

Master the Subtraction Facts from 4

4-group Math™ is a visual and kinesthetic method designed to develop number sense and fact fluency. It uses a unique set of number patterns to make math easy and fun.

For more information visit our website at 4groupmath.com.

Introduction to 4-group Math

Mission statement: Creating a new generation of kids who love math.

To be successful in mathematics children must have **rapid** recall and know with **accuracy** and **confidence** their addition and subtraction facts.

Subitizing

The science behind 4-group Math is called *subitizing* (pronounced *sue-bi-tie-zing*): the brain's **rapid**, **accurate** and **confident** judgment of the quantity of a set of objects without counting.

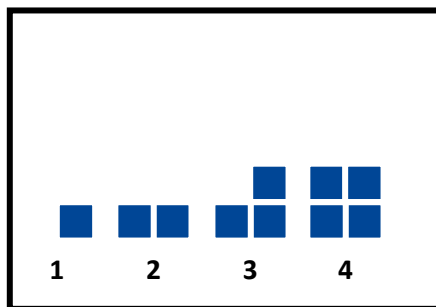

Young children can *subitize* a set of four objects when those objects are arranged in a square pattern.

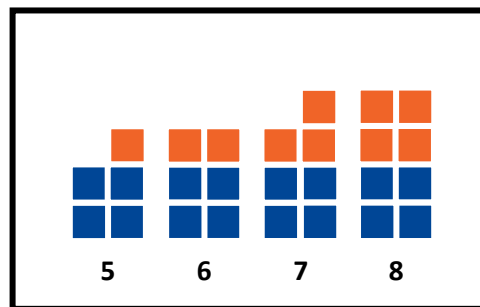

4-group Math, a visual and tactile model, uses this innate ability as an anchor to conceptualize the quantity of numbers.

The 4-group Number Patterns

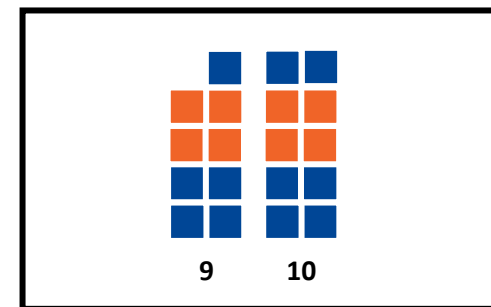

The 4-group Number Patterns
1-4 are easy to see and *subitize*.

1, 2, 3, & 4 are attached to another
4-pattern to create 5, 6, 7 and 8.

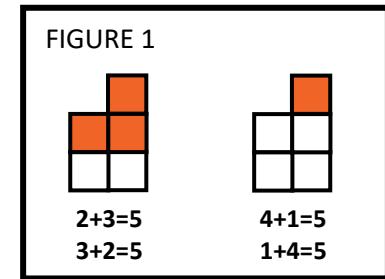

The 1- and 2- patterns are attached
to the 8-pattern to create 9 and 10.

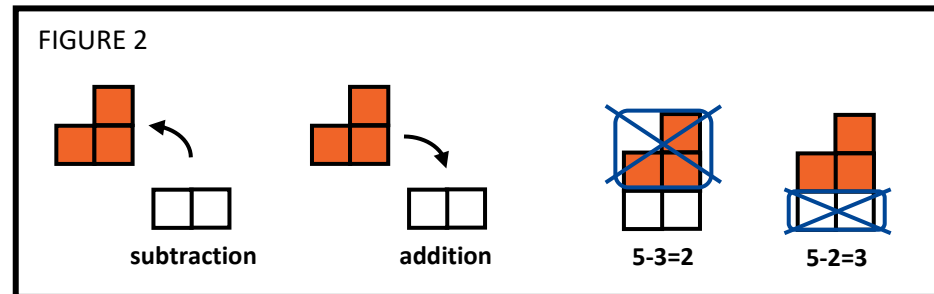

Addition and Subtraction

The 4-group Number Patterns are unique in that they are summative. They fit together like a puzzle to form the 4-group Number Pattern for their sum. For example; a 3-pattern and a 2-pattern combine to make the 5-pattern while the 4-pattern and 1-pattern combine to make the same 5-pattern. (FIGURE 1)

The 4-group Number Patterns are unique in that subtraction is modeled as the exact opposite of addition. (FIGURE 2)

4-group Math Counting Order

4-group Math uses a unique counting order that starts at the bottom and counts up from right to left. We have found that children who count in this manner, make fewer mistakes in their counting.

We build the number patterns starting at the bottom and going up: right, left; right, left.

10	9
8	7
6	5
4	3
2	1

Children can stop their counting at any time and see the 4-group Number Pattern for the quantity.

1	2	3	4	5
---	---	---	---	---

When we add we regroup to the left.

1	←
2	8
+	3 4
<hr/>	
	2

We build right to left because numbers get bigger as the digits *move to the left*. For example, when 9 becomes a 10, the group moves left into the tens place.

