

Fisher Funds Premium Service

Product Disclosure Statement

Offer of units in the Fisher Funds Premium Service

Issued by Fisher Funds Management Limited
10 March 2026

This is a replacement Product Disclosure Statement (PDS) which replaces the PDS dated 30 September 2025.

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on disclose-register.companiesoffice.govt.nz. Fisher Funds Management Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013. You can also seek advice from a financial advice provider to help you to make an investment decision.

1. Key information summary

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Fisher Funds Management Limited ("Fisher Funds", "we" or "us") will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of Fisher Funds and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

The Fisher Funds Premium Service offers you a range of seven funds ('the funds') to invest in, giving you access to a range of asset classes and the ability to create a diversified investment portfolio. These investment options are summarised below. More information about the investment target and strategy for each investment option is provided at Section 3.

You can choose to invest in one or more of the funds below, as long as you meet the minimum investment and account balance requirements. More on those in Section 2.

¹ The Premium Cash Fund and Premium Diversified International Equity Fund risk indicators were calculated using market index returns, rather than actual returns, as these funds commenced 10 March 2026. Accordingly, these risk indicators may provide a less reliable indicator of the potential future volatility of these funds. Market index returns have been used from 1 January 2021 to 31 December 2025.

See Section 4 for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at fisherfunds.co.nz/managed-funds/ippq.

Who manages the Fisher Funds Premium Service?

Fisher Funds manages the funds. See Section 7 for more information about us.

How can you get your money out?

This is a flexible investment option, and you can usually withdraw some or all of your investment at any time. Below are more details about withdrawing your investment:

- There's no charge for withdrawals.
- You'll need to complete a withdrawal form.
- There is currently a minimum withdrawal amount of \$10,000 per transaction. Fisher Funds may waive or reduce this minimum.
- A minimum account balance of \$500,000 should be maintained across all of the funds you're invested in. We have discretion to allow balances below this threshold (including where lower minimum account balances have been permitted for existing investors).

Section 2 provides more information on withdrawing your investment.

Your investment in these funds can be sold but there is no established market for trading these financial products. This means that you may not be able to find a buyer for your investment.

How will your investment be taxed?

Each fund is a portfolio investment entity (PIE). The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (PIR). This can be 0%, 10.5%, 17.5% or 28%. See Section 6 of the PDS (what taxes will you pay?) on page 13 for more information.

Where can you find more key information?

Fisher Funds is required to publish quarterly updates for each fund. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at fisherfunds.co.nz/premium-service/forms-and-documents. The manager will also give you copies of those documents on request.

2. How does this investment work?

Your investment in each of the funds is combined with those of other investors and managed by a team of investment professionals on your behalf.

What are the benefits?

- **A dedicated Wealth Adviser:** Your Wealth Adviser will take the time to get to know you and understand your unique financial goals and the ambitions you have for the future.
- **A thorough investment solution:** With access to a range of funds and asset classes, your Wealth Adviser will work with you to establish an investment portfolio that meets your goals. Regular reviews will ensure your investment portfolio stays aligned to your situation and objectives.
- **Access to the latest investment insights:** Your Wealth Adviser has a direct link to our experienced Investment Team, giving you access to the latest investment insights and answering any questions you may have along the way.
- **A flexible wealth management solution:** You can add or withdraw funds or make changes to your investment when it suits you - so you're always in control. (See below for conditions.)

How does it work?

When you invest in the funds, money you invest is used to buy units in your name in the fund or funds that you choose. More information on the funds can be found in Section 3.

- Each unit you buy will have a price calculated each business day based on the value of the fund's assets at the time.
- Changes in the value of the fund's assets (up or down) are reflected in the unit price.

Each fund in the Fisher Funds Premium Service is a trust governed by a Governing Document between Fisher Funds and Trustees Executors Limited (the 'Supervisor'). Your investments are held by a custodian appointed by the Supervisor, who is independent from Fisher Funds. Each fund is accounted for separately so assets in one fund can't be used to meet the liabilities of another.

