

WRT MIRROR

“The Earth is our environment to protect and the garden to tend to.”
— Pope Francis

ABOUT THE INITIATIVES

01

HELPING HANDS

The pandemic has been not the most kind to us, but it has been even worse for the deprived people and therefore our initiative birthed out of the need to make their lives better by providing them resources for entertainment and education like books, clothes footwear, board games etc.

02

SUNDAY4SECUREDUTURE

S4SF is a movement to encourage youth all around the world to take at least one climate action every Sunday, keeping in mind “We do not inherit the earth from our ancestors; we borrow it from our children

03

SHE HYGIENE

She Hygiene is our social initiatives that aims to fulfill the need of underprivileged menstruating females by providing them with eco-friendly sanitary pads on a monthly basis.

SUNDAY4SECUREDUTURE

October is the month of festivals in India. Diwali is one of the biggest festivals celebrated during October. This year to celebrate a Green Diwali, the We Rise Together team planted more than 62 trees emitting not only oxygen but #RaysofHope. Be the weather rainy or sunny, we always try to improve nature around us. Along with this, we also participated in a Yamuna clean-up drive organized by Navami Gange, Ashok Upadhyay sir, and various other groups on the account of #GandhiJayanti.

SHE HYGIENE

This month the We Rise Together team conducted two She Hygiene drives, one in collaboration with the Annant Unnati Foundation and the other with the underprivileged girls on the day of Bhai Dooj. Our team provides 100% compostable sanitary pads to 400 deprived women and girls. We believe that #MenstrualHygiene is not a luxury but a basic right of every single woman or girl. Breaking the stigma and helping the deprived are things we are ceaselessly trying to work on.

MENSTRUAL HYGIENE FOR ALL 'PETITION'

Without proper Menstrual Hygiene, menstruators might become prone to several period-related disorders including urogenital infections, fungal infections, urinary tract infections, and even cervical cancer.

Aarav Seth (14) and Shreya Tuli (18) have started the petition "#MenstrualHygieneForAll" to include menstruation education in the curriculum starting in 6th grade after being alarmed by the results.

For a brighter tomorrow please sign and share this petition.
