

Communication Toolkit

Helping You Share the Power of Music with Your Community

1. About DMF & Why It Matters

Daniel's Music Foundation (DMF) empowers people with disabilities through music. Since 2006, we've created spaces for joy, self-expression, and community through free and accessible music programs for people with disabilities. In 2025, we're reaching a national audience with **30+ weekly online classes, free evening events, and an on-demand channel with 250+ videos.**

Impact in a sentence: *Music activates more parts of the brain than any other stimulus, helping people build language, confidence, social connections, and joy.*