The funds do not currently make distributions. Any income or capital gains are included in the unit price of the funds.

Responsible investment

Responsible investing is embedded in our research and investment process. Our Responsible Investment Policy is available at fisherfunds.co.nz/responsible-investing.

Making investments

It's easy to invest in the funds and they're open to most people including;

- Individuals (including joint investors)
- Trusts or Partnerships
- Estates
- Charities
- Companies
- Incorporated Societies or Associations

The Fisher Funds Premium Service does have some minimum investment amounts which, unless we agree otherwise, are:

Activity	Minimum amount*
Opening your investment	\$500,000
Making additional investments	\$10,000 per fund
Minimum amount invested	\$10,000 per fund

You can start your Fisher Funds Premium Service journey by completing an application form at the back of this document or by simply giving us a call if you'd like us to help you through the process.

You can invest anytime by making a lump sum or regular contribution by direct credit transfer or direct debit. Making regular contributions to your investment can help you reach the financial success you dream of.

*We have discretion to accept applications or allow investment balances below the minimum amounts. Please talk to your financial adviser if you would like to invest but are below the minimum thresholds.

Withdrawing your investments

The Fisher Funds Premium Service gives you the flexibility to withdraw some or all of your investment at any time, subject to the requirements and conditions set out below. There's no charge to make withdrawals.

How to make a withdrawal

- Simply complete a withdrawal request form (you can download a form from fisherfunds.co.nz/premium-service/forms-and-documents).
- Partial withdrawals need to be at least \$10,000* per transaction.
- Regular withdrawals must be for a minimum of \$1,000* per transaction and are available monthly.
- A minimum account balance of \$500,000 should be maintained in total across the funds you are invested in and \$10,000* in each fund you are invested in, or we may withdraw your remaining investment in the relevant fund(s) and pay it to you. We have discretion to allow balances below the \$500,000 threshold (including where lower minimum account balances have been permitted for existing investors). We may also take into account other balances you have in Fisher Funds products for the purpose of calculating your total balance.

*Fisher Funds may waive or reduce these minimums.

What happens when you make a withdrawal?

- Once we have received your completed withdrawal request form, accompanied by all necessary documentation, your withdrawal will be processed at the next available unit price. Withdrawals usually take 3-5 business days to process. In certain unusual circumstances withdrawals may take up to 10 business days to complete. Withdrawal processing times may change. See the 'Understanding your investment' section of the 'Other Material Information' document at fisherfunds.co.nz/premium-service/forms-and-documents for the current processing times.
- PIE tax associated with the withdrawal may be deducted from your account.
- We may suspend or defer the timing of withdrawals (including switches) in some circumstances. Further information on suspensions and deferrals is set out in the 'Other Material Information' document at fisherfunds.co.nz/premium-service/forms-and-documents.

How to switch between funds

Fisher Funds Premium Service offers you a range of funds to choose from, with the flexibility to switch your investment between funds, at any time, usually with no charge. We may choose to charge a fee, for example if an investor wanted to make an unreasonable number of switches in a short time. PIE tax may be withheld on switches between funds.

Switching funds is easy; just complete a switch form at fisherfunds.co.nz/premium-service/forms-and-documents.

3. Description of your investment option(s)

Fisher Funds Premium Service offers a choice of seven funds to invest in, with the flexibility of investing in any combination of the funds. It's important for you to understand what your financial goals are, the timeframe you have to invest and how much risk you're comfortable to take before choosing what fund or mix of funds to invest in. Each fund has different risks and rewards and is designed to suit different types of investors. You might like to talk to one of our friendly financial advisers before making any decisions.

The funds may hold derivatives (contracts that are valued based on the performance of other assets) e.g. for currency hedging purposes in the funds that invest overseas, and alternative assets (such as investments in commodities), however there is no specific allocation to these investments.

