Coca-Cola topped with a scoop of vanilla ice cream (214 kcal)

TIME MACHINE FOUND IN LOCAL FRANKIE & BENNY'S

A group of girls recently travelled from 2023 to the mid noughties directly from a booth at Frankie & Benny's. The unbelievable scene unfolded last week as the girls were transported back to 2003 after pressing a number of spots on the booth whilst simultaneously eating pizzas.

Whilst in 2003, they dined at Frankie & Benny's and then brought back all their favourite dishes from the menu to 2023. They told us whilst they were happy to back, they couldn't leave the Calzone in the past.

Craving a much needed dose of noughties nostalgia? It could be easier than you thought.

Adults need around 2000 kcal a day.
