

SMART HOME MONITORING

Small Appliance Module

Manufacturer's Installation Guide

Installation

1. Put the appliance module into wall receptacle. Make sure the receptacle is working properly. If it is controlled by a wall switch, it must be set to ON at all times.
2. Plug in the appliance to the appliance module.

WARNING AND CAUTIONS

- › Please install and/or use in accordance with appropriate electrical codes and regulations.
- › If you are unsure about any part of these instructions, please consult a qualified electrician.
- › To reduce the risk of overheating, do not install the device near heat sources, such as fires, boilers or heating vents.
- › Do not locate the device facing direct sunlight or humid place.
- › This instruction sheet contains important technical data.
Please keep it for future references.

SPECIFICATIONS

Input Power: 120V/60HZ

Max Load: 15A Resistive / 400W Incandescent

Operation Temperature - 0° - 40°C (32° - 104°F)