Activity 1 – Take Away Partners Directions

OBJECTIVE: Build, take away, and recite the subtraction equations from 4: $4-0=4$, $4-4=0$; $4-3=1$, $4-1=3$; $4-2=2$

MATERIALS: 4-group Number Blocks: one 1-block, two 2-blocks, one 3-block, and one 4-block
Activity 1 – Take Away *Partners* Block Board

GROUP: Independent, 1 on 1, or small group

DIRECTIONS: Build the block combinations to show the *partners* for four. Use two colors of blocks for each set of *partners*, except 4-0, 4-4. Then, cover up the equations and Point and Say each equation to a friend. Circle the whole 4-pattern with your finger and say, “*Four.*” (FIGURE 1) Physically take away a block as you Point and Say each subtraction equation. (FIGURE 2) Remember to switch the *partners*. (FIGURE 3) Begin with the language, “ take away leaves ,” eventually switch to, “ minus equals .” When you complete this activity, put a sticker in the Sticker space.

FIGURE 1

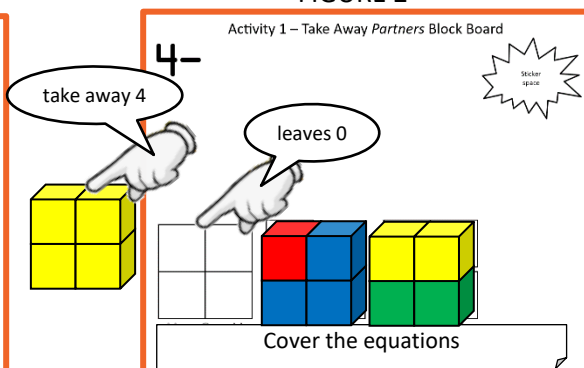

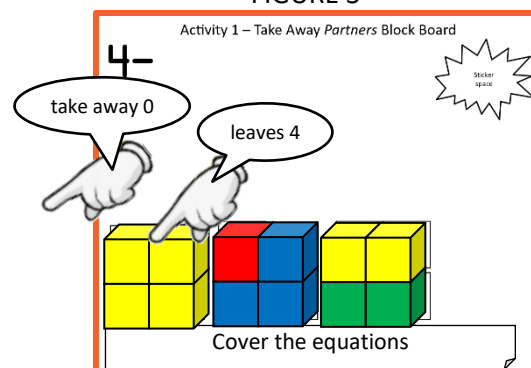

FIGURE 3

Activity 1 – Take Away *Partners* Block Board

4 -

$$4 - 0 = 4$$

$$4 - 4 = 0$$

$$4 - 1 = 3$$

$$4 - 3 = 1$$

$$4 - 2 = 2$$

Activity 2 – Coloring Take Away *Partners* Directions

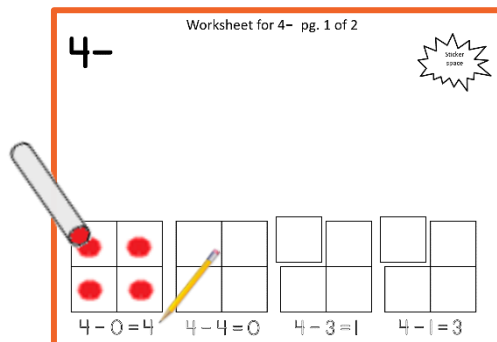

OBJECTIVE: Color, take away, and recite the subtraction equations from 4: $4-0=4$, $4-4=0$; $4-3=1$, $4-1=3$; $4-2=2$

MATERIALS: Two colors of crayons, markers, or stamps
Pencil
Worksheet for 4- pgs. 1-2

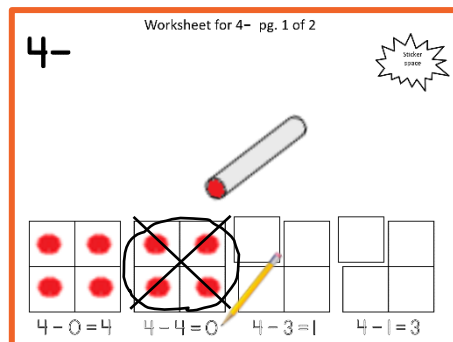

GROUP: Independent, 1 on 1, or small group

DIRECTIONS: Color to show the *partners* of four. Use two colors for each set of *partners*, except 4-0, 4-4. (FIGURE 1)
Circle & then cross out the whole number pattern that represents the equation shown below the picture. (FIGURE 2)
In pencil, write over each equation after you finish its picture. (FIGURE 2)
Then, cover up the equations and Point and Say each subtraction equation to a friend. (FIGURE 3)
When you complete this activity, put a sticker in the Sticker space

(FIGURE 3)

