Welcome

Carolyn Savage,
Head of Youth Engagement and Apprenticeship Participation

Dear Parents and Carers,

It has been an exciting time for apprenticeships as last month we celebrated National Apprenticeship Week 2023 between 6th-12th February. In this pack we will be recapping the exciting activities and events that took place over the week, including a message from the Minister for Skills, Apprenticeships and Higher Education, Robert Halfon MP.

We also take a look at the new Career Starter Apprenticeships, apprenticeships which are particularly suited to those at the start of their career. Also featured are your child's options if they don't feel ready for an apprenticeship yet, the new T Levels available from September 2023 and a look at life as an apprentice at Breathworks.

Apprentice insight: Life as an apprentice at Breathworks

Meet Scott, a Junior Content Producer apprentice

Why did you choose a career in digital marketing?

I left Sixth Form and was extremely lucky to get into Rose Bruford drama college, where I attained a 1st class honours degree in acting. I pursued my music career as a singer/song writer for several years, and during this time, I gained new skills in content creation and digital marketing. This was something I enjoyed doing, I discovered I was good at it, plus it had the benefits of being a lucrative career path.

How did you find your apprenticeship?

I received some career guidance and discussed my interest in Digital Marketing. We spoke about the apprenticeship route as an option for the sector. I hadn't considered doing an apprenticeship as I already had a degree, but the idea of starting a promising new profession, not having to pay to learn and earning a salary in the process was extremely appealing. I found The Juice Academy by googling Digital Marketing Apprenticeships in my local area. They are a not-for-profit apprenticeship provider, running a programme where I would work towards the level 3 Content Creator standard.

What does a typical day look like?

That's the great thing for me about being a digital marketer and content producer at Breathworks, every day is varied. I could be creating content or website landing pages to help promote the courses, retreats and workshops Breathworks offer, editing videos, designing vouchers, writing blogs and, of course social media content for a variety of platforms. My favourite task was when I visited the Adhithana Retreat Centre in the beautiful Herefordshire Countryside to take videos and photos of the retreat.

What are the benefits of an apprenticeship?

I am gaining a professional level of experience from my colleagues, who are providing me with the expectations required for the industry. I have had to learn to be more organised, but this has helped me to lead on projects, and learn the ways of working, including work etiquette, which can only help me to build my work portfolio.

How is your apprenticeship being delivered?

I attend the Juice Academy every two weeks for my face-to-face learning. The Juice Academy is in partnership with Apprentify and Tangerine to ensure all apprentices have the best opportunities and support available. I upload my work through a programme called Bud which Apprentify handle. They also provide a brilliant work coach who provides me with great support with my off-the-job study. I also have a learning support mentor who specialises in supporting people with Autism and ADHD.

What do you like to do in my spare time?

My creativity continues outside of my work. I am a videographer, and I co-founded a multimedia production company for commercial events. I have also become a member of the Apprenticeship Ambassador Network. I volunteered to film the regional Apprenticeship Awards ceremony and capture the excitement of the day. Plus, I work at a petting zoo, which I really enjoy too.

What advice would you give others?

For those who are neurodiverse or may have a learning difficulty, I would suggest trying many things and working out what you can do and are capable of – preferably that you enjoy too. The skills you will learn along the way are transferable and you learn more about the working world. Then play to your strengths, choosing a career you like. This can make you feel more assured that with an apprenticeship, you will often have the support of work coaches, like mine, who can help to correspond with your boss to help ameliorate any difficulties you may experience due to your condition.

Digital	Digital accessibility specialist 	Provide advice on accessibility best practice, helping organisations (externally and internally) to meet organisational, national and international accessibility standards.	Level 4
Engineering and manufacturing	Water industry treatment process technician 	Maintain site process standards for water or wastewater.	Level 3
Hair and beauty	Nail service technician 	Completing nail services on a one-to-one basis with individual customers/clients within commercial timings.	Level 2
Legal, finance and accounting	Senior professional economist (integrated degree) 	Design, implement and lead programmes of economic analysis to support decision-making.	Level 7
Protected services	Youth justice practitioner 	Work with children who have offended or are at risk of offending.	Level 5

National Apprenticeship Week 2023

Looking back over National Apprenticeship Week 2023

National Apprenticeship Week 2023, in its 16th year, was a huge success in February. The positive impact apprenticeships bring to employers, individuals, and the economy were discussed, promoted and celebrated. There were many highlights of the week and here are just a few!

