

WRT MIRROR

*"S/he that plants trees
loves others beside
her/himself."*

-Thomas Fuller

ABOUT THE INITIATIVES

01

HELPING HANDS

The pandemic has been not the most kind to us, but it has been even worse for the deprived people and therefore our initiative birthed out of the need to make their lives better by providing them resources for entertainment and education like books, clothes footwear, board games etc.

02

SUNDAY4SECUREDUTURE

S4SF is a movement to encourage youth all around the world to take at least one climate action every Sunday, keeping in mind “We do not inherit the earth from our ancestors; we borrow it from our children

03

SHE HYGIENE

She Hygiene is our social initiatives that aims to fulfill the need of underprivileged menstruating females by providing them with eco-friendly sanitary pads on a monthly basis.

SUNDAY4SECURED FUTURE

"Words may inspire but only true action creates change".

The We Rise Together stands for Climate Justice. We are continuously working to make the earth a better place for living. Our small contribution can be a solution of Air Pollution. If you want Clean Air then you have to take an initiative yourself by planting as the one who gives to nature, nature gives back to it.

SHE HYGIENE

Menstrual Hygiene is not the problem, Poor Menstrual Hygiene is.

The We Rise Together team believes in stepping forward to bring about a change in the society. In the month of February, we have given away eco-friendly and bio degradable Sanitary Pads to 259 deprived women and girls for their better menstrual hygiene. Another step to help those who need it the most.

#DonateForAPad 'Campaign'

Through #DonateForAPad, you can donate a specified amount that we can utilize for providing sanitary pads to an amount of girls. You can either send monetary donations on the details given below or share about the campaign with your friends and inspire them to donate.

Or Scan the QR Code given.

As we all are aware that the climate is a serious matter of concern, but what are the major factors on which the society can play it's part in extending a hand towards changing the climatic conditions we are thriving in today?

QUESTION OF THE MONTH

THANK YOU!

"Forget yourself, become one with eternity. Become part of your environment."
