TalkTalk Business criteria for measuring call charges

- + Calls are measured in per second units. Charges are presented on the Customer's VAT invoice in two decimal places and are rounded to the nearest whole penny before VAT is applied. All call charges are pence per minute, correct as at 1st September 2025, exclude VAT and are rounded up to the nearest penny (1p).
- + TalkTalk Business will bill Customer Recurring Charges a month in advance on a pro rata basis. This means that on the Connection date the Customer will be charged 2 month's line rental on the 1st invoice. When the Contract expires the Customer will receive a month's line rental as a credit. The pro rata period can be from 1 month and 1 day long to 2 months in length.
- + Bank Holidays are charged at the standard weekday rates.
- + Time and duration of calls is as recorded on the TalkTalk Business Equipment.

Call Bundling

- + There can be delays between calls completing and being presented on an invoice caused by a number of technical reasons. This can cause problems when a Customer is charged on the basis of a bundle of calls. Whilst every effort will be made to overcome this situation, calls can appear on an invoice not in call start time order and hence may not necessarily be included in the appropriate bundle if calls are made towards the end of a bundle period.

Fair Usage Policy

- + Inclusive calls to UK landlines & mobiles are subject to fair usage of 5,000 mins per month. If you call usage excludes this amount in any given month, we reserve the right to charge for all call usage in that month and review your ongoing package.