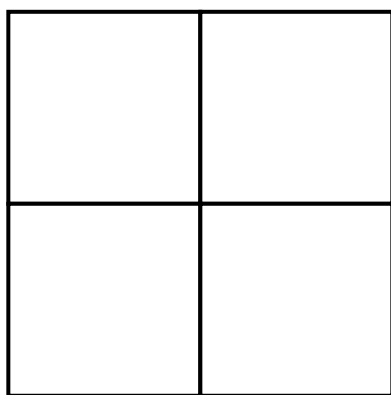

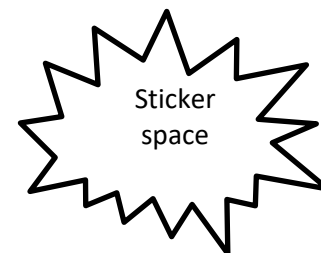

Point and Say:
**Four take away zero
leaves four.**
**Four take away four
leaves zero.**
**Four take away three
leaves one.**
**Four take away one
leaves three.**

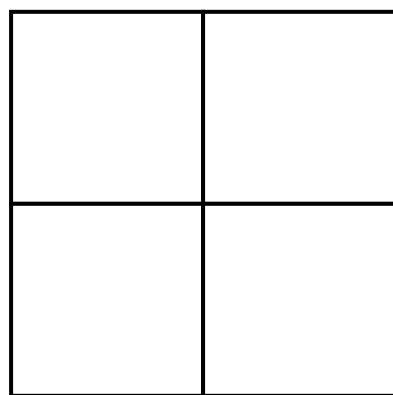

(Worksheet pg.1
is shown.)

Worksheet for 4- pg. 1 of 2

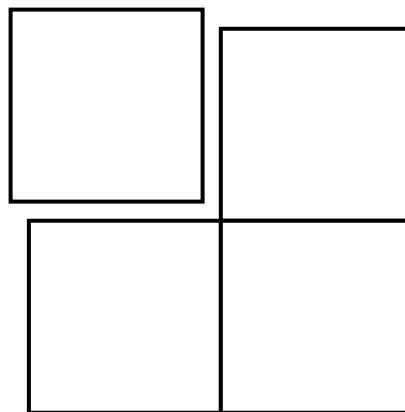

4-

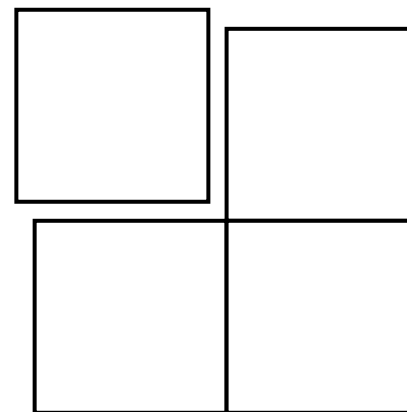

$$4 - 0 = 4$$

$$4 - 4 = 0$$

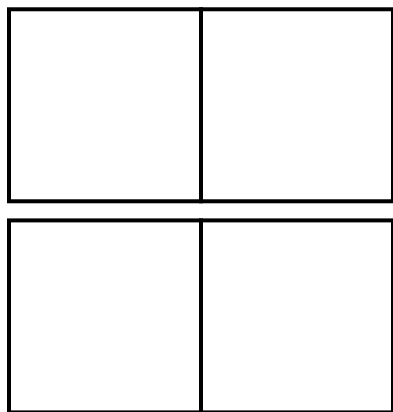

$$4 - 3 = 1$$

$$4 - 1 = 3$$

Worksheet for 4- pg. 2 of 2

4-

$$4 - 2 = 2$$

Activity 3 – Playing Card Take Away *Partners* Directions

OBJECTIVE: Make 4 with two cards, then recite the subtraction equations from 4: $4-0=4$, $4-4=0$; $4-3=1$, $4-1=3$; $4-2=2$

MATERIALS: One deck of 4-group Math Playing Cards; use only the cards 0-4. A clear “play” space to lay out the cards.

GROUP: Independent, 1 on 1, or small group

DIRECTIONS: Spread out the cards face up on your play space.
 Make all the two card 4-group Number Pattern combinations to form the number pattern for four. (FIGURE 1)
 Use all the cards. You will have multiple examples of each equation. (FIGURE 1)
 Circle the 4-pattern with your finger and say, “*Four*”. (FIGURE 2)
 Physically take away a card as you Point and Say each subtraction equation to a friend. (FIGURE 2)
 Remember to switch the *partners*; taking the other card away. (FIGURE 3)
 Begin with the language, “ take away leaves ,” eventually switch to, “ minus equals .”
 When you complete this activity, put a sticker in the Sticker space.

