.

Integrated T-1 is offered to On-Net Customers only and is subject to facility availability.

Outbound Caller ID and Inbound Caller ID Number Only are included free of charge with this service.

Inbound Caller ID Name and Number, Direct Inward Dialing and Call Forward on Trunks are available for an additional fee.

An End Use Common Line (EUCL) charge of Preferred Interexchange Carrier Charge (PICC) do not apply to this service.

6.2.9 Custom Calling Features

The features in this section are available to Customers on an individual basis month-to-month or as part of multiple feature packages. Multiple feature packages are described with services with which they are available. All features are provided subject to availability or facilities. Certain features may not be available with all classes of service.

A. Feature Descriptions

Auto Call Back: Automatically re-dials the last caller.

Auto Re-Call: Automatically dials a busy number for up to 30 minutes until it's available.

Call Block: Allows the Subscriber to block different types of outgoing calls (e.g., any blocking option except 900/976 blocking, which is automatically provisioned and free of charge).

Call Forward Variable: Allows the Subscriber to forward all incoming calls to a predetermined telephone number.

Call Forward Busy/No Answer: Allows the subscriber to forward incoming calls to a predetermined number when the phone is busy or when the Subscriber does not answer within a predetermined number of rings.

Call Trace: Will trace a "prank" or threatening call, and record the call detail, including the Subscriber's number and the number of the caller. This information is for law enforcement use only.

Call Transfer Deluxe: Allows users to transfer calls.

6.2.9 Custom Calling Features, (Cont'd.)

A. Feature Descriptions, (Cont'd.)

Call Waiting: Signals the Subscriber that there is an incoming call when they are busy talking on the phone.

Caller ID: Displays the calling party number on incoming calls.

Caller ID with Name: Displays the calling party name and number on incoming calls.

Deny Termination: Incoming calls from up to 10 different telephone numbers will be blocked and not allowed to terminate to or ring the Subscriber's line.

Distinctive Ringing: Incoming calls from up to 6 different telephone numbers will result in a different ringing pattern on the subscriber's line.

Remote Activation of Call Forward Variable: Provides the Subscriber remote accessibility to the call forward feature. Call in from any telephone to activate, deactivate, or change the forward to number.

Ring Mate: Allows the subscriber to have up to 3 different telephone numbers associated with their line. Calls placed to each telephone number will result in a different ring pattern on the Subscriber's line.

Selective Call Acceptance: Allows the Subscriber to determine (and manage) which incoming calls will be accepted, based on the calling party telephone numbers that have been entered in a screening list (in the Conversent switch). Only calls from the telephone numbers that match a number in the screening list will be allowed to complete. Calls that are not accepted will be sent to an announcement, or may be forwarded to an alternate number.

6.2.9 Custom Calling Features, (Cont'd.)

A. Feature Descriptions, (Cont'd.)

Selective Call Forwarding: Allows the Subscriber to determine (and manage) which incoming calls will be forwarded to which predetermined telephone number, based on the calling party telephone numbers that have been entered in a list (in the Conversent switch).

Selective Call Rejection: Allows the Subscriber to determine (and manage) which incoming calls will be blocked, based on the calling party telephone numbers that have been entered in a screening list (in the Conversent switch).

Selective Distinctive Ring: Allows the Subscriber to determine (and manage) which incoming calls will receive a distinctive ringing pattern, based on the calling party telephone numbers that have been entered in a screening list (in the Conversent switch).

Speed Dialing: Allows the Subscriber to program and use an "abbreviated code" or "shortcut" for quick dialing. Instead of using the persons 7 or 10 digit telephone number, the subscriber can use the 1 or 2-digit code.

Three-Way Calling: Enables the Subscriber to add a third party to an existing conversation.

Caller Identification Blocking *: Allows the name and number of the calling party to be blocked from being transmitted when placing outbound calls.

Per Call Blocking *: To activate per-call blocking, a Customer dials a special code prior to placing a call. Blocking will be activated for that outgoing call only. There is no charge for using per call blocking, and it is provided on an unlimited basis.

Per Line Blocking *: When blocking is established on the line, it can be deactivated by dialing a code before each call. This one call unblock allows the name and/or number to be sent for that one call only.

* - Caller ID Blocking is deactivated for calls to 311 or 911 in the New York exchange only.

SECTION 6 - BUSINESS SERVICES (CONT'D.)

6.2 Service Descriptions and Rates, (Cont'd.)

6.2.10 RealBusiness Integrated DSL

A. Description

RealBusiness Integrated DSL is an integrated voice and ADSL Internet service bundled over a single twisted pair. RealBusiness Integrated DSL uses Asynchronous Transfer Mode (ATM) with voice compression and dynamic bandwidth allocation in providing service for two (2) to four (4) Business Lines over a single pair with voice always taking precedence over Internet traffic. ADSL speeds will be up to 1.5 Mbps downstream and 512 kbps upstream. Bandwidth is dynamically allocated and will be reduced from 80 kbps to 1.2 Mbps downstream and 80 kbps to 192 kbps upstream depending on the number of Business Lines that are simultaneously off-hook.

Service is offered as a bundled DSL, local exchange and long distance service. RealBusiness DSL is not available as a stand-alone service.

1. Service is offered for a minimum of two (2) and maximum of four (4) lines provisioned with voice and ADSL service. A fifth Business Line is available as a voice only line.
2. Subscribers must presubscribe to Conversent for intrastate, interstate and international service.
3. Local exchange calls are billed in the standard one (1) minute billing increments after an initial period of three (3) minutes, intraLATA calls in the standard one (1) second increments after an initial period of thirty (30) seconds and interLATA calls in the standard six (6) second increments.
4. Service is offered on a term basis with term periods of one (1), two (2) and three (3) years.

