

PUBLIC NOTICE: TEMPORARY SIGNS

In an effort to ensure compliance with the **Town of Selmer Zoning Ordinance Chapter 10**, the Building and Code Enforcement Department will be intensifying enforcement on temporary sign regulations. Here's what you need to know:

Key Regulations:

1. Permits Are Required

Temporary signs must have permits. Fortunately, obtaining these permits is simple and free! Permits help us maintain zoning standards and provide us with contact information in case issues arise.

2. Placement Restrictions

Signs cannot be placed on the Right of Way (e.g., street sides) or on public property (e.g., city parks, flower beds). As a general rule, placing your sign between your water meter and your primary structure ensures it stays out of prohibited areas.

3. Property Owner Permission

Always secure permission from property owners before placing signs in their yards.

Important Date

We encourage everyone to comply by obtaining necessary permits and relocating any misplaced signs by **Wednesday, August 20, 2025**. After this date, any illegally placed signs will be removed without prior notice.

If you need assistance in legally placing your signs or have questions about this process, please reach out. Contact the Building Department at Selmer City Hall – we're here to help! (731) 645-3241

Let's work together to keep our town organized and beautiful!