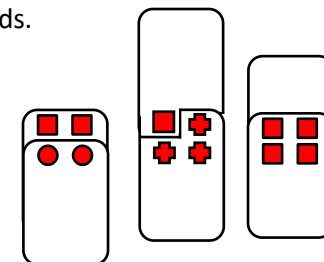

FIGURE 1

FIGURE 2

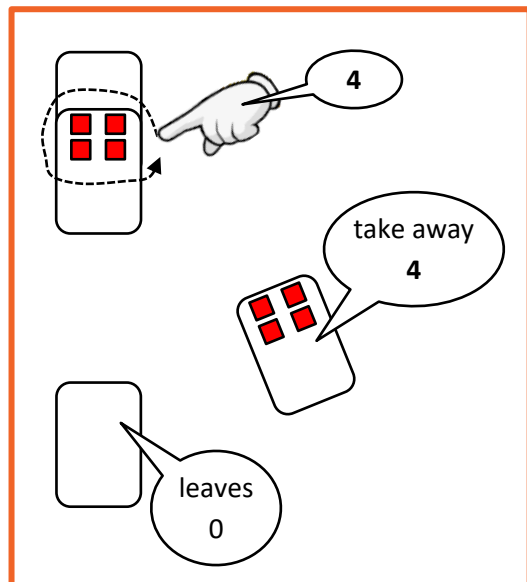

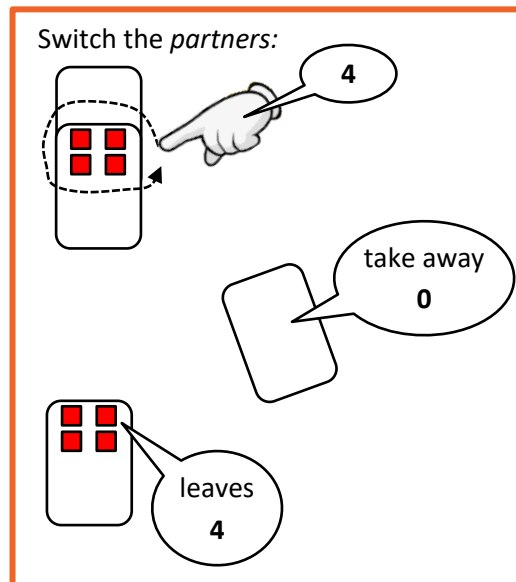

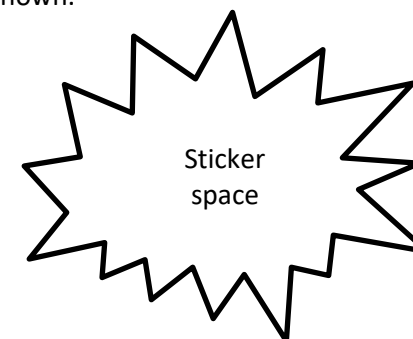

FIGURE 3

One example of Point and Say the subtraction equations is shown.

Activity 4 – Build & Color Take Away *Partners* Directions

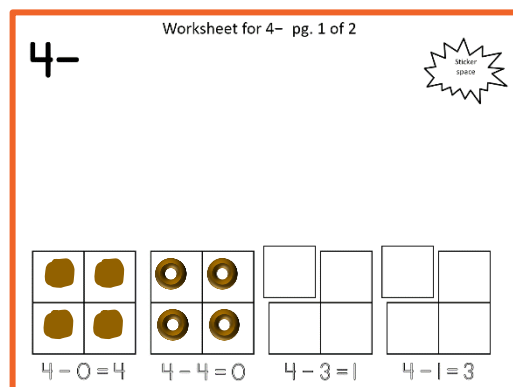

OBJECTIVE: Build, color, take away, and recite the subtraction equations from 4: $4-0=4$, $4-4=0$; $4-3=1$, $4-1=3$; $4-2=2$

MATERIALS: Two colors of a small manipulative; cubes, buttons, candies, crackers
Two crayons or markers to match the manipulatives' colors. Pencil
Worksheet for 4- pgs. 1-2

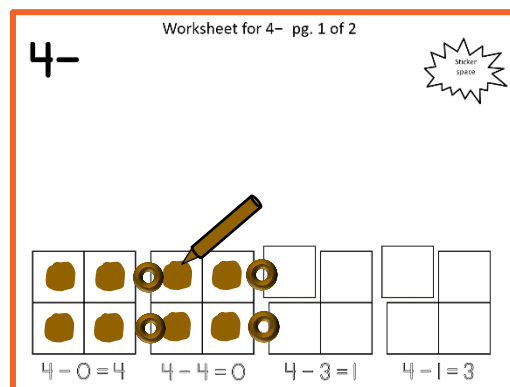

GROUP: Independent, 1 on 1, or small group

DIRECTIONS: Build with the manipulatives to show the *partners* of four. Use two colors for each set of *partners*, except 4-0, 4-4. (FIGURE 1)
Then, push the items off each square as you record your work with the crayons. (FIGURE 2)
Circle & then cross out the whole number pattern that represents the equation shown below the picture. (FIGURE 3)
In pencil, write over each equation after you finish its picture. (FIGURE 3)
Then, cover up the equations and Point and Say each equation to a friend. (FIGURE 4)
When you complete this activity, put a sticker in the Sticker space.

