

BETA 1.0 access details.

Note that this game has not been released, nor can be accessed by the general public. It is in 'Beta' testing phase. Access is based on this special invitation.

ON APPLE DEVICES

Please **Uninstall** any earlier version of the game, before installing the updated version below.

1. Click on this link from the tablet/phone

[LINK](#)

2. This should take you to a step that prompts you to download an Apple testing app called, 'Testflight'
3. After Testflight has been downloaded on your device, Testflight will automatically open, and you will see Magical I am parked in it, prompting you to download it.
4. Once you download Magical I Am - Sky Village, it's ready to play!

Special note: Occasionally, depending on the user device, the user may not see anything inside the Testflight app once set up.

When that occurs, please click on the link in step 1 once again. That should reset Testflight and reveal our game app in it.

ON ANDROID DEVICES

Please **Uninstall** any earlier version of the game, before installing the updated version below.

1. Click on this link from the tablet/phone