Amazing Apprenticeships launched a new edition of The Parent Perspective Podcast especially for National Apprenticeship Week, featuring **The Rt Hon Robert Halfon MP**, Minister for Skills, Apprenticeships and Higher Education, talking to host Rachel Burden and Anna Morrison CBE, founder and director of Amazing Apprenticeships.

<https://amazingapprenticeships.com/the-parent-perspective-podcast/>

The Big Assembly is a live assembly broadcast, shown to over 100,000 people across the UK, that took place live on the Tuesday of National Apprenticeship Week. It is a fantastic opportunity to get to know apprenticeships from a variety of angles, including from former and current apprentices, employers of apprentices, parents, education providers, and many more. You can watch a recording of it here:

<https://bigassembly.org/on-demand/>

You can download the guide here: <https://www.theparentsguideto.co.uk/nationalapprenticeshipweek>

Career Starter Apprenticeships

Different ways to start your career through an apprenticeship

The Department for Education (DfE), in partnership with the Institute for Apprenticeships and Technical Education (IfATE), has continued with their Career Starter initiative to raise young people's awareness of apprenticeship opportunities.

<https://www.apprenticeships.gov.uk/apprentices/career-starter-apprenticeships>

Scan to visit the website

The DfE wants to ensure that young people and their parents and carers have the opportunity to consider the full range of apprenticeships that are suitable for those starting their career, especially for young people with little or no work experience.

Career Starter Apprenticeships (CSAs):

Career Starter Apprenticeships identify which apprenticeships are particularly suitable for career starters.

The second series of these includes:

- 1) [Catering – Production Chef or Commis Chef \(both level 2\)](#)
- 2) [Early Years – Early Years Practitioner \(level 2\) or Early Years Educator \(level 3\)](#)
- 3) [Hospitality Team Member \(level 2\)](#)
- 4) [Data / Software – Data Technician or Software Development Technician \(both level 3\)](#)
- 5) [Electrician – Installation and Maintenance Electrician or Domestic Electrician \(both level 3\)](#)
- 6) [Plumbing and Domestic Heating Technician \(level 3\)](#)
- 7) [Teaching Assistant \(level 3\)](#)

Click on the links to find out more about each apprenticeship. You will find case studies, details about day-to-day activities, salaries, durations, and context for each of these occupations.

Look out for a third set of featured Career Starter Apprenticeships, which will be published in spring 2023.

Your child may hear more about Career Starter Apprenticeships at their school or college through the Apprenticeships Support and Knowledge (ASK) programme and through the DfE's other partners including CEC (The Careers & Enterprise Company) and Careers Hubs.

Apprenticeships

START YOUR CAREER THROUGH A CATERING APPRENTICESHIP!

A guide for young people.

DID YOU KNOW...

Chefs can be promoted from apprentice to a kitchen management role in a few years. They are in high demand across the country, making it a great choice for those looking to progress to the top. Most importantly, you don't need previous experience to get started. If you have a passion for food, like working as part of a team and are ready to learn, this could become your lifelong career.

AN APPRENTICESHIP IS A JOB WITH A SALARY

You'll also study the equivalent of one day per week to build skills in your chosen profession. The combination of practical work and classroom teaching means you can put into practice the things you learn. You'll gain skills such as communication, teamwork, problem solving and IT.

You'll be well on your way to achieving your career goals while others are just getting started.

MEET SOME APPRENTICES

MEET THEO...
who's found his passion as a Production Chef at an Italian restaurant.

MEET ESTHER...
a Commis Chef who aims to open her own restaurant.

MEET TOM...
who is now a Kitchen Team Leader.

DURATION: APPROX. 12 MONTHS

SALARIES: UP TO £9,000 PER YEAR (RISE QUICKLY DUE TO DEMAND)

INFO: FIND OUT MORE ON THE NEXT PAGE

Apprenticeships

START YOUR CAREER THROUGH A DIGITAL APPRENTICESHIP IN DATA OR SOFTWARE!

A guide for young people.

DID YOU KNOW...

If you're looking for a career that's collaborative, creative and allows you to use your problem solving skills, this is the one for you. Almost all industries need data and software development technicians, so your career could take you in any direction, from working for a bank to a financial company. Your apprenticeship will teach you the skills you need to begin a thriving career with excellent prospects.

