Recommended combinations.

21Y2 QuickValve

- Wide range of applications in combination with a liner (TT, KD, TF)
- The valve can be opened easily by turning the valve cap with recessed grips
- When closing, a perceptible signal indicates that the valve is closed
- Easy to clean
- Waterproof

4R57=WR / 4R57=WR-ST Waterproof rotation adapter

- Allows users to rotate their lower leg against the socket with the knee flexed: for more freedom of movement and a relaxed sitting position, allows movement that is gentle on the back, e.g. when putting on shoes
- Waterproof and corrosion-resistant

1C53 Taleo Low Profile

- For users with limited clearance
- Dual springs and a long carbon base enable a smooth rollover and efficient energy return
- Thanks to the flexible connection of the carbon springs in the forefoot, the foot adapts to varying ground conditions
- The design of the pyramid adapter allows a more controlled forward movement during rollover as usual for low profile feet
- Waterproof and corrosion-resistant
