# 2022 Impact Report

Our mission at Cruise is to safely connect people to the places, things, and experiences that they care about. We drove this mission home in 2022, creating impact in every market we serve through building rider trust, offering cleaner, more sustainable miles, developing more inclusive and accessible design, and connecting our communities.

Cruise

## Connected Communities

Fundamental to our vision for safer, cleaner, and more inclusive transportation is connecting with communities. In 2022, Cruise remained steadfast in engaging the communities we serve, driving impact through Cruise for Good — our dedicated social impact program — and leading as the first and only AV company to join the Pledge 1% movement.

# 350K

Meals delivered through Cruise for Good, and 2.3M since April 2020

# 24K

Deliveries on behalf of Cruise for Good partners

# 150+

Community-based organizations engaged across SF, Arizona, Austin, and Washington, D.C.

## Inclusive, Accessible Design

In order to achieve inclusive mobility, we must design our products with all riders in mind. Cruise is committed to providing riders with an accessible app and in-ride experience, and made tremendous progress in 2022 developing new features, refining the wheelchair-accessible Origin Mobility, and engaging a range of accessibility advocates and community members that will inform our approach in 2023 and beyond.