6.2 Service Descriptions and Rates, (Cont'd.)

6.2.10 RealBusiness Integrated DSL, (Cont'd.)

B. Terms and Conditions, (cont'd.)

5. Subscribers must maintain a minimum of two (2) Business Lines throughout the duration of the term agreement. The standard early termination charge will apply to Subscribers who fall below the minimum.
6. RealBusiness Integrated DSL is available only to On-Net Subscribers served directly from a Conversent collocation.

C. Limitations

The Company may, at its sole discretion, deliver the local exchange telecommunications services described herein over any technically viable platform, including, but not limited to, DSL.

The Company will not provision service if the Company has reasonably determined that (a) it is not technically feasible to provide over existing facilities or (b) it will cause interference problems within the Company's network or other facilities or with the network or facilities of any other party.

During network maintenance and software update periods, it may be necessary to temporarily place the Company's equipment out of service. The Company reserves the right to temporarily interrupt service during such periods and at other times such as those considered by the Company to be an emergency; however, the Company will make good faith efforts to avoid and minimize such temporary interruptions.

If the Company has reason to believe that permitting the commencement or continuation of a service adversely affects or would adversely affect the ability of the Company or another carrier to provide, complete, or maintain the level of or quality of its services to its Customers, the Company may refuse to provide service or may discontinue providing such service.

SECTION 6 - BUSINESS SERVICES (CONT'D.)

6.2 Service Descriptions and Rates, (Cont'd.)

6.2.10 RealBusiness Integrated DSL, (Cont'd.)

C. Limitations, (Cont'd.)

The Company will not provision service on facilities that are determined by the Company to be unsuitable. Facilities-based service may not be available to the Customer, or the Customer may not have the selection of all of the Company's facilities-based offerings, depending on the distance of the Customer from the serving CO and the type and condition of the facilities.

DSL service will be provided subject to the availability and limitations of the wire centers and outside plant facilities and is only available where technical capabilities permit. The actual data transmission rate, and, therefore, a circuit's ability to accommodate multiple voice lines, depends on a number of factors, including, but not limited to (1) the distance from the Customer to the serving wire center, (2) the type of copper facility (wire gauge) and (3) the physical plant. Additionally, unlike many conventional telecommunications technologies, DSL requires that suitable electrical power be supplied at the Customer's premises for the service to be functional. The Company is not responsible for service outage credits or other liabilities of any nature due to electrical power failure at the Customer's location(s).

6.2.11 RealBusiness Sense Integrated DSL

A. Description

RealBusiness Sense Integrated DSL is an integrated voice and ADSL Internet service bundled over a single twisted pair. RealBusiness Sense Integrated DSL uses Asynchronous Transfer Mode (ATM) with voice compression and dynamic bandwidth allocation in providing service for two (2) to four (4) Business Lines over a single pair with voice always taking precedence over Internet traffic. ADSL speeds will be up to 1.5 Mbps downstream and 512 kbps upstream. Bandwidth is dynamically allocated and will be reduced from 80 kbps to 1.2 Mbps downstream and 80 kbps to 192 kbps upstream depending on the number of Business Lines that are simultaneously off-hook.

Service is offered as a bundled DSL, local exchange and long distance service. RealBusiness Sense DSL is not available as a stand-alone service.

Customers have the option of selecting a Call Plan that includes unlimited local, unlimited local and outbound intraLATA toll or unlimited local and outbound intraLATA, interLATA and interstate toll service for a flat monthly rate. Customers who opt for a Call Plan that does not include unlimited intraLATA, interLATA or interstate service will be billed for those services on a usage basis.

Inbound toll free calling is available on a usage basis.

Calling features are available as a package or may be purchased a la carte at standard tariffed rates.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 7 - PUBLIC TELEPHONE SERVICES

The rates provided in Section 7 apply to Customers that are currently in a Service Term agreement with the Company. All Customers being provided Month to Month services through an expired service term with the Company will find the rates for their specific out of contract services in Section 18 - Non-Term Rates.

7.1 General

Public Telephone Services provide a Payphone Provider (PP) with a connection to the Company's switching network for the purpose of accessing measured services and features provided by the Company on Federal Communications Commission (FCC) registered Customer-owned Coin Operated Telephones (COCOTs) and Customer-owned coinless telephones.

7.2 Public Access Line (PAL) Service

7.2.1 General

PAL, which is for use with Customer Owned Coin Operated/Coinless Telephones (COCOT), is a class of main telephone exchange service offered to business Customers for use by the general public or the combined use of the Customer and his patrons. PAL is provided from the Company's central office up to and including the network interface located at the Customer's premises or other Customer arranged location and is provided only where suitable central office facilities are available.

7.2.2 Regulations

1. Customers with PAL are subject to all service guide regulations which apply to Customers with one-party business service.
2. The Customer is responsible for all rates and charges originating from or accepted at this service.
3. The Customer must conform to any applicable rules and regulations established by the New York D.T.E. which include the following: all customer owned coin operated/coinless telephones must have access to Directory Assistance service (411), Universal Emergency Number service (911) where offered, and be clearly marked as to ownership.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 7 - PUBLIC TELEPHONE SERVICES (CONT'D.)

7.2 Public Access Line (PAL) Service, (Cont'd.)

7.2.3 Application of Rates and Charges

- A. PAL rates and charges apply to the payphone and are as for one-party measured business main telephone exchange service in the exchange of connection. In addition, a monthly rate for intraLATA directory assistance service also applies, except when PAL service is provided at a city, county, state, federal or other correctional institution and the PAL Customer notifies the Company in writing that it is precluded by the institution from making directory assistance service available from the COCOT for which the PAL service is provided.
- B. For business Customer with two or more PAL service lines, regulations as specified in Section 4 apply as well as in Bell Atlantic B New York Tariff No. 901, Part A, Section 5.1.4.D. The Company reserves the right to issue a single bill for multiple payphones belonging to an individual Customer.
- C. Local usage is charged for as specified in Section 4 for the exchange of connection.
- D. Charges for directory assistance service and for MTS apply to calls originated from PAL.
- E. Local service calls placed to a telephone relay service are provided without charge

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 7 - PUBLIC TELEPHONE SERVICES (CONT'D.)

