Product presentations

Genium X4

Skeo Sealing 3D
Liner

Evanto

mHand Adapt

Nexgear Family

NEXGEAR FAMILY sets a new bilateral standard.

The Nexgear Family is the new bilateral line of system joints and bars for AFO and KAFO designs.

We will show you how CPOs benefit from ease of business with a configurator and less complexity.

Best Practice Cross-Selling NeuroMobility

Patients with neurological diseases need a holistic approach and require different medical devices for optimal care. **Learn how cross-selling can be implemented.**