The Statement of Investment Policy and Objectives (SIPO) sets out the investment philosophy, strategies and objectives for the funds. We regularly review and update the SIPO (in consultation with the Supervisor) to take into account current market conditions. The current SIPO for the funds can be found free of charge on the Disclose Register at disclose-register.companiesoffice.govt.nz. Any material changes to the SIPO will be advised to you in the Fisher Funds Premium Service Annual Report, which is also available on the Disclose Register.

Further information about the assets in the funds can be found in the fund updates at fisherfunds.co.nz/premium-service/forms-and-documents.

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

Risk indicators for each fund can be found in Section 3.

Risk indicator

Lower risk							Higher risk
1	2	3	4	5	6	7	
Potentially lower returns							Potentially higher returns

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at fisherfunds.co.nz/managed-funds/ipq.

Note that even the lowest category does not mean a risk-free investment.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 31 December 2025. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund update for the fund.

General investment risks

Some of the things that may cause a fund's value to move up and down, which affect the risk indicator, are:

- **Investment returns risk** — different types of investments perform differently. Generally, the return on a fund with more growth assets like shares will go up and down more over time than a fund with more income assets.
- **Market risk** — investment markets can be affected by economic conditions, political events, and environmental and technological issues.
- **Climate-related risk** — the market value of an investment may change due to the impacts of climate change.
- **Currency risk** — the value of foreign assets and currency held by funds can change (up or down) when there are movements in the exchange rate between the New Zealand dollar and the foreign currency.
- **Investment manager risk** — how we choose to allocate each fund's investments will affect returns. Returns may differ from any market index and from competing investments.
- **Credit risk** — the issuer of a security, an institution that we deposit funds with, or a third party that provides a guarantee for either may not honour their obligations, fail to complete transactions, or may become insolvent.
- **Counterparty risk** — a party to an investment contract may not honour their obligations, or fail to complete a transaction, or may become insolvent.
- **Interest rate risk** — the value of fixed interest investments may increase or decrease as a result of changes in interest rates.
- **Liquidity risk** — liquidity refers to the ease with which an asset can be sold. Low liquidity in a fund can affect the ability of the fund to make payments when needed (such as meeting withdrawal requests), or you may receive a lesser amount than expected if the assets have to be sold quickly and there are few buyers. Investment in unlisted assets increases liquidity risk, which applies particularly to any unlisted assets that the funds may hold.
- **Valuation risk** — a fund may hold investments, such as unlisted assets, which may lack a verifiable market valuation and therefore carry the risk of valuation uncertainty which could impact returns.
- **Concentration risk** — as an active manager, we invest some of the funds in a relatively small number of securities that we have individually researched and hold a high conviction will perform well over the long term. Where a fund consists of a small number of securities, the performance of one or a few securities will have a larger impact on fund performance than in a fund holding a greater number of securities.

Further information on these risks, and other risks, and the steps we take to reduce their impact on the funds' investments are set out in the 'Other Material Information' document on disclose-register.companiesoffice.govt.nz.

5. What are the fees?

You will be charged fees for investing in the Fisher Funds Premium Service. Fees are deducted from your investment and will reduce your returns. If Fisher Funds invests in other funds, those funds may also charge fees. The fees you pay will be charged in two ways –

- **regular charges** (for example, annual fund charges). Small differences in these fees can have a big impact on your investment over the long term:

- **one-off fees** (for example, fees charged for investing or withdrawing from the fund or other specific actions you take). Fisher Funds does not currently charge any one-off fees.

The table below shows the annual fund charges for each fund including GST, if any, unless otherwise stated. Estimates are reasonable estimates of future costs, expenses and fees which are likely to be charged in the future based on a combination of historic and forecast charges.