7.2 Public Access Line (PAL) Service, (Cont'd.)

7.2.4 PAL Credit

- A. To qualify for the PAL credit, each COCOT provider must be certified by the N.Y. DPS. The PAL must be connected to a COCOT telephone reasonable accessible to the customers or patrons of the location owner or to the general public, and used primarily for the purpose of vending payphone service to such end users. The location of each PAL must conform to any commission rules or regulations pertinent to certification.
- B. The certified PAL is eligible for credit when the amount billed for telephone service during a billing period, including the charges for the PAL service line, touch tone, Curb A Charge service, directory assistance, sent-paid local and intraLATA toll usage, plus non sent-paid local and intraLATA toll usage during an associated calendar month exceeds \$75.00
- C. The credit amount is a fixed percentage of the amount billed for the PAL service line, touch tone, Curb A Charge service, sent-paid local and intraLATA toll usage, non sent-paid local and intraLATA toll usage, and directory assistance charges. Taxes, the End User Common Line charge and any charges for services provided under any other tariffs are excluded from the calculation of the credit.

SECTION 8 - SPECIAL SERVICES AND PROGRAMS

- 8.1 Special Equipment for the Hearing or Speech Impaired Customer
- 8.1.1 As required by Section 92-a of New York State Public Service Law, the Company will provide, upon request, specialized telecommunications equipment for a customer certified as hearing or speech impaired.
 - 8.1.2 A customer can be certified as hearing or speech impaired by a licensed physician, otolaryngologist, speech-language pathologist, audiologist or an authorized representative of a social agency that conducts programs for persons with hearing or speech impairments in cooperation with an official agency of the State of New York.
 - 8.1.3 The Company will make every reasonable effort to locate and obtain equipment for a certified customer.
 - 8.1.4 The customer may purchase equipment at a price not to exceed the actual purchase price (including any applicable shipping costs) the Company pays.
 - 8.1.5 The Company will also advise the customer who requests this equipment of the applicable terms for purchase.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 8 - SPECIAL SERVICES AND PROGRAMS (CONT'D.)

8.2 Discounted Service for the Hearing or Speech Impaired Customer

8.2.1 General

A handicapped person who has been certified to the Company as having a hearing or speech impairment which requires that he or she communicate over telephone facilities by means other than voice, and who either use non-voice equipment or make calls through an interpreter, will receive, upon application to the Company, a 50% discount on local message rate service.

8.2.2 Certification

Acceptable certifications are:

1. Those made by a licensed physician, otolaryngologist, speech-language pathologist or audiologist or an authorized representative of a social agency that conducts programs for persons with hearing or speech impairment in cooperation with an official agency of the State of New York, or
2. A pre-existing certification establishing the impairment of hearing or speech such as those which qualify the handicapped person for social security benefits on the basis of total hearing impairment or for the use of facilities of an agency for a person with hearing or speech impairment.

8.2.3 Qualification

A customer qualifying for the discount is one whose impairment is such that competent authority would certify him or her as being unable to use a telephone for voice communication.

8.2.4 Billing

The reduction in charges is applied only at one location, designated by the impaired person.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 8 - SPECIAL SERVICES AND PROGRAMS (CONT'D.)

8.3 Universal Emergency Telephone Number Service

Universal Emergency Telephone Number Service (911 Service) is an arrangement of Company central office and trunking facilities whereby any telephone user who dials the number 911 will reach the emergency report center for the telephone from which the number is dialed or will be routed to an operator if all lines to an emergency report center are busy. If no emergency report center customer exists for a central office entity, a telephone user who dials the number 911 will be routed to an operator. The telephone user who dials the 911 number will not be charged for the call.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 8 - SPECIAL SERVICES AND PROGRAMS (CONT'D.)

8.4 New York Relay Service

8.4.1 General

The Company will provide access to a telephone relay center for New York Relay Service. The service permits telephone communications between hearing and/or speech impaired individuals who must use a Telecommunications Device for the Deaf (TDD) or a Teletypewriter (TTY) and individuals with normal hearing and speech. The Relay Service can be reached by dialing an 800 number. Specific 800 numbers have been designated for both impaired and non-impaired customers to use.

8.4.2 Regulations

- A. Only intrastate calls can be completed using the New York Relay Service under the terms and conditions of this service guide.
- B. Charges for calls placed through the Relay Service will be billed as if direct distance dialed (DDD) from the point of origination to the point of termination. The actual routing of the call does not affect billing.
- C. Calls through the Relay Service may be billed to a third number only if that number is within New York State. Calls may also be billed to calling cards issued by other carriers who may choose to participate in this service.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 8 - SPECIAL SERVICES AND PROGRAMS (CONT'D.)

8.4 New York Relay Service, (Cont'd.)

8.4.2 Regulations, (Cont'd.)

D. The following calls may not be placed through the Relay Service:

1. calls to informational recordings and group bridging service;
2. calls to time or weather recorded messages;
3. station sent paid calls from coin telephones; and
4. operator-handled conference service and other teleconference calls.

8.4.3 Liability

The Company contracts with an outside provider for the provision of this service. The outside provider has complete control over the provision of the service except for the facilities provided directly by the Company. In addition to other provisions of this Service Guide dealing with liability, in the absence of gross negligence or willful misconduct on the part of the Company, the Company shall not be liable for and the customer, by using the service, agrees to release, defend and hold harmless for all damages, whether direct, incidental or consequential, whether suffered, made, instituted or asserted by the customer or by any other person, for any loss or destruction of any property, whatsoever whether covered by the customer or others, or for any personal injury to or death of, any person. Notwithstanding any provision to the contrary, in no event shall the Company be liable for any special, incidental, consequential, exemplary or punitive damages of any nature whatsoever.

