

# OGGS® Vegan Carbonara

OGGS® create a range of plant-based egg alternatives and sweet treats made from chickpeas that taste great and do good. To date they've reduced the need for over three million eggs, given half a million chickens the week off and saved over 500,000kgs of CO2e. Scrambled OGGS® is the plant-based egg perfect for scrambles, omelettes, quiches - and a Vegan Carbonara at Frankie & Benny's!

"We're on a mission to make delicious plant-based eggs mainstream, so we couldn't be prouder to work with an institution like Frankie & Benny's on the ultimate team up with the Vegan Carbonara. A delicious dinner that works towards a kinder, more sustainable future is the ultimate Veganuary treat!"