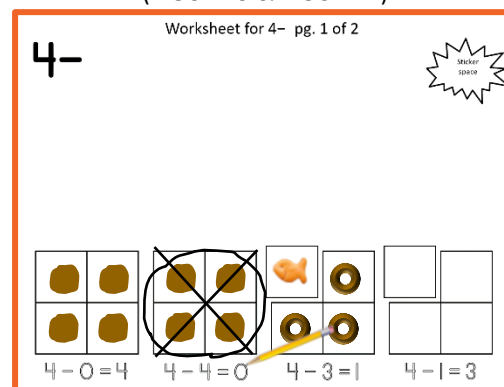

(FIGURE 1)

(FIGURE 2)

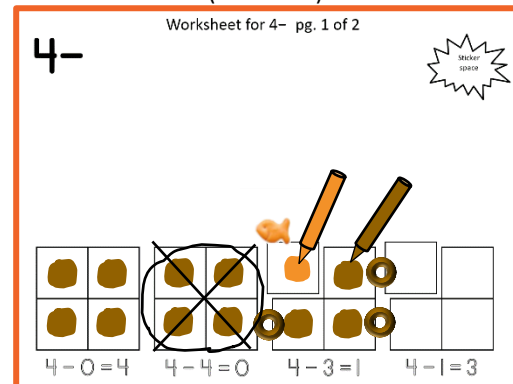

(FIGURE 3 & FIGURE 1)

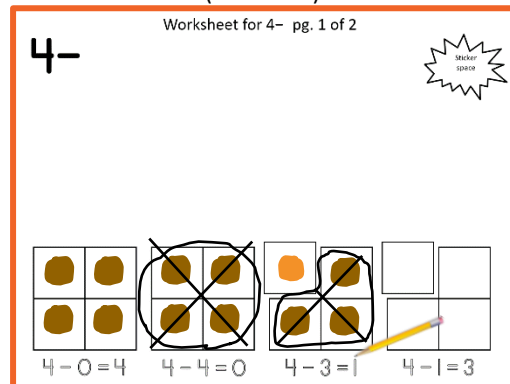

(Worksheet
pg.1
is shown.)

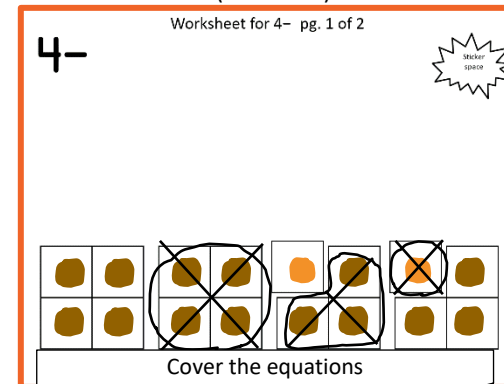

(FIGURE 2)

(FIGURE 3)

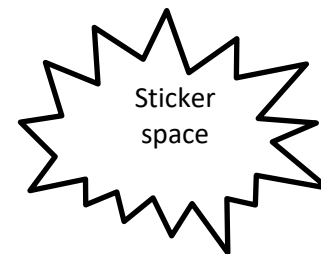

(FIGURE 4)

Point and Say:
Four take away
zero leaves four.
Four take away
four leaves zero.
Four take away
three leaves one.
Four take away
one leaves three.