SECTION 8 - SPECIAL SERVICES AND PROGRAMS (CONT'D.)

8.5 Special Credit Card for Blind and Disabled Persons

8.5.1 General

Persons who are blind or whose disability causes difficult with hand and finger coordination and use of a telephone qualify for a Special Credit Card. The card may be used from any telephone within the Company's territory to place calls within and outside the state of New York at a special rate or to place calls from a telephone outside of the Company's territory, but within the state of New York at rates applicable to the territory from which the call is made.

8.5.2 Rates

Within the Company's Territory:

Station to station toll calls placed with operator assistance will be billed at the lower rate normally applicable to calls placed without operator assistance. Local calls cannot be charged to the card. Person-to-person calls charged to the card with be billed at the higher operator handled rate.

Outside the Company's Territory, but within New York State:

All rates, charges, billing and restriction in effect in the territory from which the call is made will apply.

8.5 Special Credit Card for Blind and Disabled Persons, (Cont'd.)

8.5.3 Qualification

The follow criteria will be used to determine eligibility for the Special Credit Card:

- A. "Legally Blind" - those whose visual acuity is 20/200 or less in the better eye with correcting glasses or whose widest diameter of visual field subtends an angular distance no greater than 20 degrees.
- B. "Physically Handicapped" - those who are certified by competent authority as unable to read or use ordinary printed materials as result of physical limitations.
- C. Persons whose disabling condition causes difficulty with hand and finger coordination and utilization of a coin or non-coin telephone. Acceptable certifications are those made by a licensed physician, ophthalmologist or optometrist.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 8 - SPECIAL SERVICES AND PROGRAMS (CONT'D.)

8.5 Special Credit Card for Blind and Disabled Persons, (Cont'd.)

8.5.4 Billing Authorization

Responsibility for payment of charges may be handled in one of two ways:

- A. The handicapped person (the applicant) may accept responsibility for payment of his or her own bill. In this case, the applicant must be 18 years of age or older and must reside within the Company's service territory, but he or she does not need to have other service from the Company.
- B. Another party may agree to accept responsibility for payment of charges incurred through use of the Special Credit Card by the applicant. When this option is chosen, the person accepting this responsibility must be 18 years of age or older, but does not need to reside within the Company's service territory.

In either case, the applicant is the only authorized user of the Special Credit Card. If the person accepting payment responsibility has service within the Company's service territory, charges will be billed on a regular monthly bill; otherwise a separate bill will be sent.

9.3 Busy Line Verification and Interrupt Service

9.3.1 General

Busy Line Verification and Busy Line Verification with Interrupt are furnished for Customers requesting line status verification or interruption of a specific exchange access line. Service is provided where and to the extent that facilities permit.

- Busy Line Verification: Upon request of the calling party, the Company will determine if the line is clear or "in use" and report to the calling party.
- Busy Line Verification with Interrupt: The Operator will interrupt the call on the called line only if the calling party indicates an emergency and requests interruption.

9.3.2 Responsibility of the Customer

The Customer shall indemnify and save the Company harmless against all claims that may arise from either party to the interrupted call.

9.3.3 Application of Rates and Charges

- A. Rates for Busy Line Verification and Interrupt Service, as specified below, will apply under the following circumstances:
 1. The operator verifies that the line is busy with a call in progress.
 2. The operator verifies that the line is available for incoming calls.
 3. The operator verifies that the called number is busy with a call in progress and the Customer requests interruption. The operator will then interrupt the call, advising the called party the name of the calling party.

9.4 Directory Assistance Service

9.4.1 General

A customer may obtain assistance, for a charge, in determining a telephone number by dialing Directory Assistance Service. A customer can also receive assistance by writing the Company with a list of names and addresses for which telephone numbers are desired.

9.4.2 Regulations

A Directory Assistance Charge applies for each telephone number, area code, and/or general information requested from the Directory Assistance operator except as follows:

- A. Calls from coin telephones, including COCOTS.
- B. Requests for telephone numbers of non-published service.
- C. Requests in which the Directory Assistance operator provides an incorrect number. The customer must inform the Company of the error in order to receive credit.
- D. Requests from individuals with certified visual or physical handicaps in which the handicap prevents the use of a local directory. Individuals must be certified in accordance with the terms outlined under "Handicapped Person" in Section 8 of this Service Guide, up to a maximum of 50 requests per month.

9.4.3 Rates and Charges

Unless one of the exceptions listed above applies, the charges in the Price List apply for each request made to the Directory Assistance operator:

9.5 Operator Call Completion Service

9.5.1 General

This service provides Customers who have received a requested intraLATA telephone number from directory assistance service, the option of having an intraLATA call dialed and completed to that requested telephone number, where suitable facilities exist.

Operator Call Completion is available with all telephone numbers in the company's directory assistance service data base except the following numbers:

InterLATA numbers
700, 800/888 toll free numbers and 900 numbers
976 Central Office Code
Nonpublished service numbers

For Customers requesting more than one directory assistance number, the Operator Call Completion option is available only to the last telephone number requested.

9.5.2 Application of Rates and Charges

The charge for Operator Call Completion is in addition to the applicable direct dialed or operator assisted directory assistance service rates, local usage charges, Message Telecommunications Service (MTS) rates, and calling card, travel card, collect and bill to third number incremental charges.

The charge for Operator Call Completion applies for each call dialed and completed for the Customer except when the calling party is identified as being handicapped and unable to dial the call because of the handicap.

SECTION 10 - CENTREX SERVICES**

*** Services in this Section are grandfathered and available to existing Customers at existing locations only. Services are not available for new installations.*

The rates provided in Section 10 apply to Customers that are currently in a Service Term agreement with the Company. All Customers being provided Month to Month services through an expired service term with the Company will find the rates for their specific out of contract services in Section 18 - Non-Term Rates.

