# FAQS.

## ISN'T BEING PART OF THE SCHEME FAR MORE COMPLEX THAN RUNNING MY OWN CAR?

No. Signing up to the Scheme is simple and we handle the whole process for you. It also takes the hassle out of owning a car as insurance as well as servicing and maintenance are all covered and once you've had the car for three years we will replace it with a new one.

## CAN I INSURE MY PARTNER/CARER/OTHER FAMILY MEMBER TO DRIVE THE VEHICLE?

You can have up to three named drivers of the car on the Motability Scheme. For example, you plus two other people can be the named drivers or if you are unable to drive, you can have up to three named drivers (such as a parent or carer) on the vehicle.

## WHAT ARE THE RUNNING COSTS OF A NEW BMW?

Aside from the cost of fuel, your Motability Scheme all-inclusive lease covers everything you need to keep your car running smoothly, including insurance, servicing and maintenance, as well as accident and breakdown cover, so you can have the freedom of worry-free motoring, without the hassle of unexpected bills and enjoy the unique BMW driving experience.

For plug-in hybrid vehicles these figures were obtained using a combination of battery power and fuel, for battery electric vehicles these figures were obtained after the battery had been fully charged to 100%. Plug-in hybrid and battery electric vehicles require mains electricity for charging. WLTP figures shown are for comparability purposes. Only compare fuel consumption, CO<sub>2</sub> and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post registration), variations in weather, driving styles, fuel type and vehicle load.
