The Story of a 90-Day Bet

Three years ago, Marcus sat across from me at a diner, notebook in hand, furiously sketching out an idea. He wanted to sell his new fitness coaching program online but was stuck in the same problem so many entrepreneurs face:

- Build a website or funnel from scratch and lose months to design headaches.
- Pay a developer thousands of dollars to set up systems.
- Or... try one of those “all-in-one” marketing platforms everyone was buzzing about.

He hesitated, worrying about cost. “What if I waste \$200 a month on software before I even make my first sale?” he asked.

That fear kept him on the sidelines. Fast forward, someone else launched a similar program, scaled quickly, and Marcus was left kicking himself.

Today, that hesitation doesn't have to exist. ClickFunnels has introduced a **limited-time deal: 3 months for just \$99**. That's less than many entrepreneurs spend on takeout or coffee in a week.

This is not just a discount — it's a **90-day window to test your funnel, prove your idea, and see if your business has legs** without the weight of a hefty monthly subscription.

What Is ClickFunnels?

If you're new to the world of funnels, here's the simplest way to understand it:

A funnel is a guided path for your customers — instead of sending them to a cluttered website, you lead them step-by-step:

1. Capture their attention with a clear page.
2. Collect their email or details.
3. Present your product or service.
4. Offer an upsell or add-on.
5. Close the sale.

ClickFunnels is the tool that allows you to do this without coding, without piecing together ten different apps, and without paying a developer every time you want to change a button color.

It combines landing page builder, email automation, checkout, upsells, membership sites, analytics, and more in one dashboard.

Normally, these features cost anywhere from \$97 to \$197 a month — and for many, that's enough to stall the decision. But with this new offer, the financial barrier is practically gone.

The \$99 for 3 Months Deal Explained

Here's what this special deal looks like in plain English:

- **Price:** \$99 total for 90 days.
- **Plan Level:** You get access to the Scale-level features (normally \$197/month).
- **Savings:** Instead of paying nearly \$600 over 3 months, you're paying under \$100.
- **Eligibility:** It's designed for new users who haven't had a ClickFunnels account before.

- **After 90 Days:** If you don't cancel, it renews at the regular monthly rate.

Think of it as a **90-day test drive** for your business. Long enough to build, test, and optimize a funnel. Short enough that you're not stuck if it's not for you.

Why This 90-Day Window Matters

Two weeks (the usual free trial) is enough to play around but not enough to build and launch something real.

Ninety days, however, is enough to:

- Build a funnel from scratch.
- Launch it to an audience.
- Run ads and gather data.
- A/B test copy, design, and pricing.
- Get sales, refine, and decide whether it's worth scaling.

It's like renting a fully equipped gym for 3 months at the price of a single day pass — but only if you show up and put in the work.

What You Can Do in 90 Days: A Funnel Action Plan

Here's a roadmap you can follow if you take this deal today:

Month 1: Build & Launch

- Pick one offer (don't overwhelm yourself).
- Use ClickFunnels templates to build a landing page, sales page, checkout, and thank-you page.
- Connect email sequences to follow up with leads.
- Publish the funnel and push it live.

Month 2: Test & Optimize

- Start sending small amounts of traffic (from social posts, email lists, or paid ads).
- Track opt-in rates, clicks, and sales.
- Run A/B tests on headlines, calls to action, and price points.
- Add upsells or downsells to increase order value.

Month 3: Scale & Decide

- If you've found a working funnel, gradually increase ad spend.

- Collect testimonials or proof to improve conversions.
- Create retargeting campaigns for those who didn't buy.
- Decide: renew at full price, switch to annual for savings, or cancel.

Even if you decide to cancel, you've bought 90 days of education and real-world funnel practice for less than \$100 — a fraction of the cost of a single online course.

Who Should Take This Deal

Perfect For:

- Entrepreneurs with an idea but no sales system.
- Coaches and consultants who want to book more calls.
- E-commerce sellers who want to test upsell flows.
- Freelancers and agencies who want to offer funnel building as a service.
- Anyone who wants to learn funnels hands-on without long-term risk.

Not For:

- Businesses already locked into another platform.
- People who won't commit to launching within 90 days.
- Those expecting software to magically bring customers without marketing effort.

Real ROI Scenarios

Here's how the math looks:

- **Digital Product at \$47:** Just 3 sales in 90 days covers your \$99 investment.
- **Coaching Call at \$250:** A single booking pays for your funnel and leaves profit.
- **E-commerce Store with \$30 Average Order Value:** Four orders and you're ahead.

The beauty of this deal is that you don't need a massive audience. Just a handful of conversions can justify the cost.

Strengths and Limitations

Strengths:

- **Ridiculous value:** Essentially paying \$33/month for a \$197 plan.

- **Time to test:** 90 days is long enough to actually get results.
- **All-in-one:** You don't need 6 different tools stitched together.
- **Beginner-friendly:** Templates and drag-and-drop builder mean no coding.

Limitations:

- **New users only:** You can't get this if you already had an account.
- **Auto-renewal:** If you don't cancel, you'll be billed the full \$197/month after 90 days.
- **Effort required:** The tool won't do the work for you — you must drive traffic and sell.

How to Maximize the 3 Months

1. **Choose One Goal:** Don't try to build ten funnels. Focus on one.
2. **Use Templates:** Don't reinvent the wheel — adapt proven funnel designs.
3. **Collect Data Early:** Drive some traffic from day one, even if small.
4. **Engage Leads:** Follow up with emails, offers, and retargeting.
5. **Evaluate Honestly:** On day 80, look at your numbers. If you're profitable or close, it's worth continuing.

Verdict: Should You Grab It?

The ClickFunnels 3 months for \$99 deal is not hype — it's a chance to finally test your business idea with one of the most powerful funnel builders on the market, without the stress of big monthly bills.

If you're serious about launching something this year, these 90 days can either:

- Prove your offer works and set you up for growth.
- Or teach you valuable lessons for less than the price of dinner for two.

Either way, it's a win.

Final Thoughts

Remember Marcus, the guy from the diner? When I told him about this deal, he finally pulled the trigger. Within 60 days, he had built a simple funnel for his fitness program, run \$500 in ads, and booked enough clients to make back 10x his \$99 investment.

The only difference between him three years ago and now was a low barrier to start. That's exactly what this deal gives you: a safe bet, a clear runway, and the chance to stop dreaming about your funnel and start running it.

The clock is ticking. The deal is limited-time. If you're even halfway serious about testing an idea, don't let hesitation hold you back like it did Marcus.