10.1 NetServe Centrex

10.1.1 Description

NetServe Centrex is a Centrex service that provides the Customer with multiple individual voice upgrade telephone communications channels, each of which can be used to place or receive one call at a time. NetServe Centrex Station Lines are provided for connection of Centrex-compatible, Customer-provided station sets to the public switched telecommunications network.

NetServe Centrex Service is available to Off-Net Customers on an individual Contract basis (ICB) only.

10.1.2 General Regulations

A. NetServe Centrex is provided in combination with other Company-provided services.

B. Station Line Charges

NetServe Centrex Station Lines are charged on a monthly basis.

C. Usage Charges

Measured service rates in Section 6 apply.

D. Service includes Touch Tone capability.

E. Pay-Per-Call Service Blocking

Basic Exchange Service cannot be used to originate calls to Pay-Per-Call services (e.g., 900 and 976). Calls to those numbers and other numbers used for caller paid information services will be blocked by the Company unless a written request to remove blocking is attached to the Service Order.-

10.1.3 System Features

A. Standard System Features

The following call processing features are standard in NetServe Centrex and are provided under control of the common equipment of the central office switching system.

Touch Tone: Provides for the origination of calls by means of instruments equipped for tone-type address signaling over special central office facilities.

Full Network Access (Squared System): There is no pre-defined limit on the number of exchange access or intercom calls active at any one time.

Free Calling within Group

Direct Inward Dialing: Arrangement which allows an incoming call to reach a CES station without attendant assistance.

Individual Dialing Plan: Provides the ability to interpret dialed digits according to Customer specific dialing sequences.

Intercom Dialing: Permits the customer to dial an access code to reach another CES station without having to dial 7 digits.

Full, Semi, Un-restricted Station Capability

Fully Restricted: Allows only station-to-station (intercom) calling capabilities.

Semi-Restricted: Allows access to the exchange network only for local calling.

Unrestricted: Allows access to the exchange network, the toll network or any service accessible by dialing.

A. Standard System Features, (Cont'd.)

Access Treatment Screening: Stations can be individually allowed or disallowed access to system features.

Attendant Capabilities: Attendants may be designated to handle incoming, internal, and other call types with various special telephone consoles.

Centralized Attendant Services: For multi-location customers, the attendants can be located in only one location.

Flexible Night Service: Provides the ability to forward each listed directory number to a unique customer changeable night directory number.

Call Forwarding Variable: Allows a station line to have incoming calls forwarded to another line within the system or to telephone numbers outside the system.

Call Forwarding Busy: Allows for the automatic routing of incoming calls to a preselected station line when the called station line is busy.

Call Forwarding No Answer: Allows for the automatic routing of incoming calls to a preselected station line when the called telephone does not answer within a predetermined number of rings.

Call Waiting/Cancel Call Waiting: Provides a tone signal to indicate to a user already engaged in a telephone call that a second caller is attempting to dial in. Cancel Call Waiting allows for disabling of Call Waiting for the duration of an outgoing telephone call.

3-Way Conference Calling: Allows the station user to place an existing call on hold and dial the telephone number of a third-party, and then connect all parties.

10.2.4 Integrated DSL Option

A. Description

Integrated DSL, an integrated voice and ADSL Internet service bundled over a single twisted pair, is available as an option. Integrated DSL uses Asynchronous Transfer Mode (ATM) with voice compression and dynamic bandwidth allocation in providing service over a single pair with voice always taking precedence over Internet traffic. ADSL speeds will be up to 1.5 Mbps downstream and 512 kbps upstream. Bandwidth is dynamically allocated and will be reduced from 80 kbps to 1.2 Mbps downstream and 80 kbps to 192 kbps upstream depending on the number of Business Lines that are simultaneously off-hook.

B. Terms and Conditions

Subscribers must maintain a minimum of two (2) Centrex Lines throughout the duration of the term agreement. The standard early termination charge will apply to Subscribers who fall below the minimum.

C. Limitations

SECTION 10 - CENTREX SERVICES (CONT'D.)

10.4 RealBusiness Integrated DSL with Centrex

10.4.1 Description

RealBusiness Integrated DSL with Centrex is an integrated voice and ADSL Internet service bundled over a single twisted pair. RealBusiness Integrated DSL uses Asynchronous Transfer Mode (ATM) with voice compression and dynamic bandwidth allocation in providing service over a single pair with voice always taking precedence over Internet traffic. ADSL speeds will be up to 1.5 Mbps downstream and 512 kbps upstream. Bandwidth is dynamically allocated and will be reduced from 80 kbps to 1.2 Mbps downstream and 80 kbps to 192 kbps upstream depending on the number of Business Lines that are simultaneously off-hook.

Service is offered as a bundled DSL, local exchange and long distance service via Centrex controlled lines.

10.4.2 Terms and Conditions

- A. Subscribers must presubscribe to Conversent for intrastate, interstate and international service.
- B. Local exchange calls are billed in the standard six (6) second billing increments, intraLATA calls in the standard one (1) second increments after an initial period of thirty (30) seconds and interLATA calls in the standard six (6) second increments.
- C. Service is offered on a term basis with term periods of one (1), two (2) and three (3) years.
- D. Subscribers must maintain a minimum of two (2) Centrex lines throughout the duration of the term agreement. The standard early termination charge will apply to Subscribers who fall below the minimum.
- E. RealBusiness Integrated DSL with Centrex is available only to On-Net Subscribers served directly from a Conversent collocation.

All Customers being provided Month to Month services through an expired service term with the Company will find the rates for their specific out of contract services in Section 18 - Non-Term Rates.

15.1 Conversent Communications of New York, LLC Features

15.1.1 Conversent Communications of New York, LLC Analog Voice Features and Service Options

Call Forward Variable (All Calls)

Customers can forward calls to another number. Calls can be forwarded to domestic, offshore (Hawaii, Alaska, U.S. Virgin Islands, Puerto Rico, Guam and Northern Marianas), or cellular numbers. The Customer manually enters the number to which calls will be forwarded. The Customer is billed any usage charges for the forwarded call. This feature can be activated and deactivated when needed from the Customer's own phone.

