Sultan Saidov
Chief Executive Officer

Sultan Saidov is the Chief Executive Officer and Co-Founder of Beamery, where he leads the company's mission to create more agile, equitable, and future-ready workforces through AI and skills-based talent transformation.

A product visionary with deep roots in innovation, Sultan co-founded Beamery with a belief that talent should be seen for potential—not just pedigree. Under his leadership as President and Head of Product, Beamery became the category-defining platform for skills-first workforce planning, powering transformation at some of the world's largest and most complex organizations.

As CEO, Sultan oversees all global operations—bringing together product, go-to-market, and customer success teams to deliver measurable value and scale strategic outcomes for Beamery's customers. He continues to drive the company's long-term vision while ensuring every Beamery partnership results in meaningful business impact.

Sultan is a frequent speaker on the future of work, ethical AI, and workforce strategy, and has been recognized for his thought leadership on how organizations can embrace disruption with intelligence and humanity.

ABOUT BEAMERY

Beamery is an AI-powered platform that helps enterprise organizations make smarter talent decisions, by putting skills intelligence at the core of their people strategy. Our technology for HR teams empowers businesses to transform their workforce, unlock the potential of their people, and hire top talent faster. Companies use Beamery to connect talent plans to business goals, reduce risk, and navigate change with confidence. We are proud to be building a more inclusive, skills-based economy, where everyone has equal access to work opportunities.