Worksheet for 4- pg. 1 of 2

4-

$$4 - 0 = 4$$

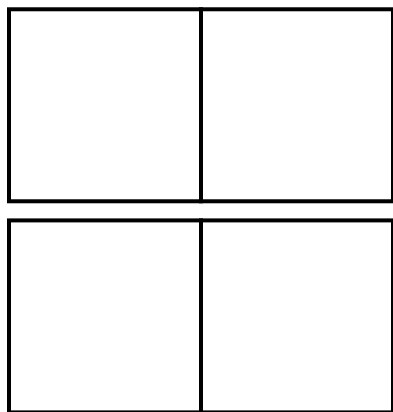

$$4 - 4 = 0$$

$$4 - 3 = 1$$

$$4 - 1 = 3$$

Worksheet for 4- pg. 2 of 2

4-

$$4 - 2 = 2$$

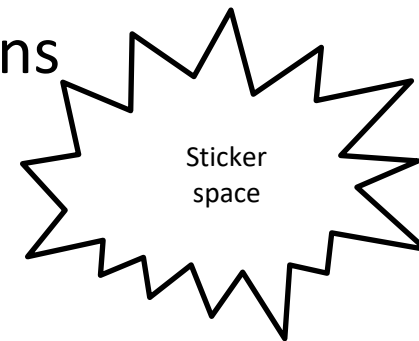

Activity 5 – Partner Flip Cards Directions

OBJECTIVE: Complete the subtraction equations from 4

MATERIALS: Activity 5 – *Partner Flip Cards* for 4

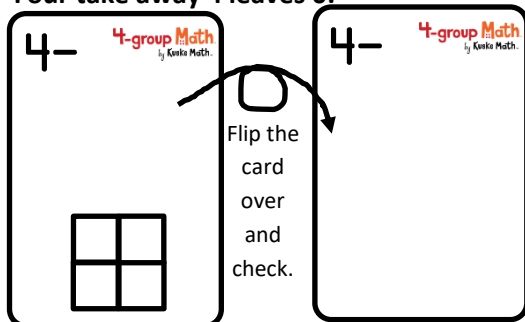

GROUP: Independent, 1 on 1, or small group

DIRECTIONS: Cut out the three cards on the following page. Lay the cards on the table in any order with either side facing up. Look at one card. Say the equation that is represented: “Four take away ___ leaves ___.” Flip the card over and check your answer. Continue for all the cards. Beginning with the sides now facing up, repeat the process. Continue until you give the correct answers for each card. When you complete this activity, put a sticker in the Sticker space.

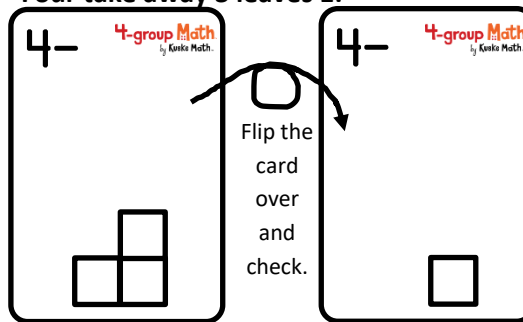

Look and Say:

Four take away 4 leaves 0.

Look and Say:

Four take away 3 leaves 1.

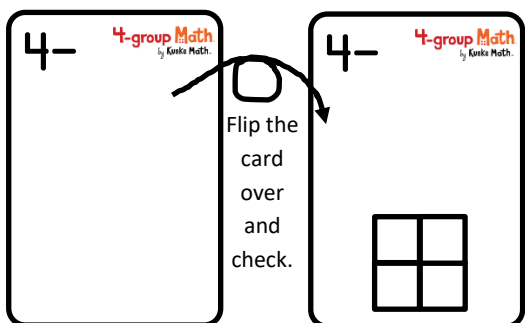

Two examples are shown.

Beginning with the sides now facing up, repeat the process:

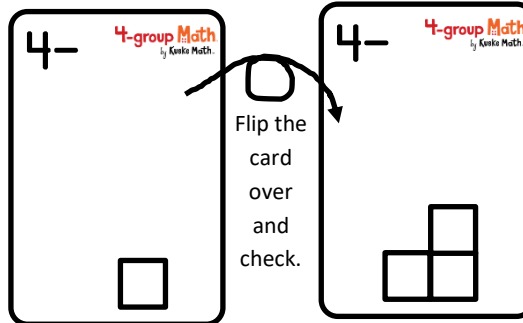

Look and Say:

Four take away 0 leaves 4.

