EXPERIENCE

C2 International, Montreal - Full-Stack developer

2018. - 2022.

Proposed and implemented a complete UI redesign for internal web app alongside converting legacy code to React. Coordinating with BA, QA, developers and UI/UX designer. Code quality assurance.

Working with a variety of different languages, platforms, frameworks, and content management systems such as JavaScript, React, React Native, Bootstrap, Contentful, Firebase, and WordPress.

Levan Studio, Zagreb - Front-end web developer

2016. - 2018.

Collaborated with a small team of iOS developers on mobile and web apps they were working on.

One of the big clients was Laureus World Sports Awards

Social Wizard, Zagreb - Front-end web developer

2015. - 2016.

Worked closely with clients and designers to develop and manage websites using ACF, WordPress, JavaScript and jQuery. Providing technological expertise for clients.

Clients included BASF, DTR, and many more.

Mediji-Prijevod, Zagreb - Administrative services manager

2008. - 2013.

Organization of the subtitle translations for TV companies. Managing a system of receiving orders, negotiating terms of translations, proofreading, supervision, and the delivery of the final translations to the clients. Highly paced environment with day to day deadlines.