AN APPRENTICESHIP IS A JOB WITH A SALARY

You'll also study the equivalent of one day per week to build skills in your chosen profession. The combination of practical work and classroom teaching means you can put into practice the things you learn. You'll gain skills such as communication, teamwork, problem solving and IT.

You'll be well on your way to achieving your career goals while others are just getting started.

MEET SOME APPRENTICES

MEET AMAR...
who is using his networking and writing skills to become a Software Development Technician.

MEET HANNAH...
who is earning money and growing in confidence as a Software Development Technician.

MEET LEAH...
who is working to become a fully qualified Data Technician.

DURATION: APPROX. 18-24 MONTHS

SALARIES: UP TO £24K STARTING (THIS CAN RISE QUICKLY DUE TO DEMAND)

INFO: FIND OUT MORE ON THE NEXT PAGE

Apprenticeships

START YOUR CAREER THROUGH AN EARLY YEARS APPRENTICESHIP!

A guide for young people.

DID YOU KNOW...

Early years professionals are crucial to helping children develop before starting school, and demand is high around the country for their specialist skills. It's a rewarding job where you get to see children learn and grow thanks to your support. If you want to work with children, an early years apprenticeship could be the perfect first step in your career. It's also an entry point to becoming a fully qualified Early Years Teacher.

AN APPRENTICESHIP IS A JOB WITH A SALARY

You'll also study the equivalent of one day per week to build skills in your chosen profession. The combination of practical work and classroom teaching means you can put into practice the things you learn. You'll gain skills such as communication, teamwork, problem solving and IT.

You'll be well on your way to achieving your career goals while others are just getting started.

MEET SOME APPRENTICES

MEET ERIN...
who is seeing the children she works with progress.

MEET JESS...
who's apprenticeship has helped her build confidence.

MEET JACK...
who is enjoying getting a real insight into a nursery setting.

DURATION: APPROX. 10-18 MONTHS

SALARIES: APPROX. £5K THE STARTING

Degree Apprenticeships with the Metropolitan Police

Find out more about the Police Constable Degree Apprenticeship

As one of the UK's biggest police services, the Metropolitan Police (the Met) are seeking individuals from a range of backgrounds with the right values to join as a Police Constable through its exciting apprenticeship programme.

Joining the Police Constable Degree Apprenticeship (PCDA) means your child will be a paid police officer from day one, learning whilst earning a starting salary of £33,500 (including generous allowances) as well as a fully funded BSc (Hons) degree in Professional Policing Practice on completion of the three-year programme.

Working with the Met is a rewarding career like no other, where those who join will make a difference to the lives of people every day, supporting local communities, tackling serious crime and safeguarding the most vulnerable. Joining the Met's PCDA is just the start of a varied career, where no two days are the same.

Your child can watch this exciting 5-minute film to find out more about the Met's apprenticeship programme:

<https://amazingapprenticeships.com/resource/apprenticeships-with-the-met-police/>

Scan to visit the website

To take their first step towards a career with the Met, your child can register their interest in being contacted by the outreach team, who will assist them with the application process. The outreach team are experienced staff from a range of backgrounds, ethnicities and experience, and they will be able to give your child a true account of what it is to become part of the Met family in various roles. **Register here:** <https://tinyurl.com/54s4kpi2>

Apprenticeships at Atkins

Discover more about apprenticeships at Atkins

Atkins, a member of the SNC-Lavalin Group, is one of the world’s leading design, engineering and project management consultancies. Their teams create sustainable solutions, connecting people, data and technology so they can partner with clients to bring the most complex projects across the world to life. Their work covers everything from transportation to defence, energy to infrastructure. You can find out more about Atkins here: <https://www.atkinsglobal.com/>

Scan to visit the website

Why could an apprenticeship at Atkins be a good choice for my child?

Atkins is working to engineer a better future for the planet and its people, and they’ll almost certainly have a role to fit your child’s passions. They offer a wide variety of apprenticeships including Engineering, Project Management, Surveying, Digital, Technology and Environmental, Architecture and more, based nationwide. They offer apprenticeships across levels 3, 4, 5, 6 and 7.

