

Start M4 XXL

The Start M4 XXL is the robust model among the lightweight wheelchairs. With its sturdy double crossbrace and the reinforced rear wheels, it can carry up to 160kg and is built to withstand extreme stress and strain.

The optional back stabiliser rounds out the wheelchair's features without compromising its foldability.

The rear wheel adapter of the Start M4 XXL allows the centre of gravity to be adjusted to meet different uses needs.

What is special about me?

- Double cross brace for stability
- Reinforced rear wheels and back tubes
