

# Overcome Finnish extremes to get you everywhere

## High quality motor oils for passenger cars

Our high-quality lubricants are formulated with premium base oils and the best available additives. They are the result of many years of experience and extensive knowledge of both automotive and industrial lubricants.

We also create world-class low-carbon products from renewable and recycled raw materials.

We closely follow market trends and the needs of original equipment manufacturers: we continuously improve products and ensure that they meet modern requirements. We proudly promise the highest reliability and performance of engines and equipment in all areas of our products. With the same pride, we promise that our products will, via improvements, have less and less environmental impact year after year throughout their entire life cycle.

### Responsible choices

Responsibility is a comprehensive understanding of sustainable development and a better future for both the environment and people. Our responsible approach extends to everything we do: the production chain, our services, product distribution, and partnerships.

### Finnish quality

We closely follow market trends and the needs of original equipment manufacturers: we continuously improve products and ensure that they meet modern requirements. We proudly promise the highest reliability and performance of engines and equipment in all areas of our products. With the same pride, we promise that our products will, via improvements, have less and less environmental impact year after year throughout their entire life cycle.

### Neste company in brief

Neste creates solutions for mitigating climate change and accelerating a shift to a circular economy. The company is the world's leading producer of sustainable aviation fuel (SAF) and renewable diesel, enabling its customers to reduce their greenhouse gas emissions. Neste refines waste, residues and other renewable raw materials to high-quality renewable fuels at its refineries located on three continents.

Find the right motor oil and other lubricants and fluids for your vehicle on [lub.neste.com](https://lub.neste.com)

*Check the requirements for the motor oil in the vehicle's user manual.*
