## **Closure of an area at Nordsnaget, within the Norwegian Economic Zone, for fisheries with Danish seine and trawl**

Please be informed that a Norwegian survey has revealed that the amount of undersized fish in the catches has been found to be too high at an area at Nordsnaget, within the Norwegian Economic Zone.

Due to the results of the survey, the Directorate of Fisheries has decided to **close** the area for fisheries with Danish seine and trawl.

The decision is given force as of **11 July 2024**.

The area closed for fisheries with Danish seine and trawl at Nordsnaget, is limited by the straight lines between the following positions:

1. N 71° 10,0'            E 020° 16,0'
  2. N 71° 18,0'            E 020° 16,0'
  3. N 71° 18,0'            E 021° 00,0'
  4. N 71° 10,0'            E 021° 00,0'
- then to position no 1.

Yours sincerely

Elin Winsents  
Higher Executive Officer