Call Forwarding Remote Access

Allows the Customer to activate and deactivate Call Forward Variable from any location. Call Forwarding Remote Access will only work when paired with Call Forward Variable. This feature can be activated/deactivated when needed from the Customer's own phone.

Call Forward Busy

Customer designates the number that the line will be forwarded under the conditions of busy. Calls can be forwarded to domestic, offshore, or cellular numbers. The Customer manually enters the number to which calls will be forwarded. The Customer is billed any usage charges for the forwarded call. This feature can be activated and deactivated when needed.

Call Forward No Answer

Customer designates the number that the line will be forwarded under the conditions of no answer. Calls can be forwarded to domestic, offshore, or cellular numbers. The Customer manually enters the number to which calls will be forwarded. The Customer is billed any usage charges for the forwarded call. This feature can be activated and deactivated when needed.

15.1 Conversent Communications of New York, LLC Features (Cont'd.)

15.1.1 Conversent Communications of New York, LLC Analog Voice Features and Service Options (Cont'd.)

Call Forward Busy/No Answer

Customer designates the number that the line will be forwarded under the conditions of busy or no answer. Calls can be forwarded to domestic, offshore, or cellular numbers. The Customer manually enters the number to which calls will be forwarded. The Customer is billed any usage charges for the forwarded call. This feature can be activated and deactivated when needed.

Three-Way Calling

Allows the Customer to add a third party to an existing conversation utilizing a single line.

Call Transfer

Allows the Customer to transfer incoming calls to other destinations, internal or external. This feature also gives the Customer the ability to make three-way conference calls at no additional charge.

Call Waiting

Provides a short tone that lets the Customer know someone else is calling while they are on the phone. The first call can be put on 'hold' to allow the second call to be answered. This feature gives the Customer the ability to handle more than one call at a time.

Caller ID Number

Caller ID Number displays the originating number of an incoming call on a display unit provided by the Customer. The Company does not provide the digital display box needed to use this feature. Some numbers may not display for a variety of reasons, including:

- Calls placed through a long distance carrier
- Calls from an area where caller ID is not available
- Calls placed from cellular phones
- Calls from someone who has activated caller ID blocking

15.1 Conversent Communications of New York, LLC Features (Cont'd.)

15.1.1 Conversent Communications of New York, LLC Analog Voice Features and Service Options (Cont'd.)

Speed Dialing (8)

Allows the Customer to dial frequently called numbers by using a one-digit code. Each line can have its own individual list of speed dial numbers, up to a maximum of eight numbers. Speed dialing can be programmed with domestic, offshore, Canadian and other international numbers if there are no toll restrictions on the line. This feature can be activated and deactivated when needed from the Customer's own phone.

Enhanced Speed Dialing (30)

Allows the Customer to dial frequently called numbers by using a two-digit code. Each line can have its own individual list of speed dial numbers, up to a maximum of thirty numbers. Speed dialing can be programmed with domestic, offshore, Canadian and other international numbers if there are no toll restrictions on the line. This feature can be activated and deactivated when needed from the Customer's own phone.

Verified or Non-Verified Account Codes (analog or digital)

Account codes offer the Customer the ability to identify and track calls by user and/or department so they can easily review all calling records and charge back costs to specific departments or clients. Two types of account codes are offered: Verified and Non-Verified. Requests for more than 100 account codes must be made via special request. Verified or non-verified account codes with two to eight digits are available for intrastate interLATA and interstate long distance.

15.1 Conversent Communications of New York, LLC Features (Cont'd.)

15.1.1 Conversent Communications of New York, LLC Analog Voice Features and Service Options (Cont'd.)

Outbound Caller ID

Outbound caller ID is the information that is sent from the Company to the caller ID unit on the terminating end of the call. The standard information sent is the account name and the billing telephone number (BTN). This feature has a character limitation of 15 characters.

Multi-Line Hunting

All local telephone lines that are part of the same account can be set up to hunt. Hunting allows calls to a line to rollover to the next available line in the group when the first line is busy. Customers can have more than one hunt group. Customers can also choose to leave individual lines out of a hunt group. Customers will have the ability to present Outbound Caller ID from either the lead line of the hunt group or an individual calling line.

Caller ID Blocking

Caller ID Blocking (also referred to as Call Privacy) allows Customers to block their name and number from being displayed on a caller ID unit at the terminating end of the call. This feature is turned on or off at the switch level and can be deactivated by the Customer on a per call basis.

Anonymous Call Rejection

Allows Customers to prevent callers who intentionally block their number from getting through on their line. This feature is only available to Customers with Caller ID Number or Caller ID Name & Number. This feature can be activated and deactivated when needed from the Customer's own phone.

15.1 Conversent Communications of New York, LLC Features (Cont'd.)

15.1.1 Conversent Communications of New York, LLC Analog Voice Features and Service Options (Cont'd.)

Distinctive Ring

This feature allows a Customer to have two telephone numbers associated with a single line. Each telephone number has a unique ringing pattern and does not require an additional line. The ring of the incoming call is determined by which telephone number has been dialed. Two different ring patterns are available.

Group Call Pick-Up

This feature will enable a Customer to answer an incoming call that has terminated to another user's station in the defined call pick-up group. A call pick-up is accomplished by dialing a pick-up access code while the called station is ringing. If more than one station in the group is ringing, the station that has begun ringing first will be intercepted first.

Call Hold

This feature allows the Customer to place a caller on hold for an extended period of time. The Customer simply presses the flash hook and hangs up the phone. To return to the call the Customer picks up the handset. This feature allows the Customer to make an outbound call while the other call is on hold.

Assume or Dial 9

Assume 9 means the Customer is not required to dial 9 to get an outside line. Dial 9 means the Customer is required to dial 9 to get an outside line.

