

Parmigiana Hoagie

Biff's make seriously tasty planet-friendlier vegan comfort food that's actually made from proper plants, not weird stuff. Ever since 2017 we've been on a mission to make doing good taste great with our 'Naturally Naughty' Wingz and Burgers made from Jackfruit: a more climate friendly alternative to chicken.

Biff's co-founder, Biff Bloom-Burrows says:

"With it's tender flavour-packed jackfruit centre and deliciously crispy panko crumb, our hand-formed Crispy Fried Jackfruit is the perfect addition to any sandwich - but Frankie & Benny's have taken it to the next level with this Parmigiana Hoagie- we're hyped to be collaborating with them on such an incredible dish for Veganuary".
