When to contact your ottobock clinic

We expect your mobility to progress with time. Please make a follow up appointment if you come across these situations earlier than expected:

- Your walking speed has changed and the prosthesis needs adjustments
- Socket fit too loose or too tight
- A redness / abrasion on the limb which does not go away after rest

Contact no. for regular appointment :

.....

Here are some rare emergency situations when you should immediately make a follow up appointment :

- The device is exposed to rain / water (Not applicable for waterproof components)
- Visible damage to the device from a fall / accident or due to wear and tear
- Irregular noise or movement in the joint / foot
- A fall

Contact no. for emergency support :

.....

Medical Care Continuing Support.

Ottobock India Warranties.

Dear User,

Thank you for giving us an opportunity to serve you.

All components of your Ottobock device are German engineered and are built to the strictest quality standards. Please be assured that they will deliver optimal function to you over their service life.

Our confidence in our products allows us to offer you a reliable service. However, if you encounter a problem with functioning of an Ottobock component, please contact your nearest Ottobock clinic.

Ottobock's After Sales Service Centre in Mumbai is equipped to handle most repair / maintenance requests. We promise to honour our warranties throughout our national network of clinics and do all we can to support you.