Fund	Fixed	Estimated	Estimated	Total estimated annual fund charges (% of net asset value)	Potential range of performance-based fees
	Manager's basic fee	Other management and administration charges	Performance fees ¹		
Premium Cash Fund	0.30%	0.10%	n/a	0.40%	n/a
Premium Income Fund	0.75%	0.10%	n/a	0.85%	n/a
Premium Property & Infrastructure Fund	1.00%	0.18%	0.17%	1.35%	0% to 2.00%
Premium New Zealand Fund	1.00%	0.11%	0.02%	1.13%	0% to 2.00%
Premium Australian Fund	1.00%	0.12%	0.01%	1.13%	0% to 2.00%
Premium International Fund	1.00%	0.10%	0.00%	1.10%	0% to 2.00%
Premium Diversified International Equity Fund	1.00%	0.10%	0.00%	1.10%	0% to 2.00%

Description of the above fees

Annual fund charges

Are made up of:

- The **Manager's basic fee** charged directly to the funds by Fisher Funds for providing services, including investment management services. This fee is disclosed on a before-tax basis. GST of up to 0.02% may be added to this fee prior to 1 April 2026, but not after this date².
- **Other management and administration charges** including costs and expenses incurred in relation to the funds for services such as accounting, custodian, unit pricing and audit services and the Supervisor's fee. GST may be included in some of these charges, where applicable.
- The **performance-based fee**, which is charged when we beat the high water mark and achieve the hurdle rate of return (both terms are explained below). This fee is disclosed on a before-tax basis. GST may be added prior to 1 April 2026, but not after this date².

There is no performance-based fee for the Premium Cash Fund and Premium Income Fund.

The performance-based fees are calculated daily. 30 June each year marks the date that the performance-based fees become payable if the high water mark and hurdle rate of return are exceeded.

The performance-based fees are capped at 2% of each fund's average net asset value per year.

The performance-based fees payable are 10% of the excess return above the hurdle rate of return (assuming we have beaten the high water mark) plus GST if any.

- A **high water mark** is used in the calculation of the performance-based fee to ensure that we are only rewarded for investment performance once. This is generally the highest unit price on which any previous performance-based fee was paid. Performance-based fees are payable only if the fund's performance exceeds the high water mark. This means that we don't get rewarded for making up any investment loss the fund incurs – which we think is only fair.
- The **hurdle rate of return** is the minimum return the fund must achieve before being able to charge a performance-based fee.

The hurdle rates of return for the funds are as follows:

Premium Property & Infrastructure Fund

The Official Cash Rate plus 3%, subject to beating the high water mark described above.

Premium New Zealand Fund, Premium Australian Fund, Premium International Fund, and Premium Diversified International Equity Fund

The Official Cash Rate plus 5%, subject to beating the high water mark described above.

In our fund updates, we compare the funds' performance against a combination of market indices appropriate to the asset classes the funds invest in. Our view is these indices provide the best comparison of how the funds should perform. However the hurdle rate of return for the performance-based fee payable to us is based on the Official Cash Rate plus a margin (as above). This means you may pay a performance-based fee even if the funds' performance does not match or beat the market index which has more comparable assets.

The annual fund charges are paid from the funds, or the underlying funds they may invest in.

1. Performance-based fees are estimated. Where applicable, the annual fund charges include a performance-based fee estimate based on the long term average performance of the fund's appropriate market indices compared to the long term performance of the hurdle rate of return of the fund.
2. Inland Revenue has issued an Interpretation Statement which provides that fees such as these are not subject to GST. Inland Revenue expects managers to have adopted this position by 1 April 2026.

Individual action fees

We don't currently charge any contribution, establishment, termination, or withdrawal fees, but may charge these or other fees in the future.

You may be charged other fees by us on an individual basis for investor-specific decisions or actions, though this is rare. See the 'Other Material Information' document at fisherfunds.co.nz/premium-service/forms-and-documents for more information about those fees.

Buy/sell spreads

Although under normal trading and market conditions we do not apply buy and sell spreads, we may choose to do so. You can find out if any buy or sell spreads have been applied at fisherfunds.co.nz/spread-pricing. Further information is set out in the 'Other Material Information' document at fisherfunds.co.nz/premium-service/forms-and-documents.

