

Overcome Finnish extremes to get you everywhere

High-quality motor oils for passenger cars

Our high-quality lubricants are formulated with premium base oils and the best available additives. They are the result of many years of experience and extensive knowledge of both automotive and industrial lubricants. We also create products with a reduced carbon footprint* from renewable and recycled raw materials.

Finnish quality

We closely follow market trends and the needs of original equipment manufacturers: we continuously improve products and ensure that they meet modern requirements. We proudly promise the highest reliability and performance of engines and equipment across our entire product portfolio.

Neste company in brief

Neste's renewable products support the shift to a circular economy*. Neste is the world's leading producer of renewable diesel and sustainable aviation fuel (SAF), with production on three continents. Neste also produces high-quality oil products at its Porvoo refinery in Finland. Neste's strategy focuses on growth in renewable fuels, which can help reduce transport sector greenhouse gas emissions*.

Find the right motor oil and other lubricants and fluids for your vehicle on lub.neste.com.
Check the requirements for the motor oil in the vehicle's user manual.

*) When verified to fulfill the mandatory sustainability criteria in accordance with the biofuel regulation in our markets (e.g. EU RED), including greenhouse gas emission reduction requirements over the fuel's life cycle compared to fossil fuel.