Here are some of the apprenticeship roles available at Atkins:

Construction	Level 3
Acoustics Technician	Level 4
Nuclear Technician	Level 5
Architectural Assistant	Level 6
Project Manager	Level 6
Building Surveyor	Level 6

Your child doesn’t have to be studying typical STEM subjects (Science, Technology, Engineering, Maths) or be interested in a traditional STEM career to find a role that suits them at Atkins, as they offer many non-technical opportunities, as well as the technical roles you may expect.

In addition to the variety of roles available to suit your child, Atkins is a great place for a young person to work. They have hundreds of apprentices in their vibrant young professionals’ community. Together they enjoy many opportunities to develop, learn and socialise together.

Your child will have all the advice and support they need from senior colleagues, team members and peers, including a buddy to help them settle in. Atkins has a flexible and hybrid working culture, so your child will be encouraged to enjoy a healthy work-life balance and given time to focus on their studies.

How can my child find out more and apply?

Your child can find out more about apprenticeships at Atkins here: <https://careers.snclavalin.com/atkins-early-careers/apprenticeships> and there is lots of support available for applying.

Scan to visit the website

Connectr is a platform to help your child on their Apprenticeship journey with Atkins. Once they’ve registered, they’ll find resources, guidance, advice and insights on everything from the recruitment process to how to prepare for an interview with Atkins. Your child can also choose a mentor from their current young professional employees and message them directly about anything they want to know about life at Atkins. <https://tinyurl.com/yc2e4aat>

Hear about life as an apprentice at Atkins on the next page!

Apprenticeships at Atkins

Discover more about apprenticeships at Atkins

Meet Tash, a Degree Apprentice Consultant on the Development Programme at Atkins.

Tash, why did you choose to undertake an apprenticeship?

I wanted to kick start my career and do formal learning at university, while learning skills 'on the job'. Learning at university and applying the knowledge at work is the best way I learn.

Why did you choose Atkins?

I developed a real passion for business studies during my A-levels. I wanted to be a consultant, helping clients solve problems and make a difference. I like Atkins because of its huge range of exciting projects.

What does an Atkins Apprentice do?

As an Apprentice Management Consultant, I spend four days a week creating value for clients like Heathrow and EDF – improving performance, providing objective advice and implementing business solutions. I spend one day a week studying for my degree in Project Management.

What has been a key highlight so far?

Being selected as Vice Chair for School Leavers and Apprentices at the Young Management Consultancies Association. I use my passion for apprenticeships to encourage other school leavers to apply. Representing the consultancy industry and Atkins at this level demonstrates the wealth of opportunities available to me here at Atkins.

How do you balance work and study?

On my university day, I often work on assignments or read in the morning and then attend lectures in the afternoon. Everyone I work with supports the time I spend on my studies. Atkins' flexible work culture means I can split my study time across multiple days by doing a few hours each weekday. So, I'm free to find the right balance for me, and when on study leave, no one interrupts me. Most of my assignments are "work-based," and my colleagues are always more than happy to help answer my questions.

What skills have you developed so far?

Atkins has helped me develop skills for life, such as teamwork and leadership. Since joining, I've discovered what I'm capable of by being supported on tasks somewhat out of my comfort zone. For example, I've built competence and confidence in programmes like Excel by using them daily.

What is Atkins' social scene like?

Each month the Young Professionals Forum puts on a funded and unfunded social. These have included bingo in a nightclub, Oktoberfest and roller skating. We also have sports clubs, like football, rugby and netball – and a Yammer network (an online networking service) with like-minded communities, such as Atkins Sailing and Photography.

What will you do once your apprenticeship is finished?

My future is bright at Atkins, and I see myself staying on. I'll be able to choose which consultancy area I would like to specialise in. I'm interested in Business Change and Engagement, but I still have three years to decide. I'd be keen to become a line manager, making a difference for other apprentices after me.

ATKINS FAITHFUL+GOULD

Members of the SNC-Lavalin Group

T Levels

A look at the new T Level subjects launching for September 2023

T Levels are a 2-year qualification that your child can do after GCSEs as an alternative to A levels, other post-16 courses or an apprenticeship. They have been designed with leading businesses and employers to give you the knowledge and skills you need. Find out more here: <https://www.tlevels.gov.uk/>

A T Level involves 80% of time in the classroom and 20% on a 45-day placement with an employer to give your child the skills and knowledge companies look for. The industry placement gives your child the chance to learn what a real career is like while they continue their studies. Like A levels, there are no tuition fees to study a T Level if your child starts before they are 19.

