

VS5 Restore.

Your reliable companion.

The *Restore* was designed for less active users who mainly navigate indoor environments and use a walking aid outdoors, and who place a high value on reliable support from their prosthetic foot.

Product features

- The full length, unbolted spring design provides the required stability and a soft rollover
- The C-shape offers stability from heel contact through to toe-off
- The partly split forefoot spring and the flexibility of the fibreglass provide sufficient ground contact even on uneven terrain
- Custom heel stiffness for a better balance thanks to four different heel wedge options
- Protected against fresh, salt and chlorinated water

More than a foot.
A foundation.

Technical data
