Wakaflex®

BMI Coverland

**A premium quality, easy to
install wall flashing solution**

www.bmigroup.com/za

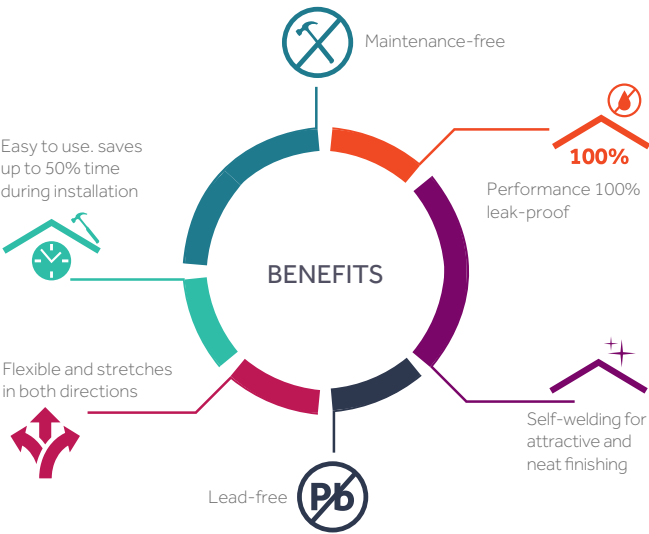

BMI Coverland reserves the right to change the contents of this document without any prior notice. June 2019.

Premium grade dry-fix wall flashing solution that ensures waterproofing on critical areas of the roof.

Wakaflex® is the practical approved universal product for professional abutments at chimneys, walls and other rising structures. The surface of Wakaflex® is dirt-repelling and smooth, making it an excellent choice to increase the aesthetic value of your roof. Its rollable 5-sheet laminate has a unique self-welding feature that allows for easier and better finishing around any roof tiles and even complicated areas, which saves up to 50% time during installation compared with other products.

Connection Strip is nailed/screwed onto the Wakaflex® and the wall to provide additional sealing against water ingress.

PRODUCT DATA

WAKAFLEX®	
Material	Polyisobuthylene (PIB) with aluminium grid and butyl strip
Roll dimensions (m)	0.28 (W) x 5 (L)
Stretch factor	approx. 50% (lengthwise) approx. 15% (crosswise)
Weight (kg/m ²)	approx. 3,24
Fire resistance	Class E
Min. roof pitch	10°
Surface Colours	Terracotta, brown and black

Recommended to seal with Connection Strip in accordance with application instructions

CONNECTION STRIP	
Material	Clean colourbond steel
Dimensions (m)	2.4 (L) x 0,6 (W)
Colour	Double-sided brown and terracotta

APPLICATION

Preparation

Ensure that the tile surface is dry, free from dirt and dust. Plastered walls must first be primed and painted.

Dormer treatment

Chimney treatment

Using ordinary tools, measure the appropriate width required to seal the abutment

Release the butyl strip against the wall first ensuring a straight line along the wall

Then release the butyl strip on the tile side and mould onto the clean tile surface

Where the corners intersect ensure sufficient overlap

Apply a Connection Strip securely with non-corrosive screws to the upper edge of Wakaflex®, sealing off with Coverfill between the wall and Connection Strip

Wakaflex as a wall connection with pre-assembled elements