The first T Levels started in September 2020 and there are currently 16 different subjects on offer, which you can find out about here: <https://www.tlevels.gov.uk/students/subjects>

There are two exciting new T Level subjects launching for September 2023, so if your child is interested in an exciting post-16 alternative to A levels, one of these new (or existing) T Levels could be a great option.

Scan to visit the website

Scan to visit the website

The new subjects are:

T-LEVELS

THE NEXT LEVEL QUALIFICATION

AGRICULTURE, LAND MANAGEMENT AND PRODUCTION

Your child will learn the core knowledge and skills that are needed for entry to a range of agriculture, land management and production occupations, such as a farmer, tree surgeon or horticultural manager.

<https://www.tlevels.gov.uk/students/subjects/agriculture-land-management-production>

Scan to visit the website

LEGAL SERVICES

If your child is interested in a career in the legal profession, this T Level will help them develop an understanding of a broad range of issues relevant to the sector, with potential career options such as a legal clerk, solicitor or legal executive.

Apprenticeship Diversity Champions Network

A look at the annual report

The Apprenticeship Diversity Champions Network (ADCN) champions apprenticeships and diversity to employers and encourages more people from diverse backgrounds to consider apprenticeships.

APPRENTICESHIP DIVERSITY CHAMPIONS NETWORK

The ADCN published its 2022-23 Annual Report during National Apprenticeships Week (6th-12th February). The wide network of employers who are part of the ADCN contributed their collected experiences from growing their own diverse apprenticeship programmes.

The report shares effective practice, inspirational employer and apprentice case studies and recommendations from ADCN members that will support other organisations to take the next step towards increased diversity in apprenticeships. It could also inspire you to encourage your child to apply for an apprenticeship with the reassurance that there is provision to support them.

If one of the focus areas listed is relevant to your child, having a look at the report would give you some insight into what support is available for them, and some interesting case studies from both employers and apprentices.

You can read the report here:

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/1135471/ADCN_Annual_Report_2022_to_2023.pdf

Scan to visit
the website

There are five chapters aligned with the Network's focus areas over the year:

- Social mobility
- Participation by individuals with a learning difficulty or disability
- Progression into and through apprenticeships
- Participation by individuals from ethnic minority backgrounds
- Women in STEM sector roles

Apprenticeships have great benefits for employers and individuals. The report shows how, by embracing diversity, employers have been able to tap into new talent for their business and deliver creative and innovative solutions for their customers. For individuals, the report shows how apprenticeships can be transformative and help build a fulfilling career.

Disabled Apprentice Network

A look at the annual report

The Disabled Apprentice Network (DAN) is a forum for Disabled apprentices, where they can share their experiences and offer ideas and proposals on how to improve apprenticeships for Disabled people.

[Disabled Apprentice Network | Disability Rights UK](#)

Scan to visit the website

APPRENTICES DECLARING A LEARNER LEARNING DIFFICULTY AND/OR DISABILITY (LLDD) FOR 2021/22 MADE UP 14% OF THE TOTAL – UP FROM 12.4% ON THE PREVIOUS YEAR.

The Disabled Apprentice Network (DAN) launched its 2023 report **Speaking from Experience: Getting It Right for Disabled Apprentices** as part of National Apprenticeship Week.

The report includes:

- Recommendations for what young Disabled people need to help them find out about apprenticeships.
- Finding about what makes an apprenticeship successful.
- Case studies from apprentices and employers.

It is Disability Rights UK's follow-up report to 2022's **Getting it Right for Disabled Apprentices**.

The report considers what works well through collecting and analysing young Disabled people's experiences of how they receive information about apprenticeships; their engagement with training providers and employers, and the support they have received. It also collected the views from various stakeholders who work with Disabled young people. The report contains lots of excellent real-life examples and explanations of the apprenticeship journey.

They also share a video, produced by Disability Rights UK, which can be watched on YouTube. In this video, apprentices talk about their experiences and highlight some of the benefits of doing an apprenticeship:

Options before an apprenticeship

What if my child isn't ready for an apprenticeship yet?

