Trial Units

Ottobock Australia offers 1 week free patient trial in addition to 1 week travel time to and from Sydney (2 weeks total).

A loaner fee starting from \$1026 applies for each week the unit is outstanding after this time.

The Dynamic Trial Orthosis (DTO) is designed to determine suitability of the C-Brace® for people suffering from leg paralysis. The DTO is only for functional testing and does not replace an individual trial fitting. The objective is to assess whether or not the C-Brace® will be the appropriate brace for the patient.