Example of how fees apply to an investor

Sarah invests \$10,000 in the Premium Australian Fund. The starting value of her investment is \$10,000. She is charged management and administration fees, which work out to about \$112 (1.12% of \$10,000). These fees might be more or less if her account balance has increased or decreased over the year.

Sarah may also be charged a performance-based fee if her fund earned more than its target.

Estimated total fees for the first year

Individual action fees	Nil
Fund charges	\$113
Other charges	Nil

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

This example applies only to the Premium Australian Fund. If you are considering investing in other funds in the Fisher Funds Premium Service, this example may not be representative of the actual fees you may be charged.

The fees can be changed

Our fees may change or new fees may be added — we'll let you know if they do. If we do make any changes to the fees, we'll make sure they are changed within the rules set by the Governing Document.

Fisher Funds must publish a fund update for each fund showing the fees actually charged during the most recent year. Fund updates, including past updates, are available at fisherfunds.co.nz/premium-service/forms-and-documents.

6. What taxes will you pay?

Each of the funds in the Fisher Funds Premium Service is a portfolio investment entity (PIE). The amount of tax you pay is based on your prescribed investor rate (PIR). To determine your PIR, go to ird.govt.nz/pir.

If you are unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department. It is your responsibility to tell Fisher Funds your PIR when you invest or if your PIR changes. If you do not tell Fisher Funds, a default rate may be applied.

If the rate applied to your PIE income is lower than your correct PIR, you will be required to pay any tax shortfall as part of the income tax year-end process. If the rate applied

to your PIE income is higher than your PIR, any tax over-withheld will be used to reduce any income tax liability you may have for the tax year and any remaining amount will be refunded to you by Inland Revenue.

Joint investors, companies and trusts may be taxed differently to individuals. For example, for a joint application we will use the highest PIR provided by the applicants. See under the heading 'Tax' in the 'Other Material Information' document at fisherfunds.co.nz/premium-service/forms-and-documents for more information on how your investment earnings are taxed. Or simply give one of our financial advisers a call.

Country of tax residence

Tax Identification Number

Is the trust a financial institution as defined by the Common Reporting Standard or FATCA?

A trust will be a financial institution based on the activities that it carries out or how it is managed. There are four types of financial institutions: custodial institutions, depository institutions, investment entities and specified insurance companies.

Yes No

If the answer to the above question is No, you must tick one of the boxes for the following question.

Is the trust a:

Active Non-Financial Entity OR Passive Non-Financial Entity

Generally, a trust will be an Active Non-Financial Entity (NFE) if less than 50% of its income is passive and less than 50% of its assets produce (or could produce) passive income. A trust will be a Passive NFE if it primarily (50% or more) derives passive income and/or has assets that primarily (50% or more) produce (or could produce) passive income. Passive income generally includes non-trading investment income in the form of: interest or equivalents, dividends, annuities, other financial arrangements' income, and rents and royalties.

Section 2 – Trust tax details (continued)

If yes please provide the tax identification details of any country (or countries) in which this entity is a tax resident other than New Zealand.

Country of Tax Residence

Tax Identification Number

Is this entity a financial institution as defined by the Common Reporting Standard or FATCA?

An entity will be a financial institution based on the activities that it carries out or how it is managed. There are four types of financial institutions: custodial institutions, depository institutions, investment entities and specified insurance companies.

 Yes No

If the answer to the above question is No, you must tick one of the boxes for the following question.

Is the entity a:

 Active Non-Financial Entity OR Passive Non-Financial Entity

Generally, an entity will be an Active Non-Financial Entity (NFE) if less than 50% of its income is passive and less than 50% of its assets produce (or could produce) passive income. An entity will be a Passive NFE if it primarily (50% or more) derives passive income and/or has assets that primarily (50% or more) produce (or could produce) passive income. Passive income generally includes non-trading investment income in the form of: interest or equivalents, dividends, annuities, other financial arrangements' income, and rents and royalties.

Does the entity have any controlling persons that are foreign tax residents? For example, authorised signatories