15.1 Conversent Communications of New York, LLC Features (Cont'd.)

15.1.1 Conversent Communications of New York, LLC Analog Voice Features and Service Options (Cont'd.)

Abbreviated Dialing

Allows a Customer to dial only the last three, four, or five digits of a phone number that is associated with the Customer's physical service location. This feature works between multiple locations of the same Customer if all locations are within the same local calling area.

Call Return

A recording will give the Customer the number, date and time of the last incoming call. The Customer can have the number redialed automatically. If the last incoming call was blocked or the call was from a network with limited capabilities, the Customer will hear a message that the number they are trying to reach is private and cannot be called. Call Return will continue trying to connect the call for up to 30 minutes. This feature can be activated when needed from the Customer's own phone.

Continuous Redial

Automatically redials the most recent outgoing call, freeing the Customer to move on to other things, including using the phone for other calls. This feature can be activated and deactivated when needed from the Customer's own phone.

15.1 Conversent Communications of New York, LLC Features (Cont'd.)

15.1.1 Conversent Communications of New York, LLC Analog Voice Features and Service Options (Cont'd.)

Caller ID Name and Number

Caller ID Name and Number displays both the originating name and number of an incoming call on a display unit provided by the Customer. The Company does not provide the digital display box needed to use this feature. Some numbers may not display for a variety of reasons, including:

- Calls placed through a long distance carrier
- Calls from an area where caller ID is not available
- Calls placed from cellular phones
- Calls from someone who has activated caller ID blocking

Call Waiting with Caller ID Name & Number

This feature allows Customers to view the name and number of an incoming call while another call is already in progress. The name and number will be displayed on the incoming call after the first call waiting tone is heard. Feature functionality cannot be obtained by purchasing Caller ID and Call Waiting separately.

Direct Line Connect

Direct Line Connect allows an analog line to automatically dial a designated number whenever the originating line goes off-hook. This feature is assigned to a phone line that must be used only for one purpose. 911 cannot be the designated number.

Standard or PRI Configuration

Standard 24B channel configuration with 56 kbps for each channel (8 kbps removed for signaling and call control) or PRI 15B + 1D configuration with 64 kbps clear channel on all B channels and signaling/call control on the D channel.

Hunting

- Lowest available channel: Use the lowest available channel in the lowest available DS1.
- Highest available channel: Use the highest available channel in the highest available DS1.
- Least idle: Use the available channel that has been idle for the shortest time.
- Most idle: Use the available channel that has been idle for the longest time. (PRI Only Option)

Direct Inward Dialing (DID)

Direct Inward Dialing enables the Customer to have fewer lines than extensions, while still having a unique number for each extension, callable from outside the Customer's location. The Company will allocate a range of telephone numbers and present them to the Customer's PBX so that the PBX can appropriately route the call based on the digits dialed.

Direct Outward Dialing (DOD)

Direct Outward Dialing allows subscribers within a Customer's PBX system to connect to outside lines directly. Using a DOD, Customers can provide each person or workstation within their company the ability to dial numbers directly.

Direct Inward Dialing and Direct Outward Dialing (DID/DOD)

Both Direct Inward Dialing and Direct Outward Dialing may be furnished over the same facility.

Outbound Caller ID Name & Number

Outbound Caller ID Name & Number displays the subscriber's directory name and number on the caller ID device of the called party. This feature has a 15-character limitation.

Inbound Caller ID Number Only

Inbound Caller ID Number is only available with PRI service only and provides the number of the calling party to the party being called.

Verified or Non-Verified Account Codes (analog or digital)

Account codes provide Customers with the ability to identify and track calls by user and/or department. Two types of account codes are offered: Verified and Non-Verified. Requests for more than 100 account codes must be made via special request. Verified or non-verified account codes with two to eight digits are available for local, toll, intrastate interLATA and interstate long distance.

ESF/B8ZS or D4/AMI Circuit Framing

15.14 Conversent Communications of New York, LLC Remote Call Forward (RCF) Service

15.14.1 Description of Services

Conversent Communications of New York, LLC Remote Call Forward (RCF) Service allows a Customer to obtain a phone number in one exchange and have all calls forwarded to the same or another exchange. The RCF number has no physical line associated with it. One call path is provided per RCF number. Additional call paths may be purchased. Service is only available where suitable facilities exist.

The terminating number for the RCF can be local, intraLATA, interLATA or toll-free. Customers that order Conversent Communications of New York, LLC RCF must pre-subscribe to the Company's local, local toll and Long Distance service. Customer will be charged for all usage to forward call to terminating number.

The terminating number cannot be another RCF number, an international number, 911, 611, x11, directory assistance, coin telephone or a feature code.

No features may be attached to the RCF number. If Customer has caller ID on terminating number, the number of the calling party will appear on the caller ID display, not the RCF number.

One yellow pages listing and one white pages listing are available for each RCF number ordered.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 16 - VoIP-PSTN TRAFFIC

16.1 Identification and Rating of VoIP-PSTN Traffic

16.1.1 Scope

This section governs the identification of VoIP-PSTN Traffic that is required to be compensated at interstate access rates (unless the parties have agreed otherwise) by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order"). Specifically, this section establishes the method of separating such traffic (referred to in this service guide as "Relevant VoIP-PSTN Traffic") from the Customer's traditional intrastate access traffic, so that such Relevant VoIP-PSTN Traffic can be billed in accordance with the FCC Order.

16.1.2 Rating of VoIP-PSTN Traffic

The Relevant VoIP-PSTN Traffic identified in accordance with this Section will be billed at rates equal to those tariffed for the Company's interstate switched access services as described in Section 4 of the Company's FCC access services tariff. Consistent with the FCC Order, charges are assessed by the Company for services provided by the Company and/or by any of its VoIP Provider Partner(s).

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 16 - VoIP-PSTN TRAFFIC (CONT'D.)