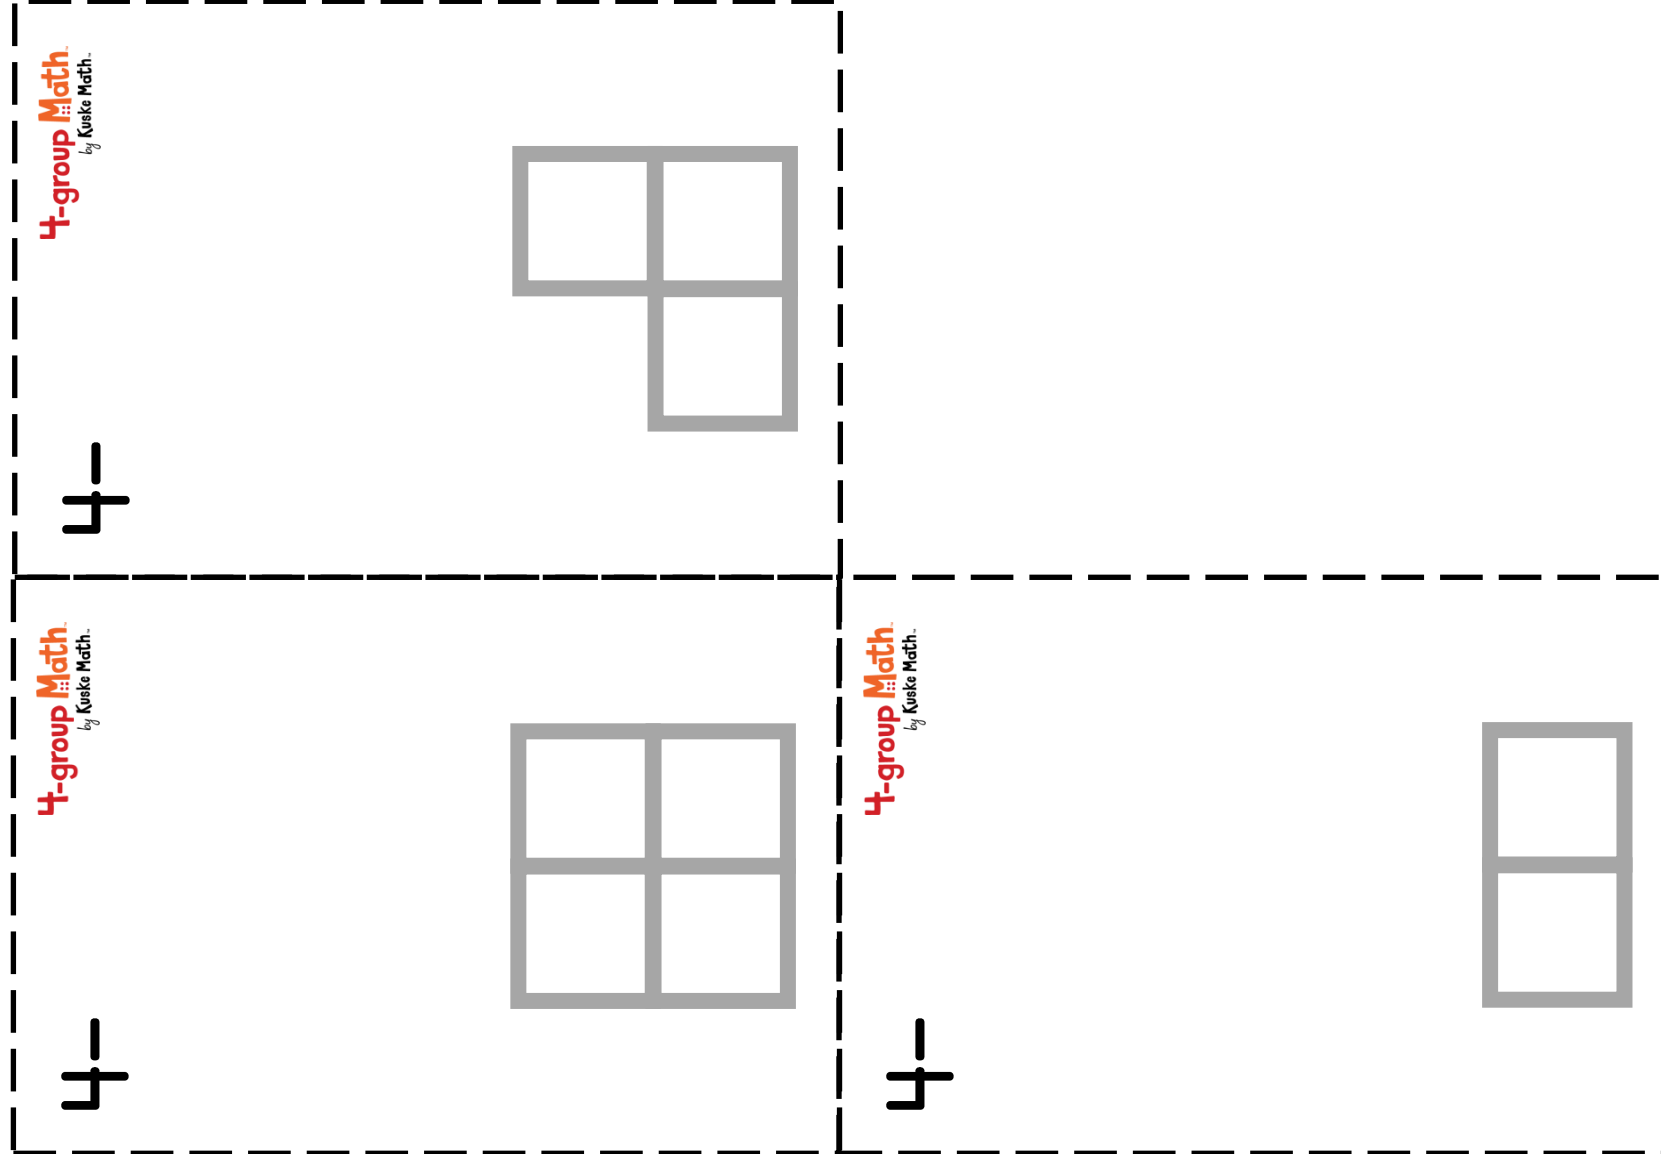

Look and Say:

Four take away 1 leaves 3.

Activity 5 –Partner Flip Cards for 4

Activity 6 – Assessment Directions

OBJECTIVE: Write and recite from memory the subtraction equations from 4, including the switched *partners*

MATERIALS: Activity 6 – Assessment Sheet or a blank piece of paper
Pencil

GROUP: One child with teacher or another adult

DIRECTIONS: On the Assessment Sheet or a blank piece of paper, write from memory all the *subtraction* equations from four, including the switched *partners*. It is okay for an adult to record for you if you tell them what to write. (FIGURE 1)
Find an adult to “test” you.

