What you pay for power is made up of charges from a number of companies, including the generator, your local lines company, the company that provides the meter on your house, and your retailer (that's us!). The Electricity Authority also charges you a levy and the government adds GST.

You can see each company's charges in the tables below. Flick passes on everyone else's costs to you at the wholesale price, without any mark-up.

Uncontrolled

Single Meter Without Control
