MASONLED

**Features**

1. Waterproof, dust proof, impact proof that is why they called tri-proof

2. One batch forming thick Aluminum built-in PC pipe, strong shock resistance and soft light

3. Water tight level: IP65, impact resistance: IK08

4. High light transmittance PC cover, good uniformity

5. Clip design on both sides, better for assembling and installation, tool free to wiring

6. 200-240V AC, 3000K, 4000K, 5000K, 6000KCCT

With a smooth even-output, the minimalist design of the Linear fixture led is clean and compact – great for applications such as refrigeration, task lighting, agriculture, or other low-clearance/tight environments. Linkable, you can quickly engineer a lighting layout to perfectly suit most applications
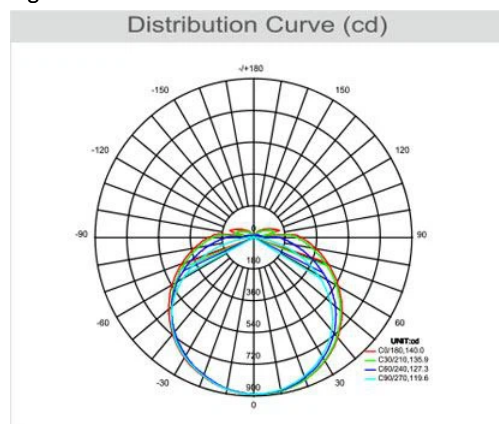

General task lighting
Retail environments

Commercial

Refrigeration

Agriculture

Inspection lighting

**Light Distribution**