16.1 Identification and Rating of VoIP-PSTN Traffic (Cont'd.)

16.1.3 Calculation and Application of Percent-VoIP-Usage Factor

The Company will determine the number of Relevant VoIP-PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under subsection (B), above, by applying a Percent VoIP Usage ("PVU") factor to the total intrastate access MOU (however determined – either based on call detail information or PIU) exchanged between the Company and the Customer.

The PVU for traffic will be derived and applied as follows:

- A. The Customer will calculate and furnish to the Company a factor (the "PVU-A") representing the percentage of the total intrastate and interstate access MOU for traffic that the Customer exchanges with the Company in the State, that (a) is sent to the Company and that originates in IP format; or (b) is received from the Company and terminates in IP format. This PVU-A shall be based on information such as the number of the Customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information consistent with the FCC Order.
- B. Company will, likewise, calculate a factor (the "PVU-B") representing the percentage of the Company's total access MOU for traffic in the State that the Company originates or terminates in IP format. This PVU-B shall be based on information such as the number of the Company's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information consistent with the FCC Order.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 16 - VoIP-PSTN TRAFFIC (CONT'D.)

16.1 Identification and Rating of VoIP-PSTN Traffic (Cont'd.)

16.1.3 Calculation and Application of Percent-VoIP-Usage Factor (Cont'd.)

- C. The Company will use the PVU-A and PVU-B factors to calculate an over-all PVU factor that represents the percentage of total access MOU for service exchanged between the Company and the Customer that is originated or terminated in IP format, whether at the Company's end, at the Customer's end, or at both ends. The PVU factor will be calculated as the sum of: (A) the PVU-A factor and (B) the PVU-B factor times (1.0 minus the PVU-A factor).
- D. The Company will apply the over-all PVU factor to the total service intrastate access MOU exchanged with the Customer to determine the number of Relevant VoIP-PSTN Traffic MOUs for service.

Examples for PVU Factor Calculations:

(The calculation elements in these examples are generic.)

Example 1: The PVU-B is 10% and the PVU-A is 40%. The over-all PVU factor is equal to $40\% + (10\% \times 60\%) = 46\%$. The Company will bill 46% of the Customer's intrastate access MOU as VoIP-PSTN Traffic, pursuant to this Section of this Service Guide.

Example 2: The PVU-B is 10% and the PVU-A is 0%. The over-all PVU factor is $0\% + (100\% \times 10\%) = 10\%$. The Company will bill 10% of the Customer's intrastate access MOU as VoIP-PSTN Traffic, pursuant to this Section of this Service Guide.

Example 3: The PVU-A is 100%. No matter what the PVU-B factor is, the over-all PVU is 100%. The Company will bill 100% of the Customer's intrastate access MOU as VoIP-PSTN Traffic, pursuant to this Section of this Service Guide.

Default PVU Factors

If the Customer does not furnish the Company with a PVU factor pursuant to the preceding paragraph 16.1.3.A of this Section, the Company will utilize a PVU equal to the Company's PVU-B factor.

COMPETITIVE TELECOMMUNICATIONS SERVICE

SECTION 16 - VoIP-PSTN TRAFFIC (CONT'D.)

16.1 Identification and Rating of VoIP-PSTN Traffic (Cont'd.)

16.1.4 Initial PVU Factors

If the PVU factors are not available and/or cannot be implemented in the Company's billing systems by January 1, 2012, once the factors are available and can be implemented the Company will adjust the Customer's bills to reflect the PVUs retroactively to January 1, 2012. In calculating the initial PVUs, the Company will take the Customer-specified PVU-A into account retroactively to January 1, 2012, provided that the Customer provides the factor to the Company no later than May 14, 2012; otherwise, it will set the initial PVU equal to the PVU-B, as specified in subsection 16.1.3.B, above.

16.1.5 PVU Factor Updates

The Customer may update the PVU-A factor quarterly using the method set forth in subsection 16.1.3.A, above. If the Customer chooses to submit such updates, it shall forward to the Company, no later than 15 days after the first day of January, April, July and/or October of each year, a revised PVU-A factor based on data for the prior three months, ending the last day of December, March, June and September, respectively. The Company will use the revised PVU-A to calculate a revised PVU. The revised PVU factor will apply prospectively and serve as the basis for billing until superseded by a new PVU.

16.1.6 PVU Factor Verification

Not more than twice in any year, the Company may ask the Customer to verify the PVU-A factor furnished to the Company and Customer may ask the Company to verify the PVU-B factor and the calculation of the PVU factor. The party so requested shall comply, and shall reasonably provide the records and other information used to determine the respective PVU-A and PVU-B factor.

RealBusiness Sense Integrated DSL Market Trial

Business Customers are eligible to participate in the RealBusiness Sense DSL Market Trial which will provide business Customers with an integrated voice and ADSL Internet service bundled over a single twisted pair. RealBusiness Sense Integrated DSL uses Asynchronous Transfer Mode (ATM) with voice compression and dynamic bandwidth allocation in providing service for two (2) to four (4) Business Lines over a single pair with voice always taking precedence over Internet traffic. ADSL speeds will be up to 1.5 Mbps downstream and 512 kbps upstream. Bandwidth is dynamically allocated and will be reduced from 80 kbps to 1.2 Mbps downstream and 80 kbps to 192 kbps upstream depending on the number of Business Lines that are simultaneously off-hook.

Service is offered as a bundled DSL, local exchange and long distance service. RealBusiness Sense DSL is not available as a stand-alone service.

Customers have the option of selecting a Call Plan that includes unlimited local, unlimited local and outbound intraLATA toll or unlimited local and outbound intraLATA, interLATA and interstate toll service for a flat monthly rate. Customers who opt for a Call Plan that does not include unlimited intraLATA, interLATA or interstate service will be billed for those services on a usage basis.

Inbound toll free calling is available on a usage basis.
