

THE WRT MIRROR

APRIL EDITION

S4SF

Every small effort counts! In the month of April, the We Rise Together team planted trees and cleaned the banks of the river Ganga in Rishikesh, Uttarakhand. As nature is the source of life, maintaining its purity is our utmost duty. On the occasion of Earth Day, our team, teachers, and students of IPS, Indirapuram planted trees in the school premises.

SHE HYGIENE

The We Rise Together team provided eco-friendly and sustainable sanitary pads to 206 girls in the month of April and made them aware of menstrual education and how menstrual hygiene is important. Our team is continuously working to end period poverty and break the taboos made by the society. It is important for everyone to understand that "Menstruation is not a problem, poor menstrual hygiene is".

#DONATEFORAPAD

Through #DonateForAPad, you can donate a specified amount that we can utilize for providing sanitary pads to an amount of girls. You can either send monetary donations on the details given below or share about the campaign with your friends and inspire them to donate.

QUESTION OF THE MONTH

Climate as we used to know it, is surely not the same anymore. We as humans have been evolving over the past decades and with our evolution, our recklessness towards the climate has also fallen down. Keeping that in mind, we must take a moment to think that are we completely ready for the consequences which we have to face in the near future due to the huge decline in the situation of our climate? Or is there still time left to correct our huge mistakes and make this world a better place for all?

**"Don't protect the environment,
create a world where environment
doesn't need protecting."**