The adult asks you to recite all your equations (in any order). (FIGURE 2)

Then, the adult says one equation and you complete the equation by supplying the answer. (FIGURE 3)

Continue until all equations are said, including the switched *partners*.

If you pass, put a sticker in the Sticker space.

If you do not pass, practice a little more by repeating two activities from Activities 1-5.

FIGURE 1

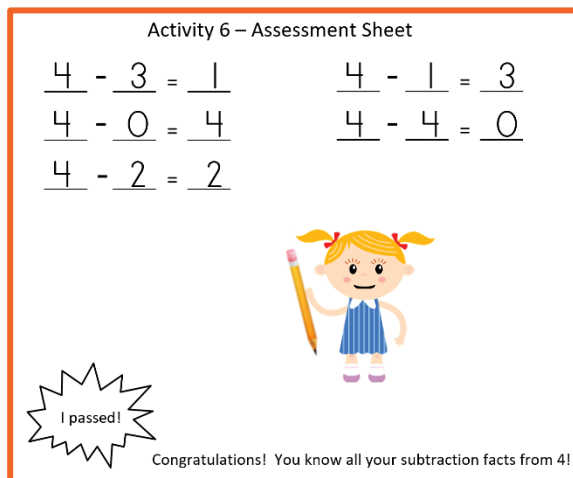

FIGURE 2

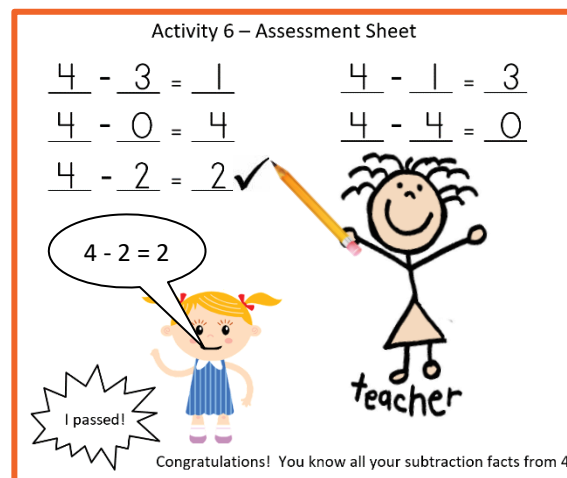

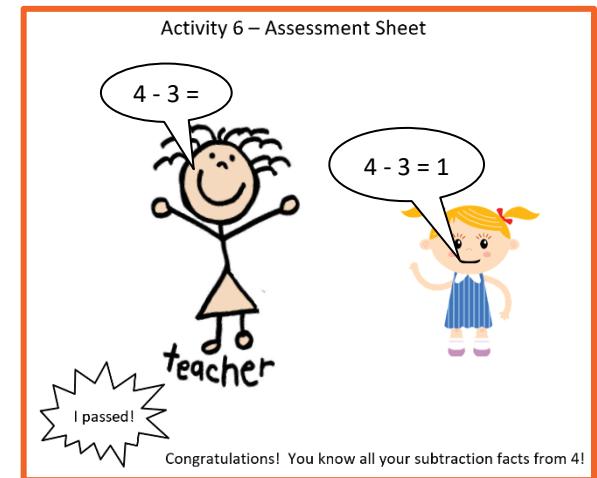

FIGURE 3

EXAMPLE:

The adult says, “Four take away three leaves__.”

Child says, “Four take away three leaves one.”

Activity 6 – Assessment Sheet

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

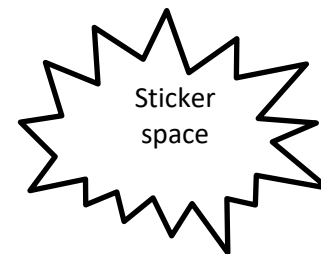

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

Congratulations! You know all your subtraction facts from 4!

Worksheet for 4- pg. 1 of 2

4-

$$4 - 0 = 4$$

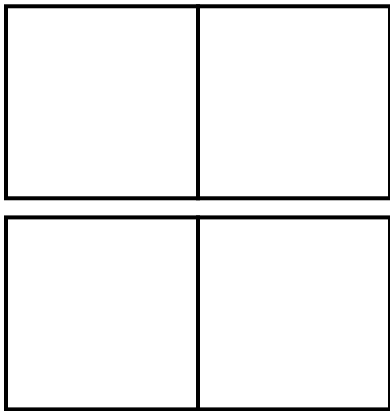

$$4 - 4 = 0$$

$$4 - 3 = 1$$

$$4 - 1 = 3$$

Worksheet for 4- pg. 2 of 2

4-

$$4 - 2 = 2$$

Activity 6 – Assessment Sheet

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

Congratulations! You know all your subtraction facts from 4!
