

Orthotic Academy Physiotherapist – Spinal & Neuro Rehabilitation

Ottobock UK | Field-based (UK & Ireland)

A rare clinical opportunity

Ottobock UK is seeking an experienced **Physiotherapist with spinal or neuro rehabilitation experience** to join our **Orthotic Academy Team**.

This is a **clinically led, specialist role** working at the early stages of the rehabilitation journey, supporting patients with complex neurological and spinal presentations across **NHS and private rehabilitation centres**.

You will work in close partnership with respected MDTs and Ottobock's senior Orthotists, helping to introduce and embed **market-leading rehabilitation technologies** into real-world clinical practice.

About the role

As an Orthotic Academy Physiotherapist, you will:

- Work autonomously across NHS and private rehabilitation settings
- Support clinicians during **early and complex stages of spinal and neuro rehabilitation**
- Collaborate with MDTs to identify suitable patients for advanced rehabilitation solutions
- Support assessment, fitting, rehabilitation progression, and education
- Act as a trusted clinical partner to physiotherapists, consultants, and orthotists

You will also contribute to:

- The introduction of **new, market-leading rehabilitation technologies**
- Clinical education, workshops, and product demonstrations
- Conferences, exhibitions, and professional events

Quality for life

- Ongoing clinical development and Academy-led initiatives

Technologies supported include:

- Mechatronic Stance and Swing Controlled Orthoses (SSCO)
 - Neuromodulation systems
 - Functional Electrical Stimulation (FES)
-

Who we're looking for

We are looking for a physiotherapist who is:

- Clinically confident and well respected
- Comfortable working independently in specialist environments
- Motivated by complex rehabilitation and patient outcomes
- Interested in education, innovation, and influencing clinical practice

Essential requirements

- BSc (Hons) or equivalent in Physiotherapy
- HCPC registration
- CSP membership
- **Minimum 2 years' NHS experience in a rehabilitation setting**
- Experience working with **spinal cord injury and/or neurological rehabilitation patients**
- Full UK driving licence
- Eligibility for enhanced DBS clearance

Desirable

- Experience in a regional spinal injuries or specialist neuro rehabilitation unit
- Exposure to advanced orthotics, FES, or rehabilitation technology
- Band 6–7 equivalent NHS experience

What we offer

- Competitive salary and benefits package
- Company car
- Specialist training and ongoing professional development
- High levels of clinical autonomy and trust
- The opportunity to work with **world-leading rehabilitation technology** and complex patients