Traineeships are a course with work experience that gets you ready for work or an apprenticeship. You can apply for a Traineeship until 15th July 2023 using the Find a Traineeship website:

<https://www.findapprenticeship.service.gov.uk/traineeshipsearch>

Scan to visit the website

After the 31st of July 2023, as part of the Government's commitment to provide a comprehensive and clear skills offer for employers and individuals, the Government have decided to integrate the Traineeship programme into 16-19 study programme and adult education provision. This means that Traineeships will no longer be a standalone programme.

If your child isn't ready for an apprenticeship yet, there are lots of options available to them, as outlined in this document from the Department of Education (DfE). You can download it here:

<https://tinyurl.com/bdutrvtm>

Scan to visit the website

What if I'm not ready for an apprenticeship?

THE ASK PROGRAMME
APPRENTICESHIPS
TRAINEESHIPS
T LEVELS

If you don't feel ready to undertake an apprenticeship, there are options that could help prepare you.

Combine work and study - T Levels

Designed in partnership with employers, T Levels are a combination of classroom and on-the-job training. They are broadly equivalent in size to three A levels and can help you get into skilled employment, university, or a higher apprenticeship. Each T Level includes an in-depth industry placement that lasts at least 45 days, which means that you get valuable experience in the workplace.

<https://nationalcareers.service.gov.uk/explore-your-education-and-training-choices/t-levels>

Study - Higher Technical Qualifications (HTQs)

Designed in line with the knowledge and skills that employers say they need. The first teaching of approved HTQs began in September 2022 in digital subjects. Qualifications in construction and health and science are coming in 2023, and a full roll-out will take place over a four-year period. HTQs can lead to high skilled, highly paid jobs in a wide range of sectors, giving you a step up in your chosen career or further study.

<https://nationalcareers.service.gov.uk/explore-your-education-and-training-choices/higher-technical>

Work - Supported Internships

A Supported Internship is an unpaid work-based study programme for young people with an Education, Health and Care Plan (EHC) that usually lasts for one year. It includes an extended work placement that lasts for at least 6 months. You'll take the first step from education into the workplace while gaining the skills you need to get a paid job.

<https://www.gov.uk/government/publications/supported-internships-for-young-people-with-learning-difficulties/supported-internships>

What if I'm not ready for an apprenticeship?

THE ASK PROGRAMME
APPRENTICESHIPS
TRAINEESHIPS
T LEVELS

Combine a course and work experience - Traineeships

A skills-based development programme that includes a work placement, lasting from 6 weeks up to 1 year for those aged 16-24, or 25 with an EHCP. Traineeships help you get ready for an apprenticeship or job if you don't have the appropriate skills or experience. Until 31 July 2023 you can apply for a traineeship on [Find a Traineeship](#). After this date, they will be available directly from colleges and other training providers.

<https://www.gov.uk/guidance/traineeship-information-for-trainees>

Work - part-time or full-time

Working in an industry you are interested in is a great way to gain experience and find out if it is right for you. However, if you're under 18, you need to stay in education or training at least part-time.

<https://nationalcareers.service.gov.uk/explore-your-education-and-training-choices/get-a-job>

Work experience

Paid or unpaid work experience can be a great way to find out more about different job roles and industries.

<https://nationalcareers.service.gov.uk/careers-advice/types-of-work-experience>

Work - other options

There could be other local employability initiatives available through local authorities, training providers or employers. Speak to your school or college careers adviser to find out what the options are in your area.

Volunteering

Volunteering is an excellent way to gain experience and insight into an industry. It is also brilliant to have on your CV.

<https://nationalcareers.service.gov.uk/careers-advice/advice-on-volunteering>

Dates for your diary

Free webinars throughout the year for teachers and parents

As part of the Apprenticeship Support and Knowledge for Schools and Colleges programme (ASK), Amazing Apprenticeships are offering teachers and parents/carers a schedule of free webinars throughout the year, to find out more about apprenticeships and how to support your child.

These are a series of informative webinars that will provide an abundance of tips, advice, and information from expert speakers all around the topic of apprenticeships. Each webinar lasts for 30 minutes and will take place on Zoom. Participants are required to sign up before the session and will receive an email confirmation and a reminder an hour before it begins. The webinars will be recorded and shared with all registrants after the session.

Book your free place now or catch up on recordings of previous webinars here:
