

Vegan Carbonara

THIS™ makes hyper-realistic plant-based meat alternatives that are high in protein & fibre, and lower in fat than real meat. By making game-changing meat alternatives that are as good as the real thing (we reckon, at least), THIS™ is on a mission to make plant-based eating a zero compromise option.

THIS™ Marketing Director Dee Bulsara said “We’re thrilled to have partnered with Frankie & Benny’s using our THIS™ Isn’t Bacon in two new delicious plant-based dishes: the Pasta Carbonara and the Parmigiana Hoagie. Eating plant-based in Veganuary has never been easier (or tastier) than THIS™.”

THIS™
